Description (summarize the observations on which you rely to allege the violation) *If more space is required, please provide the description on a separate page.*

Liberty Resources operates a salt water disposal in the area, and has numerous gathering lines in the area. For one call ticket 18165926, the prescribed excavation area is directly over one of their known SW gathering lines, but they are not listed as a "member notified" on the one call ticket, meaning they do not have their UG facilities registered with ND One Call. This is a very congested area, with numerous gathering lines running UG through the area. Whiting requested to tie into their gathering line over a year ago, and they could not find the line to complete the tie in. Whiting had to hydrovac the entire road ditch to the edge of our location to find the line and complete the tie in. At that time, Liberty was supposed to register the lines and abide by all ND State one call laws, but they did not comply. Whiting shut off the line from the Gullickson location and no longer ships SW through Liberty's gathering system.
