May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

ALJ HOGAN: All right. We are going to get started. Sorry for the delay getting started this 3 morning. STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION Good morning. My name is Hope Hogan and I'm the administrative law judge that's been designated upon the SCS Carbon Transport LLC request of the Public Service Commission to serve as the Midwest Carbon Express CO2 Project Siting Application CO2 Pipeline 7 hearing officer for today's hearing. 8 Let the record show it's May 28th, 2024, at TRANSCRIPT OF FORMAL HEARING 9 8:38 a.m. This is the time, date, and place set by a May 28, 2024 10 notice of technical hearing issued by the Public Service 11 Commission on April 25th, 2024, for a technical hearing 12 in Case No. PU-22-391. This hearing is being held today 13 at the Brynhild Haugland Room at the State Capitol in APPEARANCES Bismarck, North Dakota. 14 Commissioners Randy Christmann, Sheri Haugen-Hoffart, and Substitute Decisionmaker Timothy J. Dawson 15 Just to note that the next two days that have 16 been scheduled for this hearing will be held in the BRET DUBLINSKE, PATRICK MAHLBERG, TYLER GLUDT, and BRANT LEONARD, Fredrikson & Byron, PA, and MARK SCHULTHEIS, Schultheis White, PLC, on behalf of Applicant SCS Carbon Transport LLC 17 Pioneer Room, which is on the other side of the Capitol 18 in the Judicial Wing. RANDALL J. BAKKE, Bakke Grinolds Wiederholt, on behalf of Intervenor Burleigh County 19 We will adjourn today's hearing around 5 p.m. BRIAN E. JORDE, Domina Law Group, on behalf of 20 And we will also take two 15-minute breaks, a morning STEVE J. LEIBEL and MICHAEL JOYNER, Knoll Leibel LLP, on behalf of Intervenors/Landowners 21 and an afternoon break, and we will break for lunch for ZACHARY PELHAM, Special Assistant Attorney General Advisory Counsel to the Public Service Commission 22 approximately an hour. 23 As we begin today, I'd ask that everybody please check your cell phones to make sure they're either 25 silenced or turned off so that we do not have cell phone interruptions as we move through our hearing today. 2 This hearing concerns the application of SCS Carbon Transport LLC for a certificate of corridor 3 CONTENTS compatibility and route permit concerning approximately 5 320 miles of carbon dioxide pipeline ranging from 4.5-SCS CARBON TRANSPORT LLC WITNESSES 6 to 24-inch diameter and associated facilities in JEFF OLSON Burleigh, Cass, Dickey, Emmons, Logan, McIntosh, Morton, 8 Oliver, Richland, and Sargent counties, North Dakota. 9 On August 4th, 2023, the Commission issued 10 findings of fact, conclusions of law and an order 11 denying the application. On September 15th, 2023, the DAN PICKERING Cross Examination by MR. JORDE Cross Examination by MR. BAKKE 12 Commission issued an order granting the Applicant's WADE BOESHANS 13 petition for reconsideration. 14 This hearing was scheduled pursuant to an order on a motion for continuance issued by the Commission on 15 16 April 9th, 2024. The purpose of this hearing is to 17 allow Burleigh County and the landowner intervenors who 18 could not attend the April 22nd, 2024, public hearing an 19 opportunity to participate. Burleigh County and the landowner intervenors will have the opportunity to 21 cross-examine the witnesses who testified at the

at this hearing.

April 22nd hearing and to offer their own witness

There will be no public testimony or input taken

	ND 1 ODLIO OLIV		
1	I would note again that this matter or these	1	Mr. Dublinske, did you have anything?
2	hearings have been scheduled based on the Commission's	2	MR. DUBLINSKE: Your Honor, the only preliminary
3	order to re-open this case. All evidence previously	3	matter I have is that I inadvertently forgot to
4	accepted into the record, including testimony, remain a	4	introduce the people that are with us on the phone. So
5	part of the record. The purpose of this hearing is to	5	Brant Leonard on behalf of SCS also appearing as an
6	address deficiencies noted in the Commission's order and	6	attorney and Mark Schultheis who is appearing for an
7	route adjustments. The purpose is not to address issues	7	attorney on behalf or as an attorney on behalf of
8	the Commission has already determined it does not have	8	SCS.
9	jurisdiction over or items the Commission has determined	9	We have no other preliminary matters.
10	were already appropriately addressed by the Applicant.	10	ALJ HOGAN: All right. Thank you.
11	I'm now going to ask the parties to note their	11	Mr. Pelham.
12	appearance for the record.	12	MR. PELHAM: No, Your Honor. Thank you.
13	And on behalf of the Applicant, I'll start with	13	ALJ HOGAN: Mr. Bakke.
14	you, Mr. Dublinske. Do you want to note your appearance	14	MR. BAKKE: No, Your Honor.
15	for the record and introduce who you have with you	15	ALJ HOGAN: And Mr. Jorde or Mr. Leibel.
16	today?	16	MR. JORDE: No, Your Honor.
17	MR. DUBLINSKE: Thank you, Your Honor. Bret	17	ALJ HOGAN: All right. So it's my understanding
18	Dublinske of Fredrikson & Byron for the Applicant, SCS	18	that the Applicant's going to call Mr. Olson to testify
19	Carbon Transport. With me is Pat Mahlberg, also of	19	first; is that correct?
20	Fredrikson & Byron, on behalf of SCS and Tyler Gludt,	20	MR. MAHLBERG: That's correct, Your Honor. The
21	also on behalf of SCS.	21	Applicant would call Jeff Olson.
22	ALJ HOGAN: Thank you.	22	ALJ HOGAN: All right. Mr. Olson, if you want
23	On behalf of the Commission, Mr. Pelham, did you	23	to take a seat at the witness stand. The first question
24	want to note your appearance for the record?	24	is whether the microphone is on. Do you see a blue
25	MR. PELHAM: Thank you, Your Honor. Good	25	light?

Mr. Olson, I'll have you start by stating your full name for the record and spelling your last name. JEFF OLSON: Sure. Can you still hear me okay? ALJ HOGAN: Yep. JEFF OLSON: All right. Jeffery Alan Olson. My middle name is spelled A-L-A-N, my last name, O-L-S-O-N. ALJ HOGAN: And, Mr. Olson, before you testify this morning, I'm required by law to advise you on the penalties for perjury in the state of North Dakota. Perjury is a Class C felony, punishable by a maximum fine of \$10,000, a maximum five years' imprisonment, or both. Do you understand what perjury is? MR. OLSON: Yes, I do. ALJ HOGAN: And being advised of the potential penalties for perjury, do you promise to tell the truth in this case today? MR. OLSON: Yes, I do. ALJ HOGAN: All right. Thank you.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	general on behalf of the Commission. To my left is Victor Schock. He is the Public Utilities director. And Victor may have some questions today. Thank you. ALJ HOGAN: Mr. Bakke, would you like to introduce yourself and note your appearance for the record? MR. BAKKE: Yes, Your Honor. Good morning. I'm Randy Bakke. I'm here on behalf of Burleigh County. And with me is one of our paralegals, Kate Finck. ALJ HOGAN: And either Mr. Leibel or Mr. Jorde, would you like to note your appearance for the record and introduce the other individuals appearing on behalf of the landowner intervenors? MR. JORDE: Steve, why don't you go ahead? MR. LEIBEL: This is Steve Leibel and Michael Joyner for landowner intervenors. Mr. Brian Jorde is appearing remotely via GoTo Meeting. And we also have Rosanne Ogden from my office. ALJ HOGAN: Thank you. All right. And since this a continuance of the April 22nd hearing, it's my intent to jump right in, but	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	JEFF OLSON: There, how about now? ALJ HOGAN: That's perfect. Mr. Olson, I'll have you start by stating your full name for the record and spelling your last name. JEFF OLSON: Sure. Can you still hear me okay? ALJ HOGAN: Yep. JEFF OLSON: All right. Jeffery Alan Olson. My middle name is spelled A-L-A-N, my last name, O-L-S-O-N. Go ahead, Mr. Mahlberg.

	TID I OBEIO CEITT	r	
1	<u>JEFF OLSON,</u>	1	offer the direct testimony of Jeff Olson, dated
2	being first duly sworn, was examined and testified as	2	April 22nd, 2024, as SCS R-16.
3	follows:	3	ALJ HOGAN: Mr. Pelham, any objection?
4	DIRECT EXAMINATION	4	MR. PELHAM: I don't.
5	BY MR. MAHLBERG:	5	ALJ HOGAN: Mr. Bakke.
6	Q. Mr. Olson, can you state your business address,	6	MR. BAKKE: No, Your Honor.
7	please?	7	ALJ HOGAN: And Mr. Jorde.
8	A. My business address is 1621 North Fourth Street	8	MR. JORDE: I'd say foundation and hearsay.
9	in Tomahawk, Wisconsin.	9	ALJ HOGAN: All right. The objections are
10	Q. Mr. Olson, what's your profession?	10	noted. SCS R-16 will be received.
11	A. I am a senior appraiser with LandVest,	11	Q. (BY MR. MAHLBERG) Mr. Olson, would there be
12	Incorporated.	12	any documents in addition to what has just been admitted
13	Q. What licensures or designations do you hold in	13	that you have also prepared in connection with this
14	the appraisal field?	14	proceeding?
15	A. I am a certified general appraiser licensed	15	A. Yes.
16	in four states: North Dakota, Wisconsin, Minnesota, and	16	Q. And can you explain what that what that is,
17	Michigan.	17	Mr. Olson?
18	Q. Mr. Olson, in connection with this proceeding,	18	A. Sure. I've been licensed in North Dakota for
19	did you prepare or cause to be prepared written	19	about ten years now. I continue to do research on on
20	testimony?	20	pipeline-encumbered properties and their impact on
21	A. I did.	21	value. And it's my understanding that there's a one
22	Q. Was that written testimony prepared by you or	22	CO2 line in existence going through several counties in
23	under your control and supervision?	23	North Dakota. So I'm I'm continuing to do my
24	A. Yes.	24	research, looking for easement-encumbered properties.
25	Q. When you prepared that testimony, Mr. Olson, was	25	And I recently since my testimony, I've I've
	PAGE 9		PAGE 11
1	it true and correct?	1	recently uncovered one property that is encumbered with
1 2	it true and correct? A. Yes.	1 2	recently uncovered one property that is encumbered with a CO2 line.
	_		
2	A. Yes.	2	a CO2 line.
2	A. Yes.Q. Are there any corrections you need	2	a CO2 line. Q. And did you prepare a written report of the
2 3 4	A. Yes.Q. Are there any corrections you needA. No.	2 3 4	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale?
2 3 4 5	 A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. 	2 3 4 5	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes.
2 3 4 5 6	 A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? 	2 3 4 5 6	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled
2 3 4 5 6 7	 A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. 	2 3 4 5 6 7	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"?
2 3 4 5 6 7 8	 A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those 	2 3 4 5 6 7 8	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct.
2 3 4 5 6 7 8 9	 A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those same questions, would your answers be the same or 	2 3 4 5 6 7 8 9	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that
2 3 4 5 6 7 8 9	A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those same questions, would your answers be the same or substantially the same?	2 3 4 5 6 7 8 9	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that document concludes to?
2 3 4 5 6 7 8 9 10	A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those same questions, would your answers be the same or substantially the same? A. Yes.	2 3 4 5 6 7 8 9 10	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that document concludes to? A. Sure. It's a paired sale analysis similar to the paired sale analysis in my in my written testimony. So there's one sale; 478 acres in Divide
2 3 4 5 6 7 8 9 10 11	A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those same questions, would your answers be the same or substantially the same? A. Yes. UNIDENTIFIED SPEAKER: Unfortunately, I think	2 3 4 5 6 7 8 9 10 11	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that document concludes to? A. Sure. It's a paired sale analysis similar to the paired sale analysis in my in my written
2 3 4 5 6 7 8 9 10 11 12 13	A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. As you sit here today, if you were asked those same questions, would your answers be the same or substantially the same? A. Yes. UNIDENTIFIED SPEAKER: Unfortunately, I think it's just any of them in the room, feedback possibly	2 3 4 5 6 7 8 9 10 11 12 13	a CO2 line. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that document concludes to? A. Sure. It's a paired sale analysis similar to the paired sale analysis in my in my written testimony. So there's one sale; 478 acres in Divide County sold in January of 2023. It sold for \$1,264 per acre. It was two non-contiguous parcels, three quarter
2 3 4 5 6 7 8 9 10 11 12 13	A. Yes. Q. Are there any corrections you need A. No. Q any corrections you need to make to your testimony, Mr. Olson? A. No. Q. And did you prepare a written report of the research that you performed about that sale? A. Yes. Q. Okay. Mr. Olson, is that document entitled "Market Analysis, North Dakota CO2 Pipeline Research"? A. Correct. Q. Can you explain what that document what that document concludes to? A. Sure. It's a paired sale analysis similar to the paired sale analysis in my in my written testimony. So there's one sale; 478 acres in Divide County sold in January of 2023. It sold for \$1,264 per acre. It was two non-contiguous parcels, three quarter sections totaling the 478 acres. Nearby, within a mile, there I have in my database two other similar sales. One is 160 acres in size, the other is 263 acres in size. Both of those properties sold for \$1,275 per acre. So the difference in the sale price between the encumbered and the unencumbered is about 1 percent, minus 1 percent.

	ND 1 ODLIO OLIV		
1	ALJ HOGAN: Mr. Pelham, any objection?	1	northern North Dakota, lots of ponds, small ponds. So
2	MR. PELHAM: No objection.	2	the encumbered sale has a slightly less tillable acreage
3	ALJ HOGAN: Mr. Bakke.	3	than the unencumbered sales.
4	MR. BAKKE: Your Honor, can I voir dire the	4	MR. BAKKE: Okay. Do you have any photographs
5	witness for purpose of foundation and relevance?	5	or information on the properties that identifies water
6	ALJ HOGAN: Yes.	6	sources or indicates whether one has a stock dam,
7	MR. BAKKE: This pipeline that you're referring	7	another doesn't, what water features there might be,
8	to for Dakota Gasification Company, what was the	8	other things that might be pertinent to a sale, access
9	diameter of that pipeline?	9	issues, easement issues, those types of things? Do you
10	THE WITNESS: I am unaware of the diameter of	10	have any photographs or details on that?
11	the pipeline.	11	THE WITNESS: Of the of which
12	MR. BAKKE: What was the volume of CO2 that's in	12	MR. BAKKE: Of any of these properties that
13	that pipeline?	13	would be part of what went into what the price per acre
14	THE WITNESS: I they have it on their	14	might be.
15	website. I have it printed out, not with me. I don't	15	THE WITNESS: Sure. I've got aerial photos, but
16	recall the specifications.	16	I do not have any pictures that I personally took.
17	MR. BAKKE: Okay. What was the pressure in that	17	MR. BAKKE: Okay. So we don't have those here
18	pipeline?	18	today to look at the differences?
19	THE WITNESS: Again, I don't have that with me,	19	THE WITNESS: I do have a couple with me here,
20	but it's on the on the information that I reviewed.	20	yes.
21	MR. BAKKE: What was the depth that that	21	MR. BAKKE: Okay. But they're not part of this
22	pipeline is buried?	22	proposal?
23	THE WITNESS: I do not know.	23	THE WITNESS: They're not.
24	MR. BAKKE: When was the pipeline installed?	24	MR. BAKKE: Okay. Your Honor, we'd object for
25	THE WITNESS: I believe it's been in operation	25	lack of foundation and relevance.

And as far as those discussions, were there any concerns noted by those individuals who were involved in the sales involving their lands with the pipelines on their lands?
 24 compare the two and, hopefully, you can isolate that 24 ALJ HOGAN: You can answer. 25 difference, and that difference would be the impact. 26 A. Yes, there were conversations. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	land value. Q. What leads you to that opinion? A. Again, paired sales analysis. I've been conducting research for ten years on similar properties, not only in North Dakota but in four, five states. Q. Mr. Olson, what's a paired sales analysis for those people who don't read appraisal reports all day long? A. Sure. There's two different types of paired sales analysis that I typically do. One is a what is termed by the appraisal industry as "grouped paired sale analysis." That's where you gather a bunch of sales, a grouping of sales of similar property types, and you compare them to, in this case, encumbered properties versus unencumbered properties. So a paired sale analysis is trying to isolate the impact of, in this case, a pipeline easement. You can do a paired sale analysis on residential property. If you want to know what is the contributing value of a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	BY MR. PELHAM: Q. Good morning, Mr. Olson. I appreciate the data. I'm just wondering, as part of your research, did you talk to any of the landowners who are involved in any of the sales that you looked at? A. Not of the CO2 sale that I just presented here today, but the other sales, yes, I have myself and a colleague have verified these sales with buyers or sellers. Q. In those conversations with those sellers or buyers, if you had any, were concerns related to pipeline easements or the existence of pipelines discussed with those individuals? A. Yes. Q. And as far as those discussions, were there any concerns noted by those individuals who were involved in the sales involving their lands with the pipelines on their lands? MR. JORDE: Hearsay and relevance.
25 difference, and that difference would be the impact. 25 A. Yes, there were conversations.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	land value. Q. What leads you to that opinion? A. May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		
1	Q. (BY MR. PELHAM) All right. And as part of	1	Okay. This is a paired sales analysis. I'm not
2	your research, sir, and your investigations into this	2	conducting an appraisal on any of the properties that
3	matter, what were there any concerns that were stated	3	you see in my testimony. Those aren't those are not
4	as to the impact of pipelines as to the economic value	4	appraisals.
5	of the pipelines on the properties that you reviewed?	5	Q. Okay. So maybe I misunderstood your testimony.
6	MR. JORDE: Hearsay and relevance.	6	You're not offering testimony here today, providing an
7	MR. BAKKE: Join.	7	opinion of value as to any specific property?
8	ALJ HOGAN: The objection is noted. I'll allow	8	A. Correct.
9	him to answer.	9	Q. Okay. And so you have done no appraisal which
10	A. No, not on not on the sales that I provided	10	would allow you to offer an opinion as to the value of
11	in my written testimony.	11	the properties described in R-17 which has been admitted
12	MR. PELHAM: Thank you, sir. I don't have any	12	into this case?
13	other questions.	13	A. Correct. So so an appraisal, you know, on a
14	ALJ HOGAN: Mr. Schock, did you have any	14	on a specific piece of property, I'm engaged in in
15	questions?	15	this case, maybe I'm engaged by SCS to perform
16	MR. SCHOCK: No questions, Your Honor.	16	appraisals on a specific piece of property. That
17	ALJ HOGAN: Mr. Bakke.	17	process, in order to value these properties, we do it in
18	MR. BAKKE: Yes, Your Honor.	18	a before and after scenario. Okay. So we appraise the
19	CROSS EXAMINATION	19	property in the before condition and we appraise the
20	BY MR. BAKKE:	20	property in the after condition, meaning now this
21	Q. So, Mr. Olson, I think I heard you say, quote,	21	property has a pipeline easement going across it, and in
22	"I'm here to provide an unbiassed opinion and a USPAP	22	this case a CO2 pipeline.
23	compliance opinion." Is that accurate?	23	To determine the impacts of that pipeline,
24	A. Correct.	24	typically you do a paired sales analysis. Appraisers do
25	Q. Okay. So what appraisal did you do in this case	25	those quite quite frequently. Or and and the
	PAGE 21		PAGE 23
1	and of what property?	1	best case scenario, this subject, one of the subject
2	A. I haven't I'm doing some preliminary work on	2	properties I'm appraising, two years ago sold for X
2 3	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals	2 3	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is
2 3 4	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet.	2 3 4	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's
2 3 4 5	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP?	2 3 4 5	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis.
2 3 4 5 6	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that	2 3 4 5 6	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these
2 3 4 5 6 7	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we	2 3 4 5 6 7	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value,
2 3 4 5 6 7 8	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take	2 3 4 5 6 7 8	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in
2 3 4 5 6 7 8 9	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do	2 3 4 5 6 7 8 9	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in the after condition.
2 3 4 5 6 7 8 9	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do that in every state that I'm in. But it's the governing	2 3 4 5 6 7 8 9	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in the after condition. Q. Okay. And that wasn't what I was asking about,
2 3 4 5 6 7 8 9 10	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do that in every state that I'm in. But it's the governing body that tells appraisers how they need to act and	2 3 4 5 6 7 8 9 10	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in the after condition. Q. Okay. And that wasn't what I was asking about, a paired sales analysis, but I'll move on.
2 3 4 5 6 7 8 9 10 11	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do that in every state that I'm in. But it's the governing body that tells appraisers how they need to act and perform their duties.	2 3 4 5 6 7 8 9 10 11	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in the after condition. Q. Okay. And that wasn't what I was asking about, a paired sales analysis, but I'll move on. As I understand it, any testimony you provided
2 3 4 5 6 7 8 9 10 11 12 13	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. So in order to determine the after value, you have to look at similar situations to value it in the after condition. Q. Okay. And that wasn't what I was asking about, a paired sales analysis, but I'll move on. As I understand it, any testimony you provided in your written testimony provided to the commissioners here today, you're not offering an opinion as to value on any of the properties discussed in your written testimony; correct? A. Correct. Q. Okay. Because you've done no appraisal of any of those properties?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do that in every state that I'm in. But it's the governing body that tells appraisers how they need to act and perform their duties. Q. Okay. Is it a violation of USPAP standards to offer an opinion of a value of a property without conducting an appraisal? A. I've I believe you have to have a work file. If you opine to a value of a specific piece of property, you should have a work file. Q. Okay. Well, the document you provided to the PSC, which has now been accepted into the record,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	properties I'm appraising, two years ago sold for X amount of dollars. Now after two years the pipeline is in place, the property again sells. That's that's the that's the perfect paired sales analysis. But you don't have that in most of these situations. So in order to determine the after value, you have to look at similar situations to value it in the after condition. Q. Okay. And that wasn't what I was asking about, a paired sales analysis, but I'll move on. As I understand it, any testimony you provided in your written testimony provided to the commissioners here today, you're not offering an opinion as to value on any of the properties discussed in your written testimony; correct? A. Correct. Q. Okay. Because you've done no appraisal of any of those properties? A. Correct.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. I haven't I'm doing some preliminary work on on appraisals, but I have not completed appraisals yet. Q. Okay. And what is USPAP? A. That's the USPAP is the governing body that appraisers have to adhere to. They they've got we have to sign a certification. We have to take continuing education every every two years. So I do that in every state that I'm in. But it's the governing body that tells appraisers how they need to act and perform their duties. Q. Okay. May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		_ 001/11/11001011
1	Q. Okay. So let's take those separately and let's	1	testimony on how either agricultural land or residential
2	start with the residential properties. The residential	2	land might be impacted by being encumbered by a CO2
3	properties that are the subject of your written	3	pipeline?
4	testimony, are those residential properties in Bismarck,	4	A. Correct.
5	North Dakota?	5	Q. What knowledge do you have in relation to the
6	A. They are, correct.	6	differences between the dangers of CO2 pipeline leaks
7	Q. Okay. Did you consider residential properties	7	versus a natural gas leak?
8	from any other location other than within the city of	8	A. I have very little information in regard to
9	Bismarck itself?	9	that.
10	A. In my body of work, yes, but for this testimony,	10	Q. Okay. Do you know what the health concerns are
11	no. This only pertains to the to the residential	11	in relation to a leak from a CO2 pipeline if you're in a
12	subdivisions on the northwest side of Bismarck.	12	nearby residence?
13	Q. Okay. So, for instance, for my client, Burleigh	13	A. Yes. I've read about them. Correct.
14	County, which has jurisdiction outside the city limits	14	Q. So you understand there's some fairly
15	for housing subdivisions, you have done no analysis of	15	significant differences between the health concerns by
16	values for any residences in any rural subdivisions in	16	being located near a CO2 pipeline versus a natural gas
17	Burleigh County; correct?	17	pipeline?
18	A. Correct.	18	A. Correct.
19	Q. Or any other county in North Dakota, for that	19	Q. Okay. And you understand that homes need
20	matter?	20	natural gas pipelines to provide a natural gas source
21	A. Not as part of this testimony, no.	21	for heating and cooking for their homes; correct?
22	Q. Okay. And how many appraisals have you	22	A. Yes.
23	performed in Burleigh County of residential homes,	23	Q. Versus there's no need for a CO2 for residences;
24	including the city of Bismarck, in the past?	24	correct?
25	A. Of residential homes?	25	A. Correct.
	PAGE 25		PAGE 27
1	Q. Correct.	1	Q. And that might help explain why how natural
1 2	Q. Correct.A. I have done no residential home valuations in	1 2	Q. And that might help explain why how natural gas impacts the values of homes could be dramatically
2	A. I have done no residential home valuations in	2	gas impacts the values of homes could be dramatically
2	A. I have done no residential home valuations in in Burleigh County.	2	gas impacts the values of homes could be dramatically different than a CO2 pipeline in addition to the health
2 3 4	 A. I have done no residential home valuations in in Burleigh County. Q. Okay. How many residential home appraisals have 	2 3 4	gas impacts the values of homes could be dramatically different than a CO2 pipeline in addition to the health concern difference; correct?

Q. Okay. And what expertise does Mr. Skaare have in relation to real estate values and, in particular, in relation to Burleigh County real estate values? A. I don't know that he has any. Q. Okay. And what knowledge, if any, does Mr. Skaare, who I believe has indicated he lives in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. I have done no residential home valuations in in Burleigh County. Q. Okay. How many residential home appraisals have you done in any city or location in North Dakota? A. Probably approaching 100. Q. Okay. And which cities or towns were those in? A. Mostly, in relation to my work, I do quite a bit of work on the FM Diversion Canal project in Fargo and Moorhead. So I I've conducted nearly a hundred residential rural residential and also urban residential valuations as part of that project. Q. And do any of them involve the effect of a CO2 pipeline on any of those residential homes in Cass County? A. I don't believe so, no. Q. Okay. How many appraisals of either residential or agricultural land have you performed in the past in North Dakota where there was a nearby CO2 pipeline? A. None for a CO2 pipeline.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	gas impacts the values of homes could be dramatically different than a CO2 pipeline in addition to the health concern difference; correct? A. Well, I think that's speculation. Q. Well, you don't know one way or the other? A. At this point, I've got very little data on properties that are encumbered by a CO2 pipeline. Q. Okay. And in your written testimony, you indicate that you rely on the written testimony of Jeff Skaare as part of your basis for your opinions you're offering to the PSC in this case; correct? A. Correct. Q. Okay. And what expertise does Mr. Skaare have in relation to real estate values and, in particular, in relation to Burleigh County real estate values? A. I don't know that he has any. Q. Okay. And what knowledge, if any, does Mr. Skaare, who I believe has indicated he lives in Dickinson, have about residential subdivisions in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. I have done no residential home valuations in in Burleigh County. Q. Okay. May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND 1 ODLIO OLIV		_ 001/11/11001014
1	Isn't Mr. Skaare an attorney for Summit?	1	correct?
2	A. I don't know the answer to that.	2	A. Yeah. It's the NuStar line and the west Bakken
3	Q. Which residential subdivisions, rural	3	lines. Right.
4	residential subdivisions, in Burleigh County have you	4	Q. None of them were CO2 pipelines?
5	driven through that are in the area where the CO2	5	A. Correct.
6	pipeline is projected to be routed or nearby?	6	Q. Okay. And as part of the work that you did in
7	A. Well, I I don't I haven't seen any rural	7	this case for Summit and in regards to any opinions
8	residential properties, large, bulk development-type	8	you're offering here today, did you have any
9	properties, in in the location of the proposed route.	9	communications with real estate subdivision developers
10	Q. Okay. Do you know if there are any?	10	who build or have built in the past residential homes in
11	A. I don't know.	11	Bismarck?
12	Q. Okay. So you're just speculating that there	12	A. Not in Bismarck, no.
13	might not be any, but you don't know?	13	Q. Okay. Did you talk to any real estate
14	A. Well, I've driven the route, I've driven I've	14	developers who have in the past or currently are
15	driven throughout the county, but I haven't seen any	15	building housing subdivisions, rural housing
16	rural bulk development properties that the pipeline is	16	subdivisions, in Burleigh County?
17	going through. But, again, it's preliminary.	17	A. No.
18	Q. Okay. Have you talked to anybody at Burleigh	18	Q. Okay. Did you talk to any of the developers who
19	County to ask them whether there are any nearby rural	19	have testified in this case regarding the impact and
20	residential subdivisions?	20	what their personal experience has been when potential
21	A. I have not.	21	purchasers learn that the CO2 pipeline might be
22	Q. Okay. And have you asked anybody at Burleigh	22	constructed near their homes?
23	County any questions about development in the area where	23	A. No.
24	the pipeline is proposed to go?	24	Q. Okay. So that's not considered as part of your
25	A. At this point, no, because I I again, I'm	25	testimony?
			•
	PAGE 29		PAGE 31
1		1	PAGE 31 A. No. Again, I'm not appraising properties yet.
1 2	not appraising properties yet, but if we get to that point, then that's when I start doing that that type	1 2	
	not appraising properties yet, but if we get to that		A. No. Again, I'm not appraising properties yet.
2	not appraising properties yet, but if we get to that point, then that's when I start doing that that type	2	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point,
2	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation.	2 3	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your
3 4	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony	2 3 4	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research.
2 3 4 5	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report,	2 3 4 5	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your written testimony, what you call, quote, "independent
2 3 4 5 6	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report, which is a part of the record in this case; is that	2 3 4 5 6	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your written testimony, what you call, quote, "independent research," end quote. What independent research did you do, if any, in regards to values of residential property
2 3 4 5 6 7	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report, which is a part of the record in this case; is that correct?	2 3 4 5 6 7	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your written testimony, what you call, quote, "independent research," end quote. What independent research did you
2 3 4 5 6 7 8	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report, which is a part of the record in this case; is that correct? A. Correct.	2 3 4 5 6 7 8	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your written testimony, what you call, quote, "independent research," end quote. What independent research did you do, if any, in regards to values of residential property that are encumbered by CO2 pipelines?
2 3 4 5 6 7 8 9	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report, which is a part of the record in this case; is that correct? A. Correct. Q. Okay. And that's not an appraisal either;	2 3 4 5 6 7 8 9	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. And then you also talk about, in your written testimony, what you call, quote, "independent research," end quote. What independent research did you do, if any, in regards to values of residential property that are encumbered by CO2 pipelines? A. Well, the really the I've only uncovered
2 3 4 5 6 7 8 9	not appraising properties yet, but if we get to that point, then that's when I start doing that that type of investigation. Q. Okay. You indicate in your written testimony that you rely on Mr. Becker's May 30, 2023, report, which is a part of the record in this case; is that correct? A. Correct. Q. Okay. And that's not an appraisal either; correct?	2 3 4 5 6 7 8 9	A. No. Again, I'm not appraising properties yet. So when I get to that point, if I get to that point, that's when I would do more research. Q. Okay. 	ND PUBLIC SERV		
1	A. Correct.	1	Q. Okay. And then you say there was no market
2	Q. Okay. And that's a comment in relation to what?	2	evidence uncovered, is what you say in your opinion when
3	Some residential subdivision in Bismarck?	3	you say "no market evidence uncovered," that just means
4	A. Yeah. The six developments on the northwest	4	you didn't find anything; correct?
5	side of Bismarck. Okay. So it's it's an observation	5	A. I did not find anything at this point, no.
6	that, when a property is developed, you look to see	6	Q. Okay. But you didn't talk to any of the
7	which properties are selling first and and for how	7	salespeople involved in selling those lots to find out
8	much. So the west Bakken line and the NuStar line going	8	why particular lots sold when they did?
9	through the developments in the northwest side of	9	A. Why they sold when they did?
10	Bismarck, there's there's no rhyme or reason as to	10	Q. Right.
11	which lots were selling first. Some of them were	11	A. No.
12	encumbered, some of them were unencumbered.	12	Q. Okay. Or what the reasons were in relation to
13	Q. And when you say the six developments in	13	pricing?
14	northwest Bismarck, what were those developments called?	14	A. No.
15	A. I don't recall the names of them off the top of	15	Q. Okay. Then the other topic in your written
16	my head.	16	testimony that you've offered opinions on is the
17	Q. Promontory Point?	17	pipeline's impact on agricultural land. And you've
18	A. I believe that was one of them. I I don't	18	looked back, I think, not at CO2 pipelines other than
19	recall the names of those.	19	what you testified here today regarding Dakota
20	Q. Well, when you say "northwest Bismarck," can you	20	Gasification Company, but you talk about Dakota Access
21	give us some location by street?	21	Pipeline, WBI pipeline, and a Marathon pipeline;
22	A. Off the top of my head, no.	22	correct?
23	Q. So you can't even identify either the housing	23	A. Correct.
24	subdivision or even an approximate location other than	24	Q. None of those are CO2 pipelines?
25	to say "northwest Bismarck"?	25	A. Correct.
	PAGE 33		PAGE 35
1	A. No.	1	Q. Okay. And have you reviewed any of the
1 2	A. No. Q. Can you identify a nearby school?	1 2	Q. Okay. And have you reviewed any of the testimony in this case by the agricultural landowners
2	Q. Can you identify a nearby school?	2	testimony in this case by the agricultural landowners
2	Q. Can you identify a nearby school?A. No.	3	testimony in this case by the agricultural landowners who have expressed significant concerns about the health
2 3 4	Q. Can you identify a nearby school?A. No.Q. Can you identify a nearby landmark or feature?	2 3 4	testimony in this case by the agricultural landowners who have expressed significant concerns about the health risk, the safety risk, the diminishment in value of

