Mr. Victor Schock

Per Section 7.0 of the Tree and Shrub Mitigation Plan, two years after the plantings are completed by the NDPF, ONEOK will file a summary documenting how the Plan met the purpose of the NDPSC Order and Specifications.

All Project landowners were provided an opportunity for tree and shrub replacements. However, all but one (1) landowner waived the plantings. The landowner that has not waived, requested to delay the re-plantings until Spring 2022. ONEOK also purchased trees and shrubs and donated the additional plants to local individuals and organizations for planting.
