**RE: ONEOK Rockies Midstream, L.L.C.
Bear Creek Gas Plant Expansion
Dunn County
Case No. PU-19-283
Our File No. 072530-000016**

Dear Mr. Fahn:

Please find enclosed a copy of a letter from the State Historical Society (“SHPO”) to Merjent, Inc., ONEOK Rockies Midstream’s environmental consultant in this matter, relating to the Class I and Class III Intensive Cultural Resource Inventory of the Bear Creek Gas Plant Expansion Project (the “Project”). In the letter, SHPO finds the report submitted to SHPO on August 1, 2019 acceptable and concurs with the determination that the Project will not impact the cultural resources in the area.

With regard to the specific comments, please note the following:

- 32 DU 2216 is located outside the Construction Location for the Project and will not be disturbed;
- while a portion of 32DU2405 lies within the Construction Location, that portion is a “non-contributing portion” of the overall cultural site and does not require protection; ONEOK will comply with the request to temporarily fence the southern boundary of the Construction Location to delineate the non-contributing and the remaining unevaluated portions;
- 32DUx1543 lies outside the Construction Location and will not be impacted by the Project.

If you or the Commission need any additional information, please let me know at your earliest convenience. In light of the September 1 deadline for the commencement of site preparation work, ONEOK would greatly appreciate your prompt attention to this matter. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "John W. Morrison", with a long horizontal flourish extending to the right.

John W. Morrison
