I heartily support wind farm installation in Burke County.

Nextera has invested a lot of time & effort into leasing, placing roads with consideration for the farming operations and drainage and conducted themselves with integrity with a proven track record in other areas.

The job creation and tax revenue to Burke County would be great for the community.

The towers have a small footprint & have minimal disruption to agricultural operations.

I worked in the oil & gas industry for 40+ years & saw the positive impact it had on local communities and I would expect to see a similar boost to Burke County.

I wish you the best of days & am hopeful that you approve the project.

Sincerely,

Roger Burau
