Bismarck, ND 58505

To whom it may concern,

A locate request was submitted for the area in question location 2994 160th Ave NW Fairview, ND on 9/21/21. Ticket number 21142183 was relocated as ticket 21125593 later on. After receiving the marked or all clear from all utilities in the area my guys moved to the job site with a vacuum excavator and located all of the marked lines that were indicated so we wouldn't damage them. We began our work cleaning our irrigation ditch and working on a culvert and we hit a line that was not marked by Century Link. We stopped work and I reported the damage to Century Link and received ticket number 19808038 from them. They did not show up when they were scheduled to repair the line and I contacted them again and was given an updated ticket number 184051181. As of today 10/25/21 they still have not repaired the line or contacted us.

If you have any questions or concerns please feel free to call me at the office (406)-433-1306

A handwritten signature in blue ink that reads 'William Hier'.
