**In re: Bridger Pipeline LLC
Johnson's Corner to Wilson Pipeline Project
Case No. PU-20-430
Our File No. 016265-000017**

Dear Mr. Kahl:

The Commission issued an Order in the above-referenced case on May 19, 2021 (Docket No. 67). Order Finding of Fact No. 25 states that "Bridger will file a copy of the [Storm Water Pollution Prevention Plan] permit with the Commission once it is obtained." Consistent with this provision, enclosed for filing is the Notice of Coverage for the project issued by the North Dakota Department of Environmental Quality.

Please feel free to contact me if you have any questions. Thank you.

Sincerely,

Casey A. Furey

Enc.

Coverage under the 2020 reissued construction general permit (NDR11-0000) is identified as follows:

Permit ID: **NDR111525** Site Name: **8-inch Johnson's Corner to Wilson Crude Oil Pipeline**

Please remember to update the Stormwater Pollution Prevention Plan (SWPPP) as appropriate for site conditions. The best management practices (BMPs) and temporary structures must be inspected, maintained and adjusted until the site is stabilized following construction activities. Once the site is stabilized as outlined in the general permit, you may end permit coverage by filing a termination notice. Cities or counties may impose additional requirements and/or specific BMPs for construction affecting their storm drainage system. Please check with the local officials to be sure all local stormwater management considerations are addressed.

Additional Information

The permit will expire on March 31, 2025. The permit conditions, forms and related information may be found on our web site at:
