**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION
Northern States Power Company
Transmission Facility Cost Recovery (2022)
Rates**

**Case No. PU-21-396
NOTICE OF OPPORTUNITY FOR HEARING
October 20, 2021**

On October 4, 2021, Northern States Power Company (NSP), d/b/a Xcel Energy, Inc., filed its 2022 Transmission Cost Recovery Rider (TCR). The purpose of this rider is to recover costs from NSP's North Dakota electric customers for 23 previously approved transmission projects and 11 new transmission projects, as well as net expenses from the Midcontinent Independent System Operator (MISO) billings. This proposal would increase the TCR rate from \$0.000135 per kilowatt-hour (kWh) to \$0.000685 per kWh. The proposed 2022 TCR rate would be applied to all energy billed to each customer. As a result of the TCR change, a residential electrical customer consuming 750 kWh per month would expect a \$0.41 per month billing increase. The issues to be considered in this proceeding are:

1. Whether the investments and associated costs for the new or modified electric transmission facilities qualify for recovery.
 2. Whether the incurred costs are reasonable and prudent, and
 3. Whether the rate adjustments are consistent with the terms of NSP's tariff.
- Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearing must be received by December 6, 2021. If deemed appropriate, the Commission can determine the matter without a hearing. For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. **Woodworth October 11, 2021
City Council Meeting**

Candycy called the meeting to order. John Buskness was absent. The bills and treasurer's report were read and approved as read by the mayor. Oscar Hust was present and gave the council the paperwork on the alley he had closed. The new mower has been delivered, and the old mowers picked up by John Deere. After trading in the old mowers and discounts, the council authorized a check for \$2950 to be written out. The auditor contacted the EPA in Denver via email about what to do with the sludge in the lagoon when it is cleaned out. As of the meeting they have not returned the call. Zoning ordinances were discussed. Hopefully they will all be finalized by the end of the year. The cafe is aware of the broken sidewalk in front of the cafe. The burn variance will be applied for in November and should give the council a couple of months to complete the burning of the trees at the dumpground. Again, there are delinquent water bills. The auditor will send certified letters to these residents. Also, the cost of the certified letters will be added to their water bills. Bill Clark will contact Kamoni Well Drilling to get their input about moving water from the old well into the lagoon. The board feels they should be able to pump water from the old well directly into a manhole. Darren still needs to contact Brenda Guthmiller about the cost of removing the sludge from the lagoon. The bills were read and motioned to be paid by Rebecca and seconded by Sharon. Candycy adjourned the meeting. Linda Clark, auditor

STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION Northern States Power Company Transmission Facility Cost Recovery (2022) Rates
Case No. PU-21-396
NOTICE OF OPPORTUNITY FOR HEARING
October 20, 2021
 On October 4, 2021, Northern States Power Company (NSP), d/b/a Xcel Energy, Inc., filed its 2022 Transmission Cost Recovery Rider (TCR). The purpose of this rider is to recover costs from NSP's North Dakota electric customers for 23 previously approved transmission projects and 11 new transmission projects, as well as net expenses from the Midcontinent Independent System Operator (MISO) billings. This proposal would increase the TCR rate from \$0.000135 per kilowatt-hour (kWh) to \$0.000685 per kWh.
 The proposed 2022 TCR rate would be applied to all energy billed to each customer. As a result of the TCR change, a residential electrical customer consuming 750 kWh per month would expect a \$0.41 per month billing increase.
 The issues to be considered in this proceeding are:
 1. Whether the investments and associated costs for the new or modified electric transmission facilities qualify for recovery,
 2. Whether the incurred costs are reasonable and prudent, and
 3. Whether the rate adjustments are consistent with the terms of NSP's tariff.
 Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearing must be received by December 6, 2021. If deemed appropriate, the Commission can determine the matter without a hearing.
 For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission 24 hours in advance.

 Northern States Power Company
 Transmission Facility Cost Recovery (2022)
 Rates

Case No. PU-21-396 NOTICE OF OPPORTUNITY FOR HEARING

October 20, 2021, Northern States Power Company (NSP), d/b/a Xcel Energy, Inc., filed its 2022 Transmission Cost Recovery Rider (TCR). The purpose of this rider is to recover costs from NSP's North Dakota electric customers for 23 previously approved transmission projects and 11 new transmission projects, as well as net expenses from the Midcontinent Independent System Operator (MISO) billings. This proposal would increase the TCR rate from \$0.000135 per kilowatt-hour (kWh) to \$0.000685 per kWh. The proposed 2022 TCR rate would be applied to all energy billed to each customer. As a result of the TCR change, a residential electrical customer consuming 750 kWh per month would expect a \$0.41 per month billing increase.

The issues to be considered in this proceeding are:
 1. Whether the investments and associated costs for the new or modified electric transmission facilities qualify for recovery,
 2. Whether the incurred costs are reasonable and prudent, and
 3. Whether the rate adjustments are consistent with the terms of NSP's tariff.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearing must be received by December 6, 2021. If deemed appropriate, the Commission can determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission 24 hours in advance.
