Dear Mr. Schock,

Hiland Crude submitted a consolidated application for a Certificate of Corridor Compatibility and a Route Permit to the ND Public Service Commission (PSC) in July 2021 for the 2.9 mile pipeline in Williams County. The ND PSC issued a Findings of Fact, Conclusions of Law and Order (Order) for the project (Case No. PU-21-353) on December 29, 2021.

As incorporated in the Order, Tree and Shrub Mitigation Specification states that are taken need to be inventoried and replaced on a minimum two-to-one basis. The trees that we encountered along the pipeline route we left intact by avoiding removal through HDD method of installation. We also were given landowner approval to move around the tree rows so that we didn't impact any trees moving equipment during construction.

This email is to declare that no trees or shrubs were taken during the construction of the 2.9 Mile Crude Oil Pipeline, Case No. PU-21-353.

Sincerely,  
Eric Jensen
