Moss Adams LLP respectfully files on behalf RC Technologies with the North Dakota Public Service Commission this Request for Confidential Treatment of Information (the "Request"). The Request seeks confidential treatment of certain financial and subscriber information contained in its filings that include the projected eligibility for CAF ICC funding for July 1, 2020 through June 30, 2021, and Tariff Review Plan (TRP) data governing the local switched access rates. A copy of the FCC Protective Order DA-20-604 is included in the filing to the North Dakota Public Service Commission. This request is made pursuant to PSC Administrative Code Section 69-02-09-13.

Pursuant to 47 C.F.R. §54.304(d)(1) of the Federal Communications Commission's rules, enclosed please find the projected eligibility for CAF ICC funding for July 1, 2020 through June 30, 2021 for RC Technologies, Study Area Code 391674. This projection includes any true-ups associated with earlier filing periods. This projection has also been filed as confidential with the Federal Communications Commission and the Universal Service Administrative Company, as the administrator of the Federal Universal Service Fund.

RC Technologies is an A-CAM support recipient; therefore, RC Technologies is not subject to the Rate Floor Data Collection as required in 47 C.F.R. §54.313 (h)(i). As previously filed in accordance with 47 C.F.R. §51.909 governing Carrier Access Charges; RC Technologies provides supplemental TRP data. Lastly, copies of annual certifications regarding CAF ICC Data reported to the Federal Communications Commission specifically required for Double Recovery as specified in 47 C.F.R. §57.917 (d)(vii) are included with this filing.

Enclosed is an original and seven copies of the public version of the filing. A confidential version is being submitted in a sealed envelope and labeled "PROTECTED INFORMATION – PRIVATE."

Public disclosure of such information would likely cause substantial harm to the financial position of the Company.
