**RE: ONEOK Bakken Pipeline, L.L.C.
Siting Application - Case No. PU-18-399
Our File No. 072591-000007**

Dear Mr. Renfandt:

On behalf of ONEOK Bakken Pipeline, L.L.C. ("ONEOK"), the following information is provided in response to the first set of items identified as one through eight in your January 14, 2019 request letter (Docket No. 10), in the above-referenced matter.

Request 1. Updated corporate papers.

On February 7, 2019, updated corporate papers were filed with the Commission in Case No. PU-13-739.

Request 2. An updated Exhibit B.5 black and white map for publication with larger fonts showing town and county names, landmarks, and other features that are more easily read when published.

On February 7, 2019, an updated black and white map for publication was filed with the Commission in Case No. PU-18-399.

Request 3. GIS map layers showing all exclusion, avoidance, and selection criteria in the 1-mile study area. Please also include the same set of GIS layers for the maps within the

Natural Resources Survey Report that were excluded from the original application submission.

An updated map set of the revised one-mile study area showing all exclusion, avoidance, and selection criteria was included in the Amendment to the original Application as Exhibit B.2, and filed with the Commission on February 7, 2019 in PU-18-399. A USB drive containing shapefiles of this data, and shapefiles of the data included in the Natural Resource Survey Report is enclosed for filing. *See* Files RFI_3A and RFI_3.

Request 4. The name, description, and location of the State/Scenic/Recreational River identified as an Avoidance Area in Table 7.2-1. Show this location on the map and legend on Exhibit B.2, and provide the mitigation plans and the GIS layer.

Upon further review, and in preparation of the Amendment to the original Application, ONEOK noted that it had incorrectly identified State Wild, Scenic, or Recreational Rivers as being within the Project's Study Area and Corridor. One state-listed scenic river is located in the same county as the Project (Little Missouri River); however, the river is located over ten miles from the Project. As such, there will be no impact to this feature. This information is also addressed in the Amendment to the original Application, filed on February 7, 2019.

Request 5. Identification of all geographically unstable areas along the pipeline and corridor on the Exhibit B.2 maps, including all areas mentioned in Table 1 in North Dakota Geological Society's ("NDGS") August 21, 2018 response. Include the GIS layer for all maps.

Geologically unstable areas identified in the NDGS response letter have been identified in the updated Exclusion and Avoidance maps, included as Exhibit B.2 in the Amendment to the original Application filed on February 7, 2019. GIS shapefiles of these areas is also included on the enclosed USB drive in the file named RFI_5.

Request 6. GIS layer for the wooded areas and the Tree and Shrub Inventory.

A draft Tree and Shrub Inventory and associated GIS shapefiles are included in this submittal. *See* File RFI_6. Additional survey for areas not inventoried in 2018 will be conducted in spring 2019.

Request 7. The completion date for the field surveys for the area between mile markers 18 and 19.5 in Exhibit B.4. Why have the surveys not been completed in this area?

ONEOK was unable to complete all environmental field surveys in 2018 due to access limitations and reroutes adopted after the environmental field season closed in 2018. ONEOK is planning to conduct additional natural and cultural resource surveys in spring 2019 (or sooner if field conditions allow) in areas that have not yet been surveyed. Information regarding additional areas still requiring survey is located in Tables 5.0-1 and 5.0-2 in the Amendment to the original Application, filed on February 7, 2019.

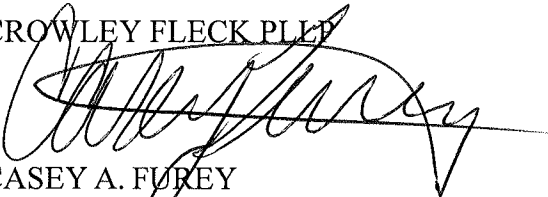

Request 8. Updated hardcopies of any map set that changed.

Updated hardcopy maps have been included in Exhibit B of the Amendment to the original application, filed on February 7, 2019.

Feel free to contact me with any questions.

Respectfully,

CROWLEY FLECK PLLC

A handwritten signature in black ink, appearing to read 'Casey A. Furey', is written over the printed name and extends to the right.