Okay. Do you have any documents to support your opinions about there's no pattern as to which lots are developed first? A. No, other than doing pulling deeds and looking at dates of sale. Q. Okay. Well, did you contact any of the developers of those residential subdivisions to determine why those lots sold when they did or what the reasons were? A. At this point, no, I have not. Q. And then the second opinion you offer is, quote, "There is no market evidence uncovered that suggests that pipelines impact the market value of residential properties." And, once again, this was not an opinion as to CO2 pipelines; correct? A. It was based on my analysis of non-CO2 pipelines. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	who have expressed significant concerns about the health risk, the safety risk, the diminishment in value of their properties due to the presence of a CO2 pipeline? A. No. Q. Okay. So your opinions in this case do not factor in the evidence in this case from agricultural landowners on how they have significant safety concerns and how that, they believe, impacts the value of their land? A. Well, impacts to value is based on market evidence; correct? If I haven't found any market evidence to support a loss in value, I'm not sure how anybody else can can make that determination. Q. Well, there is no market evidence because none of these residents have sold that have been encumbered by a nearby CO2 pipeline; correct? A. Correct. Q. Okay. So you can't offer any opinions whether it will or will not value these residences because you haven't found any that you can analyze, correct, or do an appraisal on?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 Q. Can you identify a nearby school? A. No. Q. Can you identify a nearby landmark or feature? A. In the northwest side of Bismarck, no. Q. Okay. Do you have any documents to support your opinions about there's no pattern as to which lots are developed first? A. No, other than doing pulling deeds and looking at dates of sale. Q. Okay. May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND 1 ODLIO OLIV		
1	in this case about a single sale of any home encumbered	1	unencumbered properties.
2	by a CO2 pipeline?	2	So, again, there's there's concerns in Iowa,
3	A. No.	3	there's concerns in North Dakota. And I I totally
4	Q. Okay. And you do agree agricultural landowners	4	understand that. But what I have to try and analyze is
5	are entitled, under North Dakota law and perhaps the law	5	that impact, what is the impact of that pipeline going
6	of many other jurisdictions, to offer an opinion as to	6	across these properties. And my market evidence is
7	the value of their property?	7	is overwhelming the same in every state that I work on.
8	A. Correct.	8	It's very little impact on value.
9	Q. Because they they know that value from often	9	Q. Okay. Well, you've only found two situations.
10	having lived there and farmed there and ranched there	10	One in Iowa and then this other agricultural land in
11	and knowing the value of nearby properties as well;	11	Divide County in North Dakota?
12	correct?	12	A. To date, correct.
13	A. Entirely agree.	13	Q. Okay. And neither one of those involved a
14	Q. Okay. Would you agree that, over time, safety	14	residence nearby or where their land was encumbered by a
15	concerns and valuation impacts have changed in relation	15	CO2 pipeline?
16	to the presence of pipelines?	16	A. Correct.
17	A. No. I don't agree with that.	17	Q. Okay. That's all the questions I have. Thank
18	Q. Okay. So you haven't seen a I don't really	18	you.
19	want to call it a trend but a change historically that	19	ALJ HOGAN: Mr. Jorde, do you have any questions
20	many people now have concerns about pipelines and living	20	for Mr. Olson?
21	by them or farming by them that perhaps 20 years ago did	21	MR. JORDE: I do. Thank you.
22	not have those same concerns?	22	CROSS EXAMINATION
23	A. I I agree with the concerns. However, I	23	BY MR. JORDE:
24	disagree with the impact on value. The market data	24	Q. Mr. Olson, you mentioned the sale in Iowa. And
25	speaks for itself. I agree with you in that there's	25	there's no Summit pipeline operating in Iowa. You're

And so you don't know if the buyer believes that the Summit pipeline will never be approved and he or she thinks they got a great buy. I mean, the fact the pipeline doesn't exist, that's not a fair comparison for saying that an operating pipeline doesn't affect market value; correct? A. Well, I disagree. There's there's an easement on the property. There yes, it hasn't been constructed, but there is an easement. And you have to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	there's significant concerns even with this project. Almost with every project that I work on there's there's significant concerns. It it most likely reduces your potential pool of buyers, without a doubt. But there's also investors out there and buyers out there that have a checklist; right? They they go to buy property. They've got these things in mind. And if it has a pipeline on it and it's far down the list, it doesn't it doesn't make that much of a difference to them. And there's always somebody willing to pay top dollar or market value or above market value even if it's encumbered. So I agree with the concerns, but I haven't seen market evidence to support an impact on value that coincides with the concerns. Q. Well, except for you're now switching to natural gas pipeline, oil pipelines. You haven't found any sales of property other than the one in Divide County involving a CO2 pipeline; correct? A. Well okay. Even the ones in the state of Iowa, right on the on the brochure, on the on the flier, it says "Summit Carbon pipeline" on it. It was	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Well, they're they're not operating yet, but there are signed easements in the state of Iowa, voluntary easements signed. Q. Okay. And you're saying that the example of the Iowa property, that there was someone signed an easement and then that someone sold that property with the easement to someone else. Is that what you're saying? A. Yes. They sold at auction. And on the auction flier, it it prominently displayed "Summit Carbon pipeline." Q. All right. And so you don't know if the buyer believes that the Summit pipeline will never be approved and he or she thinks they got a great buy. I mean, the fact the pipeline doesn't exist, that's not a fair comparison for saying that an operating pipeline doesn't affect market value; correct? A. Well, I disagree. There's there's an easement on the property. There yes, it hasn't been constructed, but there is an easement. And you have to consider those easements when you're valuing property.

