

DAKOTA VALLEY ELECTRIC COOPERATIVE

RATE SCHEDULE

**LARGE DATA CENTER MISO SUBSTATION
DELIVERY SERVICE**

RC: 358

Applicability

This rate is applicable for datacenter/crypto mining loads larger than 100 MW receiving delivery direct from MISO transmission facilities. Members receiving service under this rate shall remain a member of the cooperative and be bound by such rules and regulations as may from time to time be adopted by Dakota Valley.

Type of Service

Three-phase, 60 hertz service delivered from transmission and substations facilities at available voltages.

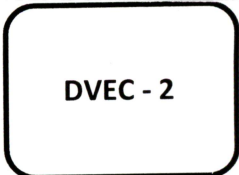

Monthly Rate

Basic Service Charge	\$200.00 plus any metering, billing, and other service charges levied to Dakota Valley by MISO, Basin Electric, Central Power, and/or the facility owner/operator.
Demand (non-coincident peak)	Central Power's base demand rate
Energy	Central Power's base energy rate plus 2% markup
Distribution Tax	Applicable distribution tax
Facility Extension Charge	Actual cost of the facility extension

Minimum Monthly Charge

The minimum monthly charge shall be the Basic Service Charge as outlined above.

Power Factor Adjustment

The Member agrees to maintain unity power factor as nearly as practicable. The Cooperative reserves the right to adjust the Billing Demand when the average monthly power factor drops below 95 percent. In the event the power factor drops below 95 percent, the cooperative reserves the right to increase the billing demand by calculating the metered demand multiplied by 0.95 and then divided by the measured power factor.

Taxes and City Franchise Fees

The rates set forth in this schedule are based on taxes as of the last adoption or amendment date. Any increase in existing or new taxes on the transmission, distribution, or sales of electricity allocable to sales hereunder shall be added to this rate. Any franchise fees imposed on the Cooperative shall be allocated to accounts within the specific franchise area as an additional charge.

Delivery Point

The delivery point shall be determined by the Cooperative.

Member Responsibilities

It shall be the Member's responsibility to provide the Cooperative an electric wiring certificate before service is to be connected, and the Cooperative reserves the right to routinely inspect the installation.

It shall be the Member's responsibility to provide protection from unauthorized access to disconnect facilities or other electrical equipment at this installation. It shall also be the Member's responsibility to provide fuses or thermal protection for Member's equipment and to maintain electrical equipment in accordance with existing safety codes.

Construction/Startup

Loads qualifying for this rate will have 6 months to reach 100 MW after interconnection. Accounts will be evaluated bi-annually to determine continued qualification for this rate. If the load level is not maintained, the rate will fall under the applicable DVEC rate.

Terms of Billing and Payment

In lieu of a deposit, prepayments based on estimated usage will be required. Accounts on this rate will be billed bi-monthly. Failure to maintain the appropriate prepayment amount will result in disconnection.

Patronage Capital Credits

Service provided under this Rate is subject to a cost-of-service allocation of capital credits to the Member by the Cooperative. This allocation will take into account the unique cost assignment associated with the market-based rates that are included in this Rate. For the purpose of this Rate, the Member acknowledges that it is not a natural person under North Dakota Law.

Retirement

Should service cease to be required, the member would be responsible for the actual cost to retire the facilities to serve this load.
