I forgot that Jeff & I were paid on some of the Durum ~~on my~~ that was contracted for \$6<sup>70</sup>. As you can see, Jeff ~~for~~ deposited his (remotely) back on 8/24/18. My check which would have been the same as his (\$16,770<sup>44</sup>) was also deposited in the bank at about the same time.

$$\begin{array}{r}
 50\% \text{ Jeff} - \$16,770^{44} \\
 50\% \text{ Donald} - 16,770^{44} \\
 \hline
 \$33,540^{88}
 \end{array}
 \div \$6^{70} = 5006 \text{ Baskets of Durum}$$

So this 5006 Baskets would have to be deducted off from the total contracted baskets of 45,000.

$$\begin{array}{r}
 45,000 \\
 - \approx 5006 \\
 \hline
 40,000
 \end{array}$$

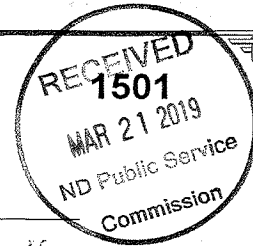

Thanks!
