

Quarter (SW¼) of Section 19, Township 134, Range 141

**Property**

The Wind Farm is considered a wind energy conversion facility under North Dakota law. A wind energy conversion facility site cannot include property where operation of the facility will result in sound levels that exceed 50 dBA within one hundred (100) feet of an inhabited residence, unless the owner of the residence signs a waiver allowing operation of the facility. Operation of the Wind Farm may result in sound levels that exceed 50 dBA within one hundred (100) feet of the existing residence located on the Property.

By signing this waiver, you, as the owner of the inhabited residence on the Property, acknowledge and confirm that (1) you have discussed potential impacts from the Wind Farm to the Property with Operator, and (2) you have no objection to the construction and operation of the Wind Farm. Execution of this waiver confirms your understanding that operation of the Wind Farm may result in (1) sound levels that exceed 50 dBA within one hundred (100) feet of your residence, and (2) shadow flicker or glare that exceeds 30 hours per year at your residence, and with the aforementioned understanding you waive the sound level avoidance criteria requirements in N.D. Admin. Code §69-06-08-01(4) and flicker/glare industry guidelines.

Dated this 25 day of October, 2018.
