Preliminary Statement

On April 8, 1976, the Commission issued Certificate of Site Compatibility for Transmission Facility Corridor, Certificate No. 2, to Cooperative Power Association and United Power Association (CPA-UPA). Certificate No. 2 was issued in accordance with the Commission's Findings of Fact, Conclusions of Law and Order dated March 6, 1976 entered in Case No. 9322. On February 28, 1977, the Commission issued Permit for the Construction of a Transmission Facility, Permit No. 1, to CPA-UPA. Permit No. 1 was issued in accordance with the Commission's Findings of Fact, Conclusion of Law and Order dated December 17, 1976 entered in Case No. 9370. The Commission designated a route within the designated corridor for the construction, operation and maintenance of a 252.4 mile, 400 kVDC electric transmission line from the Coal Creek Generating Station located four miles south of Underwood, in McLean County, North Dakota, to a point on the North Dakota-Minnesota border in Richland County, North Dakota.

On July 22, 2021, the Commission issued a Notice of Opportunity for Hearing (Notice) that provided until August 23, 2021, for comments or requests for hearing. No comments or requests for hearing were filed. The Notice stated that the Commission can determine the matter without a hearing.

The Notice identified the issues to be considered in Case No. PU-21-326 are:
