To Whom It May Concern,

I, Austin Steinmetz was contacted by Dan from East Central Grain Marketing and was offered a contract on 5600 bushels of wheat on December 2018 Futures. December 3, 2018 futures price was \$5.83/bushel on 14 protein less \$0.70/bushel. The wheat was to be picked up at my place by purchaser. Ben Kirsch of Kirsch Trucking hauled the wheat. After several phone calls to East Central Marketing to receive my payment, I was told to call Public Service Commission and talk to Konrad Crockford. As the buyer from East Central Named Midwest Grain Trading was now insolvent. I haven't received payment yet.

Sincerely,

Austin Steinmetz
