ONEOK Bakken Pipeline, L.L.C.  
Pump Station Additions – McKenzie & Dunn Counties  
Siting Application

Case No. PU-20-018

**NOTICE OF OPPORTUNITY FOR HEARING**

**March 4, 2020**

On January 10, 2020, ONEOK Bakken Pipeline, L.L.C. filed a combined application to amend Certificate of Corridor Compatibility 184 and to amend Route Permit 196 for the addition of two pump stations to its existing Bear Creek NGL Pipeline. Pump station 1 will be located in the Southwest 1/4 of Section 29, Township 149 North, Range 98 West, in McKenzie County, North Dakota, and will consist of two 2,000 horsepower electrically driven motors and pumps. Pump station 2 will be located in the Southwest 1/4 of Section 11, Township 147 North, Range 97 West, in Dunn County, North Dakota, and will consist of three 2,000 horsepower electrically driven motors and pumps, which will allow for pipeline transportation of up to 80,000 total barrels of natural gas liquids per day.

Also on January 10, 2020, ONEOK Bakken Pipeline, L.L.C. filed an application to waive the requirements to hold a separate hearing for the waiver application, waive any hearing requirements and instead proceed by virtue of a notice and opportunity for hearing procedure.

The issues to be considered in the application for waiver of procedures and time schedules include:

1. Are the proposed facilities of such length, design, location, or purpose that they will produce minimal adverse effects and that adherence to applicable procedures and time schedules may be waived?
2. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?

The issues to be considered in the applications for an amended certificate of corridor compatibility and an amended route permit are:

1. Will the location and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?

3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearings must be received by April 3, 2020.** If deemed appropriate, the Commission can determine the matter without a hearing.

