**NOTICE OF OPPORTUNITY FOR HEARING**

**May 15, 2019**

On February 6, 2019, in Case No. PU-18-280, the Commission issued Findings of Fact, Conclusions of Law and Order issuing Certificate of Site Compatibility No. 57 to Emmons-Logan Wind, LLC (Emmons-Logan) authorizing construction of the Emmons Logan Wind Energy Center in Emmons and Logan Counties.

Also on February 6, 2019, in Case No. PU-18-281, the Commission issued Findings of Fact, Conclusions of Law and Order issuing Corridor Certificate Number 208 and Route Permit Number 218 to Emmons-Logan authorizing construction of 6.85 miles of 230 kV electric transmission line and associated facilities in Emmons County.

On May 3, 2019, Emmons-Logan filed an application to replace the Tree and Shrub Mitigation Specifications incorporated into the Commission's February 6, 2019 Orders in Case Nos. PU-18-280 and PU-18-281 with the Commission's recently revised Tree and Shrub Mitigation specifications as contemplated in Ordering Paragraph #4 of those orders. Emmons-Logan further requests it continue to be allowed a maximum width of clear cuts through wooded areas of 150 feet for Case No. PU-18-281.

Also on May 3, 2019, in Case No. PU-18-280, Emmons-Logan filed a request to amend the Project's nameplate generating capacity as designated in Findings of Fact #4 of the Commission's February 6, 2019 decision from up to 298.1 MW to up to 299.4 MW.

The issues to be considered in are:

1. Whether the Tree and Shrub Mitigation Specifications should be updated as requested?
2. Whether the nameplate generating capacity should be updated as requested?

Those interested are invited to comment in writing on the applications. Persons desiring a hearing must file a written request identifying their interest in the proceeding and reasons for requesting a hearing. **Comments and requests for hearing must be received by July 3, 2019.** If deemed appropriate, the Commission can determine these matters without a hearing.
