\*\*\*\*\* **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. \*\*\*\*\*

Good morning I am a very concerned resident of apple creek township and I understand you are new with the PSC. I am not sure how many residents of burleigh county are aware of how deadly this CO2 issue is for all residents near the pipeline. If I lived near the river I would be selling my property and moving, if I could even get it sold.

I live three miles away and high on a hill but it could still affect me given the right weather conditions.

I am certain you are well aware of this MAJOR issue and we need it stopped. If it ruptures under the river, many people of Bismarck, Mandan could be affected. I dont think many people know about the seriousness of it.

Yourself being on the PSC are possibly liable for making a life-threatening decision affecting many many people.

Please, in good faith be sure you consider your options in regard to approving the CO2 line.I am sure you have been lobbied by Summit Carbon already but the wrong decision by the PSC is going to affect the cities of Bismarck,Mandan and parts of Burleigh County .Am sure you are aware of the explosion in Mississippi and that was a small pipeline.

PS please see attachment

Marv Abraham

I will await your reply please