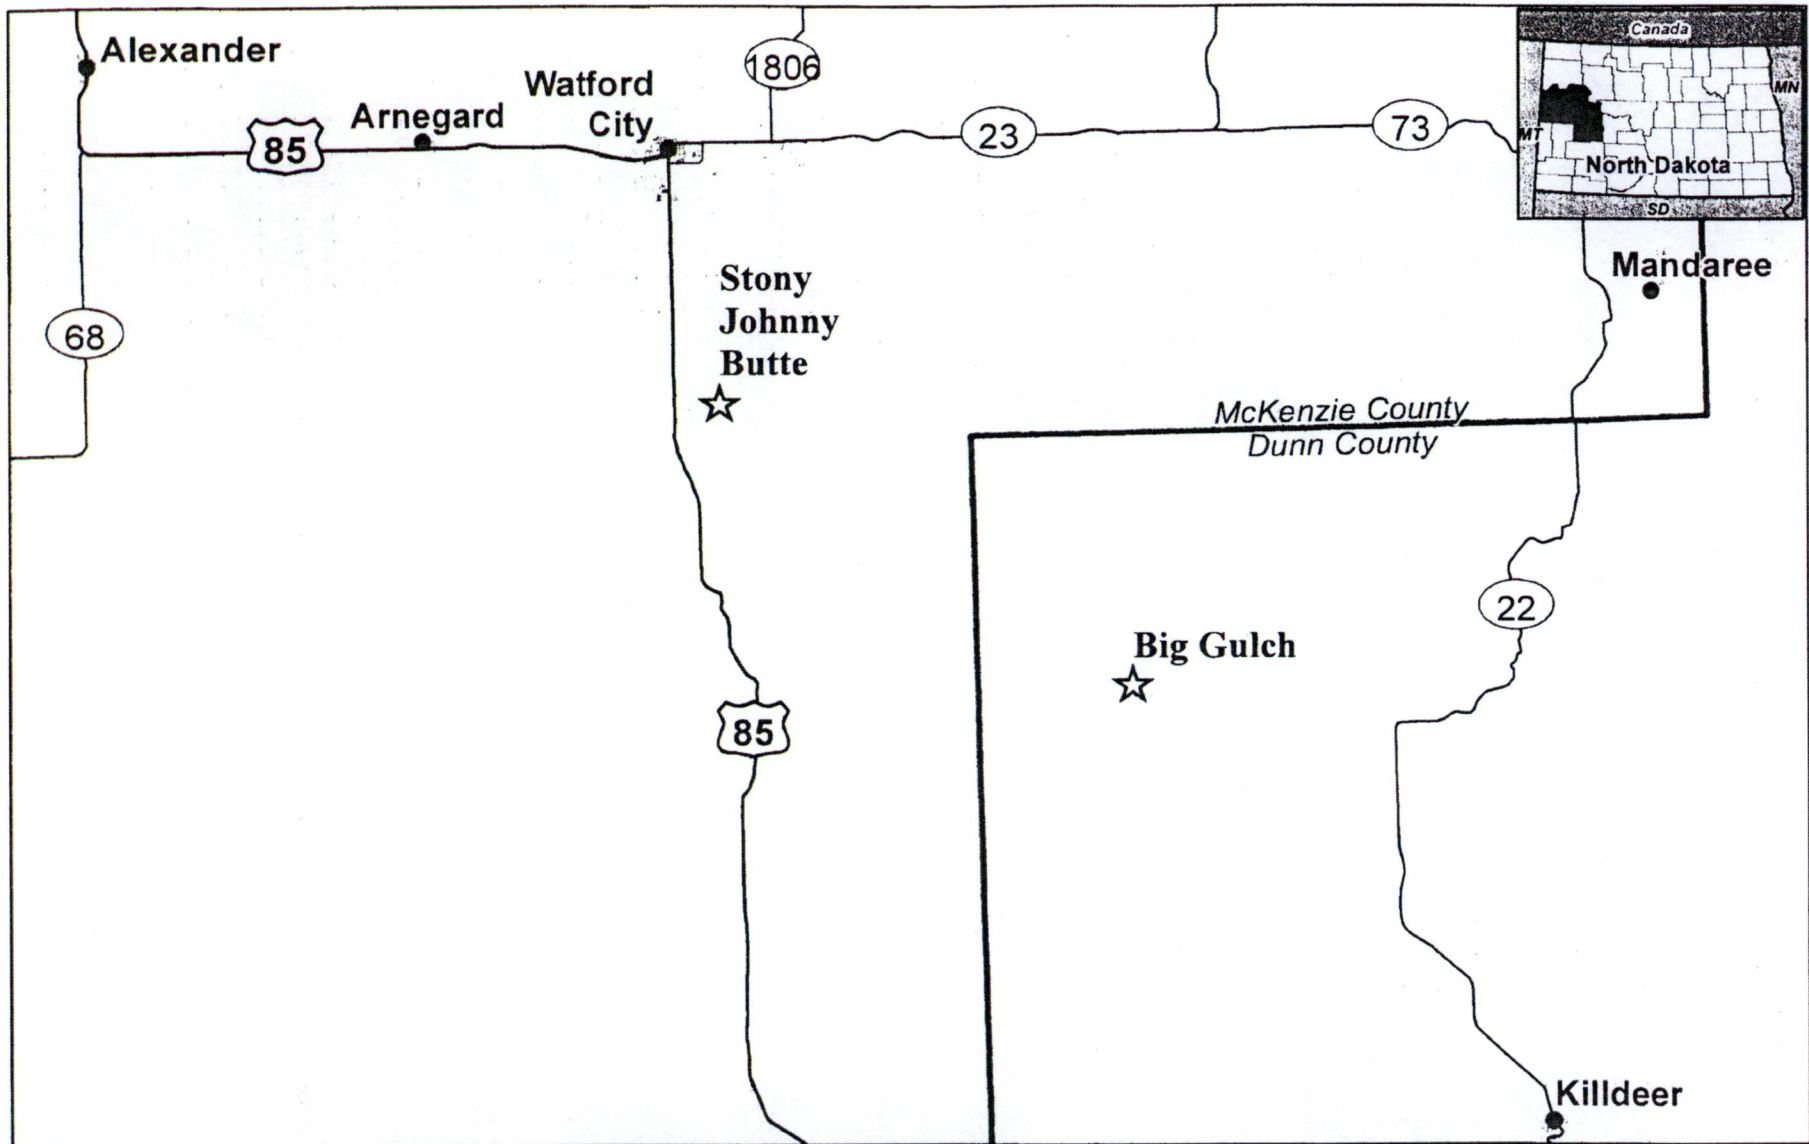

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