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		
1	potentially route a CO2 pipeline across those lands?	1	ago in these proceedings? Do you know?
2	A. I I guess I'm not can you restate the	2	A. I don't know.
3	question, please?	3	Q. And so the one sale in North Dakota, that one
4	Q. Yeah. Are you aware I mean, you could sell	4	sale doesn't make a trend, does it? You can't
5	me an easement across your front yard and I might never	5	extrapolate much from a single sale where you don't know
6	do the project. You understand that the existence of an	6	the motivations of the buyer and the seller, can you?
7	easement, there's no risk, there's no pipeline, there's	7	A. Well, I I think you you can look at that
8	nothing there at the moment when someone purchases	8	data and the sale prices are are very similar. One
9	property with a right to maybe do something that hasn't	9	paired sales analysis, I'm not going to base my
10	yet happened. You agree with that; right?	10	after-condition value on just one paired sales analysis,
11	A. Right. In most situations an easement is	11	no.
12	perpetual, right? It goes with the land. It transfers.	12	Q. And that that pipeline is owned and operated
13	So you have to consider it even though the project isn't	13	by who?
14	built yet.	14	A. It is the name escapes me. Dakota
15	Q. And in Iowa you didn't talk to those buyers, of	15	Gasification. And it it goes through several
16	whether they considered it or what what stock they	16	counties, you know, Dunn County, McKenzie, Divide, and
17	put in if Summit is going to get their Iowa permits;	17	it goes up into Canada.
18	correct?	18	Q. And do you know when that when the in-service
19	A. Correct. At this point I have not spoken with	19	date of that pipeline was?
20	anybody in Iowa.	20	A. It was in the early 2000s.
21	Q. And if you were working in North Dakota and you	21	Q. And so give or take 20 years ago; is that right?
22	were in a condemnation proceeding, you couldn't bring in	22	A. Yes.
23	a sale of Iowa as relevant data to affect a, say,	23	Q. And so in 20 years of the existence of the
24	Burleigh County condemnation proceeding, could you?	24	pipeline, which doesn't count the couple years that
25	A. I if I analyzed it, I absolutely could. It	25	maybe easements would have been obtained prior to
	PAGE 41		PAGE 43
1	speaks to the local market and, you know, I I use	1	construction, you were able to find exactly one sale; is
1 2	speaks to the local market and, you know, I I use paired sales analysis in Michigan and I compare them to	1 2	construction, you were able to find exactly one sale; is that right?
2	paired sales analysis in Michigan and I compare them to	2	that right?
2	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole	2	that right? A. Well, to date I've uncovered one sale, yes.
2 3 4	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to	2 3 4	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those
2 3 4 5	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole	2 3 4 5	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it?
2 3 4 5 6 7 8	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole transaction all of the specifics of a transaction.	2 3 4 5 6 7 8	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it? A. No, it's not.
2 3 4 5 6 7 8 9	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole transaction all of the specifics of a transaction. Q. So you think you could use the paired analysis where a pipeline doesn't exist in order to give a valuation opinion on where a pipeline does exist?	2 3 4 5 6 7 8 9	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it? A. No, it's not. Q. Okay. A. That isn't what it means. Q. Okay. Now what did you say here? Oh, you say
2 3 4 5 6 7 8 9	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole transaction all of the specifics of a transaction. Q. So you think you could use the paired analysis where a pipeline doesn't exist in order to give a valuation opinion on where a pipeline does exist? A. Again, we're you know, we're kind of	2 3 4 5 6 7 8 9	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it? A. No, it's not. Q. Okay. A. That isn't what it means. Q. Okay. Now what did you say here? Oh, you say someone is always willing to pay top dollar. Are you
2 3 4 5 6 7 8 9 10	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole transaction all of the specifics of a transaction. Q. So you think you could use the paired analysis where a pipeline doesn't exist in order to give a valuation opinion on where a pipeline does exist? A. Again, we're you know, we're kind of hypothetically speaking. Right now I I'm not going	2 3 4 5 6 7 8 9 10	that right? A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it? A. No, it's not. Q. Okay. A. That isn't what it means. Q. Okay. Now what did you say here? Oh, you say someone is always willing to pay top dollar. Are you aware of auctions, both in Iowa where the Summit
2 3 4 5 6 7 8 9 10 11	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. I you absolutely can if if you go do the do the work to understand, you know, what was what the whole transaction all of the specifics of a transaction. Q. So you think you could use the paired analysis where a pipeline doesn't exist in order to give a valuation opinion on where a pipeline does exist? A. Again, we're you know, we're kind of hypothetically speaking. Right now I I'm not going to use it to value any properties here in North Dakota because I don't have any specifics on it. Q. And twice you said that you're not appraising individual properties in North Dakota, but you would get to that point during condemnation proceedings; correct? A. Potentially, yes. Q. And that's work that you would be assisting Summit with if it gets to that point; correct? A. Correct. I've I've been working on this Summit project for about two years, just gathering data, looking at relevant information.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Well, to date I've uncovered one sale, yes. Q. And that's pretty good evidence that those properties are darned hard to sell, isn't it? A. No, it's not. Q. Okay. A. That isn't what it means. Q. Okay. Now what did you say here? Oh, you say someone is always willing to pay top dollar. Are you aware of auctions, both in Iowa where the Summit pipeline was projected to cross and then in South Dakota where the Navigator pipeline was projected to cross, where auctions were no-saled because of the lack of buyers? A. I am not aware of that, no. Q. Okay. What data and information did Summit provide you relative to the specific risks and risk profile of a CO2 pipeline which they claim will be in supercritical state that must maintain a constant pressure? A. I have not seen any data yet from from Summit
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	paired sales analysis in Michigan and I compare them to paired sales analysis in North Dakota. 1	IND PUBLIC SERV	-	
	Q. Is that kind of Google.com CO2 pipeline, or what	1	mineral rights allow them to put in a crude oil line or
2	did you do to familiarize yourself?	2	I'm not talking CO2 but so sometimes there's
3	A. Well, the there's all there's a	3	easements. Sometimes there's not an easement but the
4	significant amount of information on on the Dakota	4	centerline is marked.
5	Gas pipeline so it's right on their website and you	5	Driving through these subdivisions, some of
6	can get that kind of information.	6	these homes are probably 15 or 20 feet from where the
7	Q. Okay. So if they didn't have publicly available	7	markers are. You can see in some of the pictures,
8	dispersion modeling or hazard distances or other type of	8	people utilize those those pipeline corridors,
9	risk data, you wouldn't have seen that and you wouldn't	9	playground equipment, there's there's gardens in
10	know about that; correct?	10	them, it's green space. Those those areas are
11	A. Correct.	11	utilized. But some of the homes are fairly close.
12	Q. And I think Mr. Bakke asked you, but you haven't	12	COMMISSIONER CHRISTMANN: So does it seem that
13	talked to any certainly of our clients, have you, and	13	the what I was trying to get at is if a development
14	are aware that none of them would purchase land with a	14	is 40 acres and the pipeline runs right through the
15	CO2 pipeline? Were you aware of that testimony?	15	middle of it, how many acres out of that might be off
16	A. I am not, no.	16	limits for development that, yeah, the homeowner, if
17	Q. All right. But you admitted that certainly the	17	they're not worried about the pipeline, they might like
18	pool of buyers, especially in a local market, would	18	living close to it because they get a little extra yard?
19	decrease if those attitudes and perceptions persist;	19	THE WITNESS: Green space.
20	correct?	20	COMMISSIONER CHRISTMANN: But the developer
21	A. I would agree, yes.	21	can't sell that for a development. So is a developer
22	Q. And I don't suppose you've done any appraisals	22	losing much of a corridor through that that he or she is
23	or analysis on sales of property that have a	23	unable to sell?
24	Summit-owned-and-operated CO2 pipeline, have you?	24	THE WITNESS: No, they're not. Typically, the
25	A. No.	25	way they they put their infrastructure, the roads
	PAGE 45		PAGE 47
1	Q. And you understand this particular project would	1	a developer now, not a not a pipeline company,
2	be the very first, kind of the guinea pig for the Summit	2	they'll if there's a pipeline corridor going through
2 3	be the very first, kind of the guinea pig for the Summit group in terms of CO2 pipelines; correct?	2	they'll if there's a pipeline corridor going through it, they'll have access roads and the back end the
3	group in terms of CO2 pipelines; correct?	3	it, they'll have access roads and the back end the
3 4	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit	3 4	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement.
3 4 5	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure.	3 4 5	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have
3 4 5 6	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay.	3 4 5 6	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize
3 4 5 6	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more	3 4 5 6 7	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not
3 4 5 6 7 8	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections	3 4 5 6 7 8	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments
3 4 5 6 7 8 9	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire	3 4 5 6 7 8 9	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's
3 4 5 6 7 8 9	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you.	3 4 5 6 7 8 9	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that
3 4 5 6 7 8 9 10	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann.	3 4 5 6 7 8 9 10	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities
3 4 5 6 7 8 9 10 11 12	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your	3 4 5 6 7 8 9 10 11 12	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that.
3 4 5 6 7 8 9 10 11 12 13	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential	3 4 5 6 7 8 9 10 11 12 13	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because
3 4 5 6 7 8 9 10 11 12 13	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in	3 4 5 6 7 8 9 10 11 12 13	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those
3 4 5 6 7 8 9 10 11 12 13 14 15	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly,	3 4 5 6 7 8 9 10 11 12 13 14 15	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling
3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a	3 4 5 6 7 8 9 10 11 12 13 14 15 16	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of
3 4 5 6 7 8 9 10 11 12 13 14 15 16	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a	3 4 5 6 7 8 9 10 11 12 13 14 15 16	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a residence closer. These appear to be much closer.	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little bit larger backyard.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a residence closer. These appear to be much closer. As you've researched pipelines in general, how	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little bit larger backyard. COMMISSIONER CHRISTMANN: And then my other
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a residence closer. These appear to be much closer. As you've researched pipelines in general, how close do residential neighborhoods spring up how	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little bit larger backyard. COMMISSIONER CHRISTMANN: And then my other question involves agricultural land and specifically
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	group in terms of CO2 pipelines; correct? A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a residence closer. These appear to be much closer. As you've researched pipelines in general, how close do residential neighborhoods spring up how close do they usually put the homes to a pipeline?	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little bit larger backyard. COMMISSIONER CHRISTMANN: And then my other question involves agricultural land and specifically tilled land. I could imagine if a pipeline was buried
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. I can't answer that. I'm not aware of Summit infrastructure. Q. Okay. MR. JORDE: I don't think I have any more questions. I would just renew all the objections previously of foundation and relevance to this entire testimony. Thank you. ALJ HOGAN: Commissioner Christmann. COMMISSIONER CHRISTMANN: In your in your testimony you had some pictures of residential neighborhoods with the pipeline warning signs. So in North Dakota, not based on anything that we do randomly, but North Dakota code, with very limited exceptions, a pipeline would have to stay back 500 feet from a residence that exists, but then you could build a residence closer. These appear to be much closer. As you've researched pipelines in general, how close do residential neighborhoods spring up how close do they usually put the homes to a pipeline? THE WITNESS: So so in North Dakota, some	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	it, they'll have access roads and the back end the rear yards butt up to the to the pipeline easement. So the houses are closer to the roads and then they have a larger backyard. So they're always able to utilize that space. And sometimes they're some and not necessarily Bismarck, but I've seen other developments where they have some park corridors so there's there's bike trails and and, you know, pet areas that are also part of a development plan, and some cities require that. So those areas are are seldom lost because they're always utilized. So those so those residential lots with that are encumbered are selling for the same prices as lots that aren't because of they're the same size. There's utility there because they can put a house on it, but they just have a little bit larger backyard. COMMISSIONER CHRISTMANN: And then my other question involves agricultural land and specifically tilled land. I could imagine if a pipeline was buried too close to the surface, and let's say if it was an

