Oil Pipeline Tariff Filing

North Dakota Public Service Commission
State Capital – 12th Floor
Bismark, ND 58505 - 0480
Attn: Public Utility Division

Tariff Department:

Re: NDPSC Tariff No. 2.41

Enclosed for filing with the North Dakota Public Service Commission (NDPSC) is the following tariff issued by North Dakota Pipeline Company LLC (North Dakota Pipeline):

- NDPSC Tariff No. 2.41 (Local Proportional Tariff), canceling NDPSC Tariff No. 2.40

This tariff bears an issuance date of January 27, 2022 and an effective date of March 1, 2022.

Explanation of Tariff Filing

North Dakota Pipeline is constructing a new segment of pipeline from Tioga (Ramberg/Beaver Lodge Station), (Williams County), North Dakota (“Tioga”) to interconnect with the Dakota Access, LLC pipeline (“DAPL”) at Ramberg, North Dakota (“Ramberg”) (the “DAPL Connector Project”). The total capacity of the DAPL Connector Project is 40,000 barrels per day (“bpd”) of which 90 percent is available for committed service and 10 percent set aside for uncommitted service.

An open season was held from August 3, 2021 to August 31, 2021 to obtain commercial support for the DAPL Connector Project. In the open season, shippers were offered committed priority service at a rate premium to the initial rate for uncommitted service on the DAPL Connector Project. In that same open season, a committed backhaul rate was also offered from Stanley (Mountrail County), North Dakota (“Stanley”) to Ramberg. The committed rate from Stanley to Ramberg consists of two components: non-priority service on the backhaul service from Stanley to Tioga, and priority service on the segment between Tioga and Ramberg. The committed rates are subject to an annual July 1st escalation by

positive changes in the index issued by the Federal Energy Regulatory Commission (FERC).

Both capacity on the uncommitted backhaul service from Stanley to Ramberg, and on the DAPL Connector Project, are being made available for the transportation of uncommitted volumes. The uncommitted rates are subject to any changes in the index issued by the FERC.

Following the close of the open season, North Dakota Pipeline secured commitments of 25,000 bpd for committed service from Stanley to Ramberg with contract terms ranging from one to five years. On the DAPL Connector Project segment, North Dakota Pipeline secured a total of 32,500 bpd for committed priority service with contract terms ranging from one to five years. This results in 7,500 bpd (approximately 18.5 percent) of capacity available for the transportation of uncommitted volumes on the DAPL Connector Project.

NDPSC Tariff 2.41 is being filed to implement the initial rates for committed service for shippers who signed Transportation Services Agreements with the North Dakota Pipeline, as well as to implement the initial rates for uncommitted service from Stanley to Ramberg and the initial rates for uncommitted service on the DAPL Connector Project.

Notification

I hereby certify that North Dakota Pipeline has, on or before this date, provided copies of the above referenced tariff to each person on the North Dakota Pipeline subscriber list by electronic means or by other means agreed upon.

Pursuant to 18 C.F.R. 343.3 of the Commission's regulations, it is requested that any protest related to this tariff filing be sent via email to Enbridge-Tariffs@enbridge.com.

If you have any questions concerning this filing, please contact the undersigned at (403) 463-3891.

Yours truly,
