IN REPLY REFER TO: PSC-Emergency
Sink Holes, Wilton

August 10, 2022

Ms. Joan Breiner, Ph.D.
Assistant Director, Abandoned Mines Lands Division
State of North Dakota Public Service Commission
600 East Boulevard, Department 408
Bismarck, ND 58505-0480

Dear Ms. Breiner:

This is in response to the State of North Dakota Public Service Commission's (NDPSC) request from the Abandoned Mines Division for an Emergency Sinkhole Reclamation in Burleigh County near Wilton, North Dakota (Project). The proposed Project involves filling and reclamation of the above-named location and seven additional adjacent sinkholes concurrently. Your request for concurrence was received via email on August 4, 2022.

In accordance with section 7 of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.) (Act), you requested U.S. Fish and Wildlife Service (FWS) evaluation of your "no effect" determinations for the endangered whooping crane (*Grus americana*) and the threatened Dakota skipper (*Hesperia dacotae*) and northern long-eared bat (*Myotis septentrionalis*). There is no requirement under the implementing regulations of the Act (50 CFR Part 402) for action agencies to receive FWS concurrence with "no effect" determinations, therefore the responsibility for "no effect" determinations remains with the NDPSC Abandoned Mine Lands Division. Accordingly, we recommend the NDPSC retain the documentation for these listed resources in your decisional record for this federal action.

Pursuant to the implementing regulations of the Act (50 CFR 402.13), this letter concludes informal consultation. This consultation should be re-initiated if: (1) new information reveals effects of the action that may affect listed species or critical habitat in a manner or to an extent not considered in this consultation; (2) the action is subsequently modified in a manner that causes an effect to the listed species or critical habitat that was not considered in this

consultation; or (3) a new species is listed or critical habitat is designated that may be affected by this action.

We appreciate your efforts to ensure the conservation of listed and proposed species as part of our joint responsibilities under the Act. For further information, please have your staff contact Jerry Reinisch of my staff at (701) 226-7763 or me directly at (701) 355-8512 or at the letterhead address.

Sincerely,

Drew N. Becker
ND Ecological Services Supervisor
