

April 1, 2013

To Whom It May Concern:

Due to the construction that is planned on being done in Williams County, ALL WILLIAMS COUNTY PERMITS will have the following clause:

All new utilities or pipelines along the proposed construction areas, along with any township roads or section lines, may need to be relocated or adjusted at the owner's expense. We ask that you place your proposed pipeline at least 100' out from the centerline on each side of the road, and we are not sure on placement of bridges at this time.
