North Dakota Public Service Commission
600 E Boulevard Ave, Dept. 408
Bismarck, ND 58505-0480

Permit ID: KRSB-8603
Subject: NOV 2201-Completion of Interim Measures

Dear Ms. Brinkman:

The following is in response to Notice of Violation #2201, dated May 25, 2022, regarding *Completion of Interim Measures* within 10 days of the receipt of the NOV. Once the erosion was discovered in each of the Ponds, steps were immediately taken to prevent additional water from entering the Ponds, and to dewater the Ponds below the elevation of the erosion. Pond 082 has been pumped dry, and Pond 081 has been pumped several feet below the erosional elevation of the standpipe. Water that normally flows into these Ponds is being pumped to other locations. A photo taken this morning for each Pond has been attached to this letter. Please let me know if you have any questions.

Sincerely,

Jesse Noel, P.E.
Director, Environmental & Regulatory Affairs
Westmoreland Mining LLC
