Subject: PU-18-277 Hiland's Roosevelt Gas Plant

Mr. Bender,

I resized the map for publication included with the application to the size that would be published in the paper and find that it will not work. In addition, the map could be zoomed out a bit to show proximity to Watford City. The HWY 85 marker and other road and creek names could be larger font, and "Roosevelt Gas Plant could be a label for the site. Contact me if you have questions.

Forgot to mention that I am not able plan a date for hearing until an ALJ and Commission counsel are procured.

I did not find the following information and therefore request that the application be supplement with:

- A table listing the agency consultations and status of consultations.
- Hiland's Unanticipated Discovery Plan for the project.
- Hiland's Emergency Procedures Plan
- A noise study report (pre-construction acoustic study, manufacturer's equipment noise specifications and noise modeling study)
- A blast radius study report.
