**Northern States Power Company
Renewable Resource Cost Recovery (2020)
Rates**

Case No. PU-19-329

NOTICE OF OPPORTUNITY FOR HEARING

November 21, 2019

On September 26, 2019, Northern States Power Company (NSP) filed a request for approval of its 2020 Renewable Energy Rider (RER). The purpose of this rider is to recover costs from NSP's North Dakota electric customers renewable energy generation not presently reflected in retail rates. In this filing, NSP would recover costs of six previously approved projects and two new projects that are expected to be in service in 2020. The RER rate would increase from \$0.001191 per kWh to \$0.002165 per kWh.

The 2020 RER rate would be applied to all energy billed to each customer effective January 1, 2020. As a result of the RER rate change, the residential electrical customer consuming 750 kWh per month, the monthly RER charge would be \$1.62, an increase of \$0.73 per month.

The issues to be considered in this proceeding are:

1. Whether the investments and associated costs for the resources qualify for recovery,
2. Whether the incurred costs are reasonable and prudent, and
3. Whether the rate adjustments are consistent with the terms of NSP's tariff.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by January 3, 2020.** If deemed appropriate, the Commission can determine the matter without a hearing.
