In Case No. PU-18-352, the Commission's May 7, 2019, Findings of Fact, Conclusions of Law and Order issued Certificate of Site Compatibility No. 59 for the Project.

As-built GIS data

Paragraph 34 of the Certification Relating to Order Provisions, attached to and made part of the May 7, 2019, Order, requires that the Company provide the Commission

an electronic version of the site approved by the Commission and the facility design specifications for the construction of the energy conversion facility showing the location of the energy conversion facility as built that can be imported into ESRI GIS mapping software within 3 months of the completion of the construction.
