**Weekly Status Report on Aircraft Detection Lighting System**  
**Our File No. 035218-000046**

Dear Mr. Fahn:

Pursuant to your request dated December 6, 2019, below please find Emmons-Logan Wind, LLC's ("Emmons-Logan Wind") status report regarding construction and installation of the Aircraft Detection Lighting System ("ADLS") at the Emmons-Logan Wind Energy Center ("Wind Energy Center").

Since the last status report provided on February 7, 2020, Emmons-Logan Wind completed test flights over the Wind Energy Center on the evening of February 11. The ADLS responded as expected, and Emmons-Logan Wind activated the ADLS following the test flights. Thus, as of February 11, the ADLS is installed, commissioned, and functioning to control the lights at the Wind Energy Center.

Please do not hesitate to contact me with any additional questions.

Sincerely,

**CROWLEY FLECK PLLP**
