PUBLIC SERVICE COMMISSION

Montana-Dakota Utilities Co.  
2020 Natural Gas Rate Increase  
Application

Case No. PU-20-379

**NOTICE OF PUBLIC INPUT SESSIONS AND HEARING**

**January 6, 2021**

On August 26, 2020, Montana-Dakota Utilities Co. (MDU) and Great Plains Natural Gas Co. (Great Plains) filed with the Commission a combined increase in rates for natural gas service. MDU and Great Plains rate increase results in an annual increase in its annual North Dakota natural gas service revenue of \$8,972,426 or 7.8 percent. Interim rates subject to refund were approved on December 16, 2020.

The Commission will be holding public input sessions and a formal technical hearing on the rate increase request. The public is encouraged to view the public input sessions and formal technical hearing electronically via <https://psc.nd.gov/public/meetings/live.php> or listen telephonically via 1-888-585-9008 with room code 259-316-322. The issues to be considered are:

1. What is the value of MDU's and Great Plains' property, used and useful, for the service and convenience of the public in North Dakota?
2. What is MDU's and Great Plains' rate of return on its property, used and useful, for the service and convenience of the public in North Dakota?
3. What is a just and reasonable rate of return on MDU's and Great Plains' property, used and useful, for the service and convenience of the public in North Dakota?
4. What rates and charges are necessary to provide a just and reasonable rate of return on MDU's and Great Plains' property, used and useful, for the service and convenience of the public in North Dakota?
5. Are MDU's and Great Plains' proposed rate schedules designed in such a manner that they result in a basis of charge to its customers that is just and reasonable without discrimination?

**Public Input Sessions** will be held **March 2, 2021 at 12:00 p.m. central time** and **March 2, 2021 at 5:30 p.m. central time**. Due to the state emergency, the Public Input Sessions will be held remotely. A public input session is not considered part of the formal technical hearing and record evidence. The discussion will, however, aid the Commission and its staff in identifying areas of concern and issues that may require investigation.
