**RE: Ashtabula Wind II, LLC  
Ashtabula II Wind Energy Center  
Case Nos. PU-08-034 & PU-09-221  
Aircraft Detection Lighting System  
Our File No. 035218-000052**

Dear Mr. Kahl:

On behalf of Ashtabula Wind II, LLC, enclosed for filing in the above-referenced matters please find the executed Certification Relating to N.D.C.C. § 49-22-03(3)(a) and Figure 1 Map regarding the Aircraft Detection Lighting System. A USB drive containing GIS files is also enclosed.

Please feel free to contact the undersigned should you have any questions. Thank you.

Sincerely,

Casey A. Furey

CAF/lh  
Enc.

5. In accordance with N.D.C.C. § 49-22-03(3)(a), Ashtabula Wind II certifies as follows:
- a. The installation of an ADLS is an improvement to the Ashtabula II WEC.
  - b. The activities required to install the ADLS will be conducted wholly within the geographic location for which a Certificate of Site Compatibility was previously obtained.
  - c. The construction activities are for the installation of ADLS and will include the installation of one ADLS radar tower, and additional underground power and fiber optic cables.
  - d. ADLS installation and associated construction activities will occur in areas in which an environmental analysis was previously conducted for the Ashtabula II WEC site. ADLS construction locations were evaluated relative to the Exclusion and Avoidance Areas set forth in N.D. Admin. Code § 69-06-08-01. This evaluation determined that ADLS will not permanently or temporarily affect any known Exclusion or Avoidance Areas.
6. Ashtabula Wind II will continue to comply with all applicable conditions and protections in siting laws and rules and Commission orders previously issued for the Ashtabula II WEC.
7. Ashtabula Wind II intends to begin construction to install the ADLS during the week of April 26, 2021, weather permitting. Ashtabula Wind II anticipates the ADLS being fully installed and activated by December 31, 2021.
