Re: Bowman Project, Revision 2: Bowman County, ND

Dear Ms. Gunderson:

In response to your request on February 10, 2021, the National Telecommunications and Information Administration provided to the federal agencies represented in the Interdepartment Radio Advisory Committee (IRAC) the plans for the Bowman Wind Project, Revision 2, located in Bowman County, North Dakota.

After a 45+ day period of review, no reviewing agencies had concerns regarding turbine placement in the designated build area.

While some IRAC agencies did not identify any concerns regarding radio frequency blockage, this does not eliminate the need for the wind energy facilities to meet any other requirements specified by law related to these agencies. For example, this review by the IRAC does not eliminate any need that may exist to coordinate with the Federal Aviation Administration concerning flight obstruction.

Thank you for the opportunity to review these proposals.

Sincerely,

John R. McFall
Deputy Chief, Spectrum Services Division
Office of Spectrum Management
