Case No. PU-19-17

NOTICE OF OPPORTUNITY FOR HEARING  
January 23, 2019

On December 31, 2018, Otter Tail Power Company (Otter Tail) filed an application to increase its 2019 Renewable Resource Adjustment (RRA), which is part of the Energy and Renewable Adj. line on customer electric bills. The RRA recovers costs associated with renewable generation resources. Otter Tail proposes to increase the RRA from the current credit of -1.362% to a proposed credit of -0.224% effective April 1, 2019. The impact for a typical residential customer consuming 1,000 kWh per month would be an increase of approximately \$0.94 per month.

The issues to be considered in this proceeding are:

1. Whether the investments and associated costs for the resources qualify for recovery,
2. Whether the incurred costs are reasonable and prudent, and
3. Whether the rate adjustments are consistent with the terms of Otter Tail's tariff.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by March 1, 2019.** If deemed appropriate, the Commission can determine the matter without a hearing.
