Hi John,

Please docket the information below as response to data request. We only need this information in the record:

1. Customer bills will continue to show kWh usage.
2. The new meters have digital displays that will show total kWh usage. It will continue to accumulate. It's like an odometer.

Thanks,

Victor Schock

Thanks Chris,

Does the total kWh usage reset after the meter is read, or will it continue to accumulate over time?

Thanks,

Victor Schock

Hi Vic,

On the questions below:

1. Customer bills will continue to show kWh usage.
2. The new meters have digital displays that will show total kWh usage.

Let us know if you need more on either of these.

Thanks,
Chris

Hi Chris,

One of the commissioners has the following questions related to this case.

1. Will new customer bills not have a kwh usage count on them? The language in the application seems to indicate this...
2. Do the new meters have any type of readout on them? In particular we are wondering if it has at least a total kwh usage readout?

Thanks,

Victor Schock
