Montana-Dakota Utilities Co.  
Generation Resource Cost Recovery  
Rates

Case No. PU-20-436

NOTICE OF OPPORTUNITY FOR HEARING

November 18, 2020

On October 30, 2020, Montana-Dakota Utilities Co. (MDU) filed a change to its Generation Resource Recovery Rate (GRRR) rates to reflect 2021 projected costs for its Lewis & Clark reciprocating internal combustion engine units.

The effect of the rate change on the bill for a residential customer using 894 kWh per month is an increase of \$0.04 per month.

The issues to consider in this proceeding are:

1. Whether the investments and associated costs for the resources qualify for recovery,
2. Whether the incurred costs are reasonable and prudent, and
3. Whether the rate adjustments are consistent with the terms of MDU's tariff.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by January 2, 2021.** If deemed appropriate, the Commission can determine the matter without a hearing.
