ORDER

June 10, 2020

On December 30, 2013, the Commission issued to Dakota Prairie Refining, LLC (Dakota Prairie) and Lario Shipping, LLC, Certificate of Corridor Compatibility No. 151 designating a corridor for the construction, operation, and maintenance of a 6-inch and an 8-inch pipeline between the Dakota Prairie Refinery and the Lario Shipping, LLC rail hub, in Stark County, North Dakota, for the transmission of refined petroleum products, Case No. PU-13-799. The Commission issued Route Permit No. 162 designating a route for the 6-inch pipeline and issued Route Permit No. 163 designating a route for the 8-inch pipeline.

On March 31, 2020, Dakota Prairie and BOE South, LLC (formerly known as Lario Shipping, LLC) filed with the Commission a joint application to transfer Certificate 151, Permit 162 and Permit 163 to Dakota Prairie.

On April 15, 2020, the Commission issued a Notice of Opportunity for Hearing providing until May 15, 2020, for comments and requests for hearing. No comments or requests for hearing were received.

The Notice identified the following issues to be considered:

1. Whether Dakota Prairie agrees and is able to comply with the terms and conditions of Certificate 151, Permit 162 and Permit 163 issued on December 30, 2013; and
2. Whether the requested transfer is compatible with the public interest.

BOE South, LLC is a Kansas limited liability company authorized to do business in the State of North Dakota, as evidenced by the corporate papers filed with the Commission on March 31, 2020, in Case No. PU-20-166.

Having considered this matter, the Commission finds that Dakota Prairie agrees and is able to comply with the terms and conditions of Certificate 151, Permit 162 and Permit 163 and the requested transfer is compatible with the public interest. Therefore, the Commission issues its:
