Re: Proposed Alliance Sales Line Project: Liberty Midstream Solutions, LLC

The North Dakota Geological Survey appreciates the notification and opportunity to review and provide comment on the proposed pipeline project. We reviewed the alignment of the planned pipeline route against our existing landslide area mapping for the area and would note that the route passes along areas that are generally of little topographic relief and consequently are free of landslides. We would note no additional concerns for this project at this time.

Landslide maps and data, along with LiDAR elevation data sets and mapping products for this project area are available on our website at: <https://www.dmr.nd.gov/ndgs/landslides/>

If there are any additional questions or comments, please contact us at (701) 328-8000.

Sincerely,

North Dakota Geological Survey:

Fred Anderson
