Subject: ND One-Call Complaint

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Good morning Victor,

I have attached above some of the documentation that I had from the incident with the MDU. As for the additional problems they are stating in part D – my understanding is this is at least a block south of the original incident and MDU was unsure what the issue was due to when they dug up that leak their steel pipe was right on top of another steel pipe.

Any further questions please let me know.

Corinne Houim
