NOTICE OF NONCOMPLIANCE

Case No. PU-18-351
Aurora Wind Project, LLC
345 kV Transmission Line – Williams and Mountrail

In Case No. PU-18-351, the Commission's May 29, 2019, Findings of Fact, Conclusions of Law and Order issued Certificate of Corridor Compatibility No. 210 and Route Permit No. 220 for the Project.

As-built GIS data

Paragraph 33 of the Certification Relating to Order Provisions, attached to and made part of the May 29, 2019, Order, requires that the Company provide the Commission an electronic version of the corridor approved by the Commission and the facility design specifications for the construction of the transmission facility showing the location of the transmission facility as built that can be imported into ESRI GIS mapping software within 3 months of the completion of the construction. It appears the Company has not filed this GIS mapping data and is in noncompliance of the Commission's Order.

Staff requests the GIS data be filed with the Public Service Commission by March 10, 2022, to avoid further action due to noncompliance.

Best regards,

A handwritten signature in cursive script that reads "Patrick Fahn".

Patrick Fahn
Director, Public Utilities Division