	TID I ODLIO OLITO		
1	certainly none. Somewhere in between there is something	1	SUBSTITUTE DECISIONMAKER DAWSON: No questions,
2	more logical.	2	Your Honor.
3	So do you know what state requirements are in	3	ALJ HOGAN: Any redirect, Mr. Mahlberg?
4	the states that you work? Is North Dakota in most	4	MR. MAHLBERG: Briefly, Your Honor.
5	cases pipelines need to be down to the top of the	5	REDIRECT EXAMINATION
6	pipeline. Is that kind of a norm in states? Are some	6	BY MR. MAHLBERG:
7	of these other states you work on burying them	7	Q. Mr. Olson, Mr. Bakke was asking you some
8	significantly deeper or shallower than what we do?	8	questions about the paired sales analyses that you had
9	THE WITNESS: Wisconsin is a little bit deeper.	9	done didn't relate to CO2 pipelines specifically. Do
10	Typically there I see five five or six feet.	10	you recall that?
11	Michigan is about the same. It's about four or five	11	A. Yes.
12	feet. Most from what I've seen designs anyway in	12	Q. They relate to refined products pipelines or
13	North Dakota, most pipelines, I think, are about four,	13	natural gas transmission lines. Is that is that
14	four-plus feet. So not that much different.	14	right?
15	COMMISSIONER CHRISTMANN: Okay. No other	15	A. Correct.
16	questions. Thank you, Your Honor.	16	Q. Why do you use those natural gas pipeline
17	ALJ HOGAN: Commissioner Haugen-Hoffart.	17	easements, why do you use those refined products
18	COMMISSIONER HAUGEN-HOFFART: Thank you.	18	pipeline easements when you're doing a paired sales
19	You talked about your independent research. And	19	analysis for a CO2 pipeline easement?
20	in your independent research, do you have, in your	20	A. That's a good question. The first answer is
21	database, the 5,000 pipeline CO2 pipelines in the	21	there's I don't have a whole lot of data on pipeline
22	U.S.?	22	CO2 pipeline-encumbered properties. But I I do
23	THE WITNESS: No, I do not.	23	this kind of work on gas pipelines, transmission lines,
24	COMMISSIONER HAUGEN-HOFFART: Okay. Looking at	24	all sorts of easements.
25	Exhibit B on the ag sales, I know you looked at three	25	And a lot of these projects are are highly
	PAGE 49		PAGE 51
1	pipelines, but we have about 300 30,000 miles of	1	scrutinized by the public. People are are against
2	pipeline in North Dakota. So I was kind of curious when	2	them and they're they're they're cautious and they
3	I went through that why some of the other counties were	3	feel like there's going to be significant impacts to
4	not evaluated.	4	their land values. So I do a lot of different types of
5	THE WITNESS: Well, they are, but for this	5	paired sales analysis and I think this is the closest
6	testimony I tried to stick to you know, closer to the	6	at this point anyway, until I start doing actual
7	eastern eastern part as much as possible. So I do a	7	appraisal work, if I do. At this point, these paired
8	lot of work in Dunn County and McKenzie County. And a	8	sales analysis are are mirroring what's going on
9	lot of properties because we're kind of out of the	9	right now.
10	Bakken over here, right. You get west of here, you're	10	Dakota Access Pipeline, a lot of a lot of
11	in the Bakken. There's pipelines on many, many	11	public interest in that. People were saying the same
12	properties. So I've got analysis that I've done, you	12	thing back in 2015 and 2016 about how their property
13	know, in the west and northwest part of North Dakota.	13	values are going to diminish and they didn't want it,
14	These are Dakota Access was a highly publicized	14	but now that we're seeing data, the the impact on
15	pipeline.	15	value is minimal. And I think it's a it's a it's
16	COMMISSIONER HAUGEN-HOFFART: And I get that.	16	the same scenario as what we're working into on Summit
17	So when I'm looking at agricultural land values and	17	Carbon.
18	listening to the landowners, we just came off of a	18	Q. But does the fact that concerns are stated, that
19	hearing and listening to Sargent and Richland County	19 20	landowners have those concerns, those valid concerns,
20	where there's a lot of drain tile and the concerns there		that that sentiment is publicized, how is that
21	with the drain tile and all that. So I was just curious	21	reflecting in the data that you find after the projects
22	why all the counties in which this pipeline crossed	22	are built?
23 24	wasn't in your Exhibit B.	24	A. Right. So after the projects are are built,
25	So I have no further questions. ALJ HOGAN: Mr. Dawson.	25	most of these these companies, whether it's, you
23	AL) HOGAN: Mr. Dawson. PAGE 50	20	know, Continental Resources I do a lot of work on PAGE 52
1	PAGE 50	1	PAGE 52

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

some of their cases. And after the public sees how Iowa, the data that you do have about CO2 pipelines is 2 they're being treated by these companies and they 2 consistent with the data that you have about other types 3 understand, you know, what -- what the purpose is and 3 of pipelines; is that right? 4 what is actually being built, the public perception of 4 A. Correct. 5 the investors is what I have to try and analyze and 5 MR. MAHLBERG: I don't have anything else. 6 measure. And the investors are -- are -- are, by the 6 Thank you. 7 7 evidence, are showing that very little impact, if any, ALJ HOGAN: Mr. Pelham, any additional 8 is being accounted for as a result of these pipelines. 8 questions? 9 Q. Mr. Bakke asked you whether any of the analysis 9 MR. PELHAM: I don't. Thank you. 10 that's in your report related to rural residential 10 ALJ HOGAN: Mr. Schock. 11 11 properties, that beyond city limits and within Burleigh Mr Bakke MR. BAKKE: Just briefly, Your Honor. 12 County's jurisdiction. Do you recall that? 12 13 A. Yes. 13 RECROSS EXAMINATION 14 Q. Do you have data that would support a conclusion 14 BY MR. BAKKE: 15 15 that market participants in Burleigh County, not within Q. You were just asked why you used natural gas 16 the city of Bismarck, are going to behave differently 16 pipelines and that information. The reason you did is 17 than other market participants? 17 because there is no information available on how CO2 18 A. No. 18 pipelines affect residential values; correct? 19 19 Q. And how would you expect that those market A. Correct. 20 20 participants for more rural residential properties would Q. Okay. And to draw an analogy, someone buying a 21 21 home or thinking about developing homes may have a total 22 22 different line of thought on how their sales are going MR. JORDE: Foundation, speculation. 23 23 MR. BAKKE: Join. to be impacted if they're building next to a nuclear ALJ HOGAN: The objection is noted. 24 24 plant versus a solar wind farm; correct? 25 25 You can answer. A. It's likely, yes. PAGE 53 PAGE 55 1 1 A. So there's -- there's a lot of publications and Q. Okay. And it all boils down to the safety 2 peer-reviewed studies on transmission line easements, 2 concerns and the health risks posed by that particular 3 and I think -- and how they impact small lots, 3 thing that you're going to be developing or building 4 residential lots, versus larger rural residential lots. next to; correct? 5 And I -- I see the same -- same -- for gas pipelines, I 5 A. Correct. 6 6 see the same kind of impacts. There's a lot of factors that go into 7 So if you've got a one-acre residential lot and 7 competition and substitution, right. So, you know, if 8 you have a pipeline going across one end of it and you 8 there's a new residential development going -- with a 9 still have maybe some utility to build a house or 9 CO2 pipeline going across it and it's in a very 10 residence, the impact -- as long as they can use it and 10 favorable neighborhood, you've got competition, right. 11 have the same utility as a lot that's unencumbered, the 11 So it -- it's hard to say right now at this point how 12 12 the values of those residential lots will be impacted. impact on value is very minimal. 13 But as the property -- as the acreage increases, 13 Q. Right. Because of the significant concerns by 14 14 the impact decreases because you've got -- if you've got the public over safety and health issues due to exposure 15 a 10-acre lot and the pipeline cuts through the middle 15 to a CO2 pipeline and the fact that we've seen a number 16 of it, you still have five acres that you can put a 16 of CO2 pipeline leaks as recently just -- just as of 17 house on on either side. So you're not really losing --17 March of 2024 in Louisiana; correct? 18 18 as the property size increases, the utility decreases A. Correct. 19 and the impact decreases. 19 Q. Okay. And you talked about the appraisal you're 20 Q. Okay. Mr. Jorde asked you if you would base 20 doing of the diversion land property in the Fargo area. 21 21 your opinion on one paired sale of a CO2 pipeline. Do Is your client who has hired you Cass County Joint Water 22 22 you recall that? Resource District? 23 A. Yes. 23 A. Correct. 24 Q. That -- that one paired sale that you did of a 24 Q. Okay. And you're aware that there's been very 25 CO2 pipeline and the sale that you talked about down in dramatic differences in values between what the

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

appraisers hired by the Cass County Joint Water Resource Q. Okay. And I believe Mr. Bakke was citing valuation opinions that were 300, 400 percent incorrect 2 District have come up with versus the landowner values; 2 3 3 or low; is that right? correct? 4 A. Yes. 4 A. I don't -- I guess I don't know -- I'm not sure 5 Q. Okay. And in that situation, the valuation 5 what your -- what your question is. 6 6 difference has often been because the CCJWRD appraisers Q. Well, didn't he say Cass County was paying 300 7 7 -- three times, four times what the appraised values are appraising the value of land as agricultural land 8 8 and the landowners are valuing the land based on 9 9 development land values in many instances; correct? A. Right. But that doesn't mean that the appraised 10 A. In many instances, yes, they are inappropriately 10 values were three times low. I guess I'm not sure what 11 11 valuing these properties as development property. you mean by that. Q. Well, aren't you -- when you do an appraisal, 12 12 **Q.** Well, the proof is in the pudding because in 13 13 you're trying to find the market value; right? many of those situations Cass County Joint Water 14 Resource District has been paying 100 percent higher, 14 A. Correct. 15 200 percent higher, 300, 400 percent higher than the 15 Q. Okay. And so the market values in those 16 appraisal values by the Cass County Joint Water Resource 16 instances were three, four times off; correct? 17 17 A. No. I don't think they're three or four times District appraisers; correct? 18 A. That, I don't --18 off. I think the acquisition is much higher than what 19 MR. MAHLBERG: Your Honor, I'll object as to the 19 the appraised values are. 20 20 relevance. We're now getting into details about Q. Okay. And when a willing buyer and a willing 21 21 settlements of purchases based on appraisals of a seller get together, is that known as the market price? 22 22 different project. A. Typically, yes. 23 23 MR. BAKKE: I'm just responding to the same **Q.** All right. And you said that after the public 24 thing that Mr. Mahlberg just discussed, and that is 24 understands, there is little impact to be accounted for. 25 25 values based on using a natural gas versus CO2 pipeline. And is that your way of saying that after three years PAGE 57 PAGE 59 1 Q. (BY MR. BAKKE) My only point is there can be 1 and how publicized this was, if the darn public wouldn't 2 dramatic differences based on what is considered by the 2 just understand everything is going to be fine, they 3 appraiser as to what will affect that value and how it 3 wouldn't have these concerns? 4 affects it. Can we agree on that? A. No. I -- I don't agree with -- no, I -- that's 5 A. Well, an appraisal is an opinion of value, 5 not what my testimony is. I -- the public is going to 6 correct. have a perception of these projects regardless of -- of 7 Q. Okay. 7 my paired sales of -- about any testimony. The public 8 MR. BAKKE: I have no further questions. 8 9 9 ALJ HOGAN: Mr. Jorde, any other questions? What I'm trying to determine is -- and I agree, 10 MR. JORDE: Yes. 10 some of those buyers and some of those investors will 11 RECROSS EXAMINATION 11 likely walk away and not look at these properties. 12 12 BY MR. JORDE: There's investors out there that -- that are willing to 13 Q. Sir, your job when you're valuing -- valuating a 13 pay full market value for these properties regardless of 14 14 property for your corporate clients like a Summit is to the presence of a pipeline. 15 come up with low values; correct? 15 I don't -- I know that there's people that are 16 16 not going to want to buy these properties and that --17 Q. And, in fact, it's better for your client if the 17 that is, no doubt, going to happen. But what does 18 appraised values based on your work are lower because 18 happen, and what you see in the data, is that there's 19 then that allows them to potentially pay less or a jury 19 people, investors, willing to pay full market value. 20 awarding less in a condemnation proceeding; correct? 20 Q. And are you saying then that it was an investor 21 21 A. Well, I disagree with that. I think you heard that bought the one and only CO2 pipeline property that 22 22 you cite to? Was that an investor? some line of questioning on acquisition amounts are --23 23 A. It was a local agricultural buyer. are sometimes significantly different than appraised 24 values. So appraised values sometimes are not in 24 Q. Okay. relation to an acquisition value. 25 25 A. A local farmer. PAGE 60

