Victor Schock
Public Utilities Division
ND Public Service Commission
600 E Boulevard Ave, Dept 408
Bismarck, ND 58505-0480

Dear Mr. Schock:

I have resided at 212 Sandwood Circle, Park River, ND since 1996 and have had several ND One-Call locates completed on the property, the most recent done in fall of 2019 prior to removal of trees in the SE corner of my property. All MDU, Walsh Water, City electrical, and Polar Telephone lines have been outlined on several occasions, with no utility lines ever located near the SE corner. Since no changes had been made to the property, I installed a post in the SE corner on May 3, 2020. In anticipation of reinstalling a deer fence around the property, I again called ND One-Call (Confirmation #20033851), with no utility lines located on or near the southernmost property line or any other planned fence lines.

Regarding the former telephone box in the SE corner, I again consulted with Polar Communications personnel in fall of 2019, was assured by them that the box was disconnected, and was granted permission to remove it.

I apologize for any inconvenience or concerns raised. Please advise on any further action on my part.

Sincerely,

Damian Dvorak
