CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Good morning Victor,

Hope this email finds you well. I have received and read the statement and information pertaining to this incident from Cowboy Crane Services. After reading the information and their account of what happened I sent a Line Patroller back to the site to evaluate the conditions now with no snow and ice on site. I have attached photos that were taken on the 13th of this month, when my patroller re-visited the pad. I believe they illustrate that excavation occurred. Some settling of the ditches has taken place with this being 6+ months since the excavation occurred, but you can still pretty clearly see the ditch line as well as scarring on the yellow concrete blocks that indicate an excavator bucket was used to remove material next to our above ground valve.

Let me know if you need any other info from me. I appreciate your attention on this matter.

Thanks!

Ryan Farmer

[This email message was received from the Internet and came from outside of Kinder Morgan]

Hi Ryan,

I received the attached reply from Cowboy Crane in response to the complaint you filed with us back in January.

Do you have anything additional to add after reviewing their reponse?

I have included a link below to your original complaint for reference.

<https://psc.nd.gov/database/documents/20-0019/002-020.pdf>

Thanks,

Victor Schock

Mr. Schock,

If you have time, could you please just shoot me a quick note letting me know you received this email. That way I can be sure that we do not miss our February 5th deadline.

Thank you.

Brian Vine
