

**Emmons-Logan Wind, LLC
Emmons-Logan Wind Energy Center
PU-18-280
Late-Filed Exhibit 4**

At the December 7, 2018 public hearing for the Emmons-Logan Wind Energy Center, the Commission inquired about the altitude at which aircraft will activate an Aircraft Detection Lighting System. Obstruction lighting will be activated and illuminated if aircraft is located within a coverage area that extends from the ground level up to 1,000 feet above the highest part of a turbine or group of turbines.