DAN PICKERING: Hi. Daniel Ray Pickering. ALJ HOGAN: I'll just note that Mr. Pickering is appearing through video conference for his cross-examination this morning. Mr. Pickering, I am going to swear you in. Were you part of our conference this morning when I went	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	being represented then by Summit's counsel? Is that your understanding? A. I'm not being represented by anyone. Q. Okay. All right. How did Summit find you? A. So I've I've been aware of this particular project and have interacted with Summit in terms of several of the projects they're working on from a research perspective. I know a couple of the folks at Summit from prior work experience. And Mr. Harold Hamm, who's involved as an investor in the project, is also a relationship of mine. Q. And so you've worked with Mr. Hamm and his affiliated entities previously; correct? A. I have interacted with him. I have not been
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	(Recess) ALJ HOGAN: All right. My clock shows 10:15 so we are going to get started again. We are now going to move to cross-examination of witnesses that testified at our April 22nd hearing. So we're starting with Mr. Pickering. I'll have you state your full name for the record. DAN PICKERING: Hi. Daniel Ray Pickering. ALJ HOGAN: I'll just note that Mr. Pickering is appearing through video conference for his cross-examination this morning. Mr. Pickering, I am going to swear you in. Were you part of our conference this morning when I went through the penalties for perjury?	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	being represented then by Summit's counsel? Is that your understanding? A. I'm not being represented by anyone. Q. Okay. All right. How did Summit find you? A. So I've I've been aware of this particular project and have interacted with Summit in terms of several of the projects they're working on from a research perspective. I know a couple of the folks at Summit from prior work experience. And Mr. Harold Hamm, who's involved as an investor in the project, is also a relationship of mine. Q. And so you've worked with Mr. Hamm and his affiliated entities previously; correct? A. I have interacted with him. I have not been hired or received any compensation from Continental or
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	(Recess) ALJ HOGAN: All right. My clock shows 10:15 so we are going to get started again. We are now going to move to cross-examination of witnesses that testified at our April 22nd hearing. So we're starting with Mr. Pickering. I'll have you state your full name for the record. Ballpark, 20 million tons, yes. Q. Okay. And you're aware I believe you testified previously about the 45Q tax credits. And you're aware that those currently are paying out at a total of \$85 per metric ton; is that right? A. Correct. \$85 a ton is the number for sequestered CO2 Q. And A currently. Q. I'm sorry. And you're aware that current tax credit is available for a period of 12 years; correct?

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

1 Q. And I suppose you've run the math on 18 million Q. Okay. Now when you look at a project, you agree 2 metric tons by \$85 a metric ton by 12 years. Would you 2 it's important to look at what the net economic 3 agree with me that equals out to \$18.36 billion? benefits, if any, are, which would take into account all 4 A. I was looking for my calculator to punch in to costs of the project; correct? 5 see if I could agree or disagree so I don't know the 5 A. Yes. 6 exact number so I can't -- I can neither agree nor 6 Q. And would you agree with the Ernst & Young 7 7 author of the report that you cite to heavily, that the 8 8 18.36 billion is a cost to the project? Q. All right. If I represented to you I just did 9 it on my calculator and that's what came up, would you 9 A. Well, again, I guess I -- I disagree. And the reason I say I disagree is that the 45Q is -- is a 10 have a reason to disagree with that? 10 11 A. I -- if you punched the math out, I'll buy into 11 transfer from the government to the CO2 owners and, 12 it. 12 again, so this project benefits from those tax credits. 13 13 So I -- I would call it a benefit so I disagree with --Q. All right. And so in your analysis, you would 14 agree that the project -- that 18.36 billion is a 14 with that comment. 15 project cost and not a project benefit; correct? 15 Q. So when you pay your taxes, is that a cost to 16 A. The way I think about it is that is a benefit --16 you? Is that a net outflow of money to you? 17 17 it is a benefit to the -- to the CO2 owner and so the A. It -- absolutely. 18 government is paying that money. So it depends on net 18 Q. All right. And you're aware there's currently 19 -- it's a net zero. The government pays, the owners 19 six ethanol plants in North Dakota; is that right? 20 20 receive. If I'm an owner, it's certainly a benefit. A. I don't know the exact number of plants in North 21 21 **Q.** Well, certainly. And I get you're hired by the Dakota. I focused on a couple that are -- have CO2 22 company here, Summit, and not the taxpayers, but you 22 sequestration and the Tharaldson plant that's a part of 23 23 understand the concept of a tax credit. And if it's the this project. 24 government paying it, that's really, by extension, every 24 Q. And for -- I believe there's two that you looked 25 25 taxpayer in America paying it; correct? at that currently have sequestration. Do you know about PAGE 69 PAGE 71 1 A. Eventually -- eventually the taxpayers have to 1 what time those plants started sequestering carbon 2 pay. 2 dioxide? 3 3 A. I don't. I just know they're in -- in operation I do want to make one point relative to your -to your comment. I'm -- I have not been hired by today. 5 Summit. I'm not a Summit employee or contractor. And 5 Q. All right. And have you looked at the negative 6 so I'm -- I'm kind of here as an industry expert, not as 6 or impact either way upon the other North Dakota ethanol 7 7 someone hired by Summit. plants that don't currently have sequestration? 8 Q. Okay. Well, so who is paying you? Are you just 8 A. I have -- I have not done any analysis on either 9 doing this out of the goodness of your heart or is 9 benefits or negatives associated with those two plants. 10 someone -- someone paying you to do whatever you did, to 10 Q. Okay. Well -- and I -- my question was a little 11 prepare your report, to travel around? Who's 11 bit different. It could have been confusing. But I'm 12 12 reimbursing you for that? curious, sir, if you've done any analysis or have any 13 13 data to suggest that the other four existing CO2 -- or, A. Yeah, good questions. So the -- the -- the 14 14 purpose of my testimony is essentially -- I don't know pardon, ethanol plants in North Dakota had any type of 15 if it's the goodness of my heart, but my goal is to kind 15 negative economic downturn or lost profits from the 16 of learn and understand more about how projects like 16 moment in time the other two plants started sequestering 17 this move ahead. And so it's kind of -- call it a 17 CO2? 18 research component. 18 A. I haven't done -- I haven't done any work around 19 I was reimbursed by Summit for a trip to North 19 that topic. 20 Dakota to testify, but that's the extent of any payments 20 Q. And so you would agree it would be pure 21 that I've received. 21 speculation to say that the Tharaldson plant, if it 22 22 **Q.** And so for counsel in the room with you there, wasn't connected somehow to the proposed hazardous 23 you understand that Summit is -- Summit is paying him to 23 Summit pipeline, it would be speculation to say that 24 24 be there? they would have negative economic impacts? 25 A. That's correct. 25 A. Who's the "they" in your question? PAGE 70 PAGE 72

