

Bowman Wind, LLC
Bowman Wind Project
Docket No. PU-21-121

Late-Filed Exhibit No. 34 – Battery Storage Facility Emergency Response Plan

At the August 24, 2021 public hearing, Commissioner Kroshus requested emergency response-related information from Bowman Wind, LLC (“Bowman Wind”) for the Bowman Wind Project (“Project”), including coordination with local first responders, training, specialized equipment needed for the battery storage facility, and emergency response procedures. Additionally, Commissioner Kroshus requested that Bowman Wind address concerns raised regarding release of toxic gases in the event of a fire at the battery storage facility. Each of these topics is addressed in the attached Emergency Response Plan (Late-Filed Exhibit No. 34(a)).
