

resources as described in further detail in the attached Memorandum. No additional surveys were required.

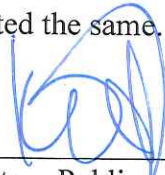

6. The Project Site Plan modification will not impact any cultural or tribal resources per a joint Class III Cultural Resources and tribal survey completed by AECOM. Emmons-Logan Wind will submit an amended Class III Cultural Resources Inventory Report to the State Historical Society of North Dakota for review and concurrence. In accordance with Ordering Paragraph No. 6, the concurrence letter will be filed with the Commission before the start of construction. *See* Memorandum.
7. The Project Site Plan modification also will not impact the acoustic and shadow flicker assessments previously completed for the Project. Specifically, there will not be an increase or decrease in the sound or shadow flicker levels at receptors due to the adjustment in turbine location. *See* Memorandum.
8. Activities associated with the Project Site Plan modification will not affect any known Exclusion or Avoidance areas. *See* Certification Provision No. 38(A)(1).
9. Project construction will occur wholly within the geographic location for which Emmons-Logan Wind previously obtained a site certificate. Maps and GIS shapefiles of the site modifications are enclosed. *See* Certification Provision No. 38(A)(2).
10. Emmons-Logan Wind will continue to comply with all applicable conditions and protections in the siting laws and rules and the Order previously issued for the Project. *See* Certification Provision No. 38(A)(3).
