To the North Dakota Public Service Commissioners,

We are writing to express our SUPPORT for the Northern DiVide Wind and Transmission Projects. PSC case No. PU - 19-376 and PSC Case No PU-19-377. We signed a contract for our land. The land we bought and paid for. We signed to help our family out financially, and The money will help send 4 kids to college and help with farming. I guess we don't understand how the "general public" can tell us what WE can do with OUR land. The wind towers will also help our county, schools, fire departments and ambulances. As the current Rural Fire Chief and former school board member, I know how much extra tax money helps both entities. We have oil wells to the north and to the east of our house. They don't look pretty or smell pretty and the flare is always there but it wasn't our land and we know how it helps the people that got them. We also sit in our front room and look at big bins and buildings instead of the countryside but it isn't our land, it's our neighbors so that's their right as much as I feel it's my right to put a wind tower on MY land. We would appreciate your support and a "YES" vote.

Thanks!

Sincerely,
Dan and Laura Peterson
