Dear Mr. Eckroth:

The Reclamation Division has reviewed Coyote Creek Mining Company's post-mine topographic changes proposed with Revision 12 to Permit NACC-1302. Revision No. 12 modifies the post-mine topography in Sections 6 and 7, T142N, R88W; and Section 1, T142N, R89W. The revision also updates the reclamation schedule and variance map.

Coyote Creek Mining Company's request to use post-mine topographic changes proposed in Permit NACC-1302 with the Revision No. 12 application for grade approval requests is approved. Grade approval requests granted in these areas will be contingent upon approval of Revision No. 12. Coyote Creek will be responsible for ensuring that post-mining topography in the conditionally approved areas conforms to the approved Revision No. 12 post-mine topography.

Please contact us with any questions.

Sincerely,

Zanna Brinkman
Director
Reclamation Division
