On July 25, 2022, RC Technologies Corporation filed an Application for Protection of Information to protect certain information in the captioned case.

On January 3, 2023, Staff reviewed the request of RC Technologies Corporation for protection of information.

Discussion

The information which the Company requests be considered trade secret/confidential is financial data and strategy of the company, filed with the North Dakota Public Service Commission ("Commission"). North Dakota Administrative Code Section 69-02-09-03 requires that Commission staff examine the information and application and make a recommendation to the Commission.

Additionally, under N.D.C.C. 44-04-18.4(2)(d) the information which the company is requesting protection for qualifies as "trade secret" as it is information that is compiled that would derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons that can obtain economic value from its disclosure or use; and is the subject of efforts that are reasonable under the circumstances to maintain the secrecy of the information.

Staff believes that the application satisfies the requirements of the law, which allows the Commission to grant protection of information in this proceeding.

The Commission concludes RC Technologies Corporation application satisfies the requirements of the North Dakota Century Code for protection of the information, which is the subject of this request.
