

**STATE OF NORTH DAKOTA**  
**PUBLIC SERVICE COMMISSION**

**Andeavor Field Services LLC  
Skunk Hill Station to Belfield Oil Terminal  
Siting Application**

**Case No. PU-20-161**

**NOTICE OF OPPORTUNITY FOR HEARING**

**April 15, 2020**

On October 19, 2011, in Case No. PU-11-102, the Commission adopted its Order on the Hearing Officer's October 18, 2011 Recommended Findings of Fact, Conclusions of Law and Recommended Order, issuing Certificate of Corridor Compatibility No. 124 (Certificate 124) and Route Permit No. 133 (Permit 133) to Whiting Oil and Gas Corporation designating a corridor and a route for the construction, operation and maintenance of an approximately 6.8-mile, 8-inch for the transportation of crude oil pipeline from the Belfield Oil Terminal in Stark County, North Dakota, to an interconnection with the Skunk Hill Pipeline Station, operated by Bridger Pipeline LLC in Billings County, North Dakota,

On June 30, 2017, in Case No. PU-17-117, the Commission adopted its Order on Reissuing Certificate and Permit granting the request to transfer Certificate 124 and Permit 133 and issuing First Reissued Certificate 124 and First Reissued Permit 133 to QEP Field Services, LLC.

On April 11, 2018, in Case No. PU-18-104, the Commission moved to issue Second Reissued Certificate 124 and Second Reissued Permit 133 to Andeavor Field Services LLC, successor by name change to QEP Field Services, LLC.

On March 30, 2020, Andeavor filed with the Commission a consolidated application to amend the Commission's October 19, 2011 Order in Case No. PU-11-102, and amend the Second Reissued Certificate 124 and Second Reissued Permit 133, to reverse the flow of crude oil in the pipeline, receiving oil at the interconnection with Bridger Pipeline LLC's Skunk Hill Station and transporting it south to the Belfield Oil Terminal, Case No. PU-20-161.

Also on March 30, 2020, in Case No. PU-20-161, Andeavor filed with the Commission an application to waive the hearing requirement in its entirety and proceed by virtue of its notice and opportunity for hearing procedure in consideration of this application.

The issues in the application for waiver of procedures and time schedules are:

1. Are the proposed facilities of such length, design, location, or purpose that they will produce minimal adverse effects and that adherence to applicable procedures and time schedules may be waived?
2. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?

The issues in the consolidated application for an amended certificate of corridor compatibility and an amended route permit are:

1. Will the location and operation of the proposed facility produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Is the proposed facility compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility location minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

**Comments and requests for hearing on the matters must be received by May 15, 2020.** Persons or parties desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. If deemed appropriate, the Commission can determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
