Re: Case No. PU-22-034  
Combined Application for a  
Certificate of Corridor Compatibility  
and Route Permit

**Late Filed Exhibit – MDU Hearing Exhibit 6**

Pursuant to discussions at the April 5, 2022, Public Hearing on Montana-Dakota Utilities Co.'s ("Montana-Dakota") Combined Application for a Certificate of Corridor Compatibility and Route Permit ("Application") for the proposed 12-inch diameter water pipeline ("Project"), Montana-Dakota herewith electronically provides this late filed exhibit to clarify the proposed Route and Corridor for the Project.

Please see Attachment A for an updated map depicting the proposed Route and Corridor (both as defined in N.D.C.C. 49-22.1-01). Montana-Dakota proposes a Corridor of one hundred feet (100) with a fifteen (15) foot buffer on each side of the proposed Route. The Company has confirmed that the centerline of the attached matches the previously filed GIS data.

Finally, in clarification, the term "Project Corridor", as used in the Application, references the study area, and is not applicable to this Late Filed Exhibit 6.

Please contact me at 701.222.7855 or [travis.jacobson@mdu.com](mailto:travis.jacobson@mdu.com) if you have questions.

Sincerely,

**/s/ Travis R. Jacobson**
