**Subject:** Rev. 11 to NACC-1302

Derrick,

We will be mailing the latest submittal of Rev. 11 to Permit NACC-1302. This version is identical to the previous version that was provided to you; however, several inoperable hyperlinks have been repaired. The revision application has been deemed complete and now enters the technical review and public comment phase. Rev. 11 adds plans for mining 3 additional tracts including 2 tracts of federal coal. The public comment period runs until June 21, 2021. The Voigt's will receive a Notice of Receipt of the Revision Application via certified mail.

Let me know if you have any questions.

[Dean K. Moos](#)
