Subject: RE: McIntosh Weed Management Plan

Hi Nicholas,

I am not aware of any requirements that the County Noxious Weed Board would have to approve the plan you have. When speaking with Francesca, she said that your management plan is between your company and the landowner correct? As far as the Weed Board goes, If there are legitimate complaints to control the weeds on any of this land, the Weed Board would notify the landowner, and the landowner would then have to contact your company to control it. We will discuss this at our upcoming Board Meeting. It looks like that will not happen until the first week in August though. I will get back to you after the meeting to give you a better answer.

Thanks, Becky

Hi Becky,

I hope you are well! Francesca is currently working in our London office to work on some items over there, so while you may still see her, I will be more visible for this Logan & McIntosh County wind farm.

I just wanted to check in on this email chain regarding the McIntosh County Weed Board. What we are trying to understand right now is if there is a requirement to get our Weed Management plan "Approved" by the board, or if we just need to work collaboratively together to ensure that we are not creating any problems.

Do you know if a weed management plan "Approval" is required for a construction project in McIntosh County? If not, do you know who best to ask?

Thanks,
Nick

Hi Becky,

Thank you for your response. Do you know when the McIntosh Board meets next? Please let me know if you or anybody from the Board has any questions.

Thank you,

Best regards,
Francesca Martella

Hi Francesca,

We can discuss this when our Board meets next. I will get back to you after that time which should be in the next month or two.

Thank you

Becky

Hi Mark,

I received your contact information from Marlow Werth and just left you a voicemail.

Badger Wind is proposing a wind project in McIntosh and has prepared a Weed Management plan as part of its State permit application. We were wondering whether the Weed Board in McIntosh County would need to approve the Weed Management Plan? I have attached it here for your reference.

Please let me know if you have any questions.

Thank you for your help!

Best regards,
Francesca Martella
