

Bowman Wind Project Pending Participation Chart			
Pending Participation Parcel (Building ID)	Within the Project Area	Status	Action(s) to ensure compliance if agreement not obtained
R-38	No	This residence is a pending participant and currently in the process of executing administrative documents for an underground collection line participation agreement.	If the underground collection line agreement is not finalized, Bowman Wind will identify an alternative collection line route on participating land.
R-148	No	This residence is a pending participant and currently in the process of executing administrative documents for a participation agreement that waives the sound requirement.	Should this landowner not sign, Turbine 41 would not be constructed and the resulting sound level would be 44 dBA Leq.