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	112 1 2 2 2 2 2 1 1 1		
1	Q. Tharaldson.	1	specifically if a single farmer selling to Tharaldson
2	A. Could you repeat it again for me, please?	2	would, in fact, receive higher payment on for their
3	Q. Well, yeah. I'm just trying to figure out if	3	corn, do you?
4	you how you get to a conclusion that Tharaldson is	4	A. I think that the earlier comment which is that
5	somehow going to be negatively impacted if the existing	5	the the overall Summit project has the potential to
6	two sequestering ethanol plants didn't have that same	6	result in higher corn prices. My experience with
7	impact on the others?	7	commodities is that very seldom do you have regional
8	A. I didn't I didn't come to any conclusion	8	price impacts. You tend to have more global price
9	about how those two plants impact Tharaldson.	9	impacts. And so I would expect that that if price
10	Q. All right. So you don't have any opinion that	10	goes up in Iowa, price would go up in North Dakota. But
11	you're providing the PSC on any competitive advantage	11	I do not have a specific conclusion about farmers
12	one way or another should Tharaldson not hook up to the	12	selling to Tharaldson and the price they would receive.
13	proposed Summit pipeline?	13	Q. Nor do you have a specific conclusion of any
14	A. I am not providing any testimony to that effect.	14	farmer selling to any Summit-contracted ethanol plant or
15	Correct.	15	the price they would receive; correct?
16	Q. You talk about higher corn prices as some type	16	A. That's fair.
17	of flow-through should the Tharaldson plant be	17	Q. Do you know how many corn farmers there are in
18	associated or hooked up to the Summit pipeline. Where	18	North Dakota?
19	specifically do you think those higher corn prices would	19	A. I don't.
20	be paid?	20	Q. Would you be willing to concede that there are
21	A. Yeah. So so a point of clarification would	21	more consumers of corn-based products or corn-derived
22	be that I view the project in general, not necessarily	22	products to North Dakota than there are corn farmers?
23	one specific ethanol plant, Tharaldson.	23	A. I assume almost everyone consumes corn products
24	I think that there's a potential I stress the	24	and so, by definition, there are more consumers than
25	word "potential" that the sequestration economics	25	farmers.
	PAGE 73		PAGE 75
1	have a positive impact, which, in turn, creates better	1	Q. And so if your speculation is correct that corn
2	economics for ethanol, which, in turn, creates better	2	prices go up, that would be a net negative to consumers,
3	demand for corn and, all else being equal, more demand,	3	wouldn't it?
4	same supply, equals better price.	4	A. I think what we'd have to figure out in that
5	And so the the comment about Tharaldson is	5	instance and this was similar to the tax question
6	really the corn price implication is really more	6	from the perspective of an individual's impact is likely
7	about the project in general, not any one specific	7	to be quite small. Just like a tax impact of 45Q
8	ethanol plant, essentially the whole project.	8	personally is going to be small to any individual
9	Q. Okay. And so let's just assume I agree with you	9	taxpayer, I assume that the impact of a CO2-influenced
10	on all those hypotheticals and assumptions. Do you	10	increase in corn prices would be a pretty small impact
11	think it's the North Dakota PSC's job to approve a	11	to an individual consumer.
12	project so that a farmer in southeast Iowa may get paid	12	Q. And that's work you haven't done; correct?
13	a little bit more for the corn they deliver to an Iowa	13	A. I have not specifically modeled that, correct.
14	ethanol plant?	14 15	That's just my opinion.
15 16	MR. GLUDT: Objection, Your Honor. That calls for speculation, legal conclusion.	16	Q. And would you agree that inflation is bad for
16 17		17	consumers?
	ALJ HOGAN: I'll note the objection. He can	18	A. I would agree with that. Q. All right. And inflation is rapidly increasing
18 19	A. I I would repeat the comment I made earlier,	19	. ,
20	which is that I don't know the specific mandate of the	20	prices or increasing on a basket of goods. Would you agree with that?
21	North Dakota PSC and so I can't really say if it's in	21	A. I think it's much "rapidly" is a qualitative
22	their purview or not.	22	term, but inflation has been high relative to previous
23	•	~~	- ·
	Q. So as to the currently only well we haven't	23	norms.
24	Q. So as to the currently only well, we haven't seen a contract, but we assume there's a contract with	23	O. And you would agree that we wouldn't want to
24 25	Q. So as to the currently only well, we haven't seen a contract, but we assume there's a contract with Tharaldson and Summit. You don't have any opinion	23 24 25	Q. And you would agree that we wouldn't want to contribute to that with higher commodity prices that

	ND PUBLIC SERV		E COMMISSION
1	would affect the consumers; correct?	1	A. I have not.
2	A. I think the definition of "we" is important	2	Q. Are you aware of the Ernst & Young, that report
3	there. Anyone who's in the business of of selling a	3	that you relied upon, the disclaimer that it has?
4	commodity wants higher prices for that commodity. And	4	A. I know it has one at the end.
5	so "we" is too broad a term to make a general	5	Q. Okay. And do you recollect what it the
6	conclusion, I think.	6	disclaimer says relative to third-party use of the
7	Q. Have you done any analysis on corn price	7	report?
8	increase relative to input increases such as seed,	8	A. I don't.
9	fertilizer, herbicide, pesticides, phosphorous, any of	9	Q. We've marked, sir, as Exhibit 40, 4-0, some
10	those things?	10	excerpts of that Ernst & Young 2022 report. It should
11	A. I haven't.	11	be four pages.
12	Q. All right. And so an increased price in corn	12	MR. JORDE: And I would ask my folks in the room
13	doesn't necessarily mean increased profits if the inputs	13	there to distribute that if it hasn't. If you have a
14	that a farmer needs are increasing faster than the price	14	binder, it would be Tab 40. And I guess this witness is
15	of corn; correct?	15	appearing remotely.
16	A. As you phrase the statement, if costs are going	16	Q. (BY MR. JORDE) Are you familiar with the Ernst
17	up faster than price, by definition profits would not be	17	& Young report? Do you have a copy of it there with
18	higher.	18	you, by any chance? Okay.
19	Q. Now your prior testimony heavily cites and	19	A. (Indiscernible).
20	relies upon an Ernst & Young and an EY April 2022	20	Q. Thank you.
21	report; correct?	21	Can you turn to the second page of that?
22	A. That's correct.	22	A. The limitations and restrictions?
23	Q. And, sir, I take it, by you citing that so	23	Q. Yes. On the second page, there's like a
24	heavily, that you're familiar with that report?	24	nice-looking corn field and sunset.
25	A. I am.	25	A. Uh-huh.
	PAGE 77		PAGE 79
1	Q. And have you read it?	1	Q. And then at the bottom it has limitations and
2	A. I have.	2	restrictions; is that right?
3	Q. All right. And did you prepare your prefiled	3	A. That's correct.
4	testimony or was that prepared by someone else and then	4	Q. And there's two paragraphs, sir, there. In the
5	you reviewed it?	5	second paragraph, the middle sentence starting with the
6	A. No. I prepared that testimony.	6	word "any," do you see that?
7	Q. And your testimony essentially re-states much of	7	A. Yes.
8	the information and data from the Ernst & Young report;	8	Q. Can you read that sentence, please?
9	correct?	9	A. "Any third parties reading the report should be
10	A. I I "restate," I think, is is probably	10	aware that the report is subject to limitations, and the
11	too strong a word. I definitely referenced the EY	11	scope of the report was not designed for use or reliance
12	report and some of the numbers included in there.	12	by third parties for investment purposes or any other
13	Just as an FYI, kind of the other things that I	13	purpose."
14	looked at in preparing my testimony, one is sort of my	14	Q. All right.
15	experience with commodity projects, but I looked at Iowa	15	A. "We assume no duty, obligation, or
16	Corn Growers report, I looked at the US EPA statistics,	16	responsibility whatsoever to any third parties that may
17	the USDA has some information that I reviewed.	17	obtain access to the report."
18	Bloomberg has a lot of information around pipelines,	18	Q. Okay. And that's a disclaimer that is telling
19	etcetera. Congressional Research Service has a lot of	19	the North Dakota PSC as a third party that the authors
20	data, government data.	20	that you rely upon do not intend that the North Dakota
21	And so EY the EY report was certainly a key	21	PSC should rely on this for any purpose; correct?
22	piece of research that I reviewed, but there was other	22	A. I I don't know if that is a correct
23	research as well.	23	interpretation or not.
24	Q. And have you ever talked to any of the authors	24	Q. All right. Well, you read the words correctly
25	of that report or Mr. Phillips, Andrew Phillips?	25	and it says that it's not intended or designed for
	PAGE 78		PAGE 80

	ND 1 ODLIO OLIV		
1	reliance by third parties for any purpose; right?	1	any facts or testimony you can provide to suggest that
2	A. Correct.	2	Summit will have the needed amount of capital to fund
3	Q. Okay.	3	this project, do you?
4	MR. JORDE: I would offer Exhibit 40, which	4	A. No facts, only opinion.
5	should be four pages including the page that	5	Q. Got it. Sir, I don't have anything further for
6	Mr. Pickering just looked at.	6	you.
7	ALJ HOGAN: Any objection to 40 on behalf of the	7	MR. JORDE: For the record, Your Honor, I would
8	Applicant?	8	note we do have a motion on file to strike the entirety
9	MR. GLUDT: We'll object on foundation, but just	9	of Mr. Pickering's written and prior testimony. I
10	to note the paper copies of Exhibit 40 that we received	10	conducted this cross-examination subject to that
11	only have three pages in our binder.	11	objection and just wanted to make that known for the
12	ALJ HOGAN: I think it's in the front cover.	12	record. Thank you.
13	MR. GLUDT: Okay. Same objection.	13	ALJ HOGAN: Mr. Bakke, any questions?
14	ALJ HOGAN: Mr. Pelham.	14	MR. BAKKE: Yes, Your Honor.
15	MR. PELHAM: No objection.	15	CROSS EXAMINATION
16	ALJ HOGAN: Mr. Bakke.	16	BY MR. BAKKE:
17	MR. BAKKE: No objection.	17	Q. Mr. Pickering, have you ever lived or worked in
18	ALJ HOGAN: The objection is noted, but I will	18	North Dakota?
19	admit or receive landowner No. 40.	19	A. I haven't.
20	Q. (BY MR. JORDE) Now, sir, are any of your	20	Q. Okay.
21	projections contingent upon the CO2 that would be	21	ALJ HOGAN: Mr. Bakke, can you pull the
22	transported in the Summit pipeline eventually one day	22	microphone a little bit closer?
23	being used for enhanced oil recovery?	23	MR. BAKKE: Sure. Is that better?
24	A. No.	24	ALJ HOGAN: It's a little hard to hear you over
25	Q. Are you aware of a recent capital call by Summit	25	here.
	PAGE 81		PAGE 83
1	trying to raise money to fund ongoing operations?	1	MR. BAKKE: Okay. Sorry about that. Is that
1 2	trying to raise money to fund ongoing operations? MR. GLUDT: Objection, Your Honor. It's outside	1 2	MR. BAKKE: Okay. Sorry about that. Is that better?
			· · · · · · · · · · · · · · · · · · ·
2	MR. GLUDT: Objection, Your Honor. It's outside	2	better?
2	MR. GLUDT: Objection, Your Honor. It's outside the scope of his direct.	2	better? ALJ HOGAN: Yep.
2 3 4	MR. GLUDT: Objection, Your Honor. It's outside the scope of his direct. MR. JORDE: Well, it's not because there were	2 3 4	better? ALJ HOGAN: Yep. MR. BAKKE: Okay.

I am not aware of that. Q. All right. Are you aware of Summit changing its land acquisition strategy from paying all of the negotiated price for an easement upfront to paying 20 percent upfront? A. Not those specific terms. I have heard that there was that there was a (indiscernible) deferment of some payments in an effort to align my understanding was in an effort to align the landowners and Summit, but I don't know the specifics of those.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ALJ HOGAN: Yep. MR. BAKKE: Okay. Q. (BY MR. BAKKE) And as I understand your prior testimony on April 22nd, you testified there is a potential to at least support, if not enhance, the price of corn which would then flow through to farmers here in the state of North Dakota; is that correct? A. That's correct. Q. Okay. And the key word there, as you pointed out already, is "potential." You're not saying that's going to happen. You're saying simply there's a potential? A. That's correct. Q. Okay. So there's three things that would have to happen. First of all, the Summit pipeline to have to enhance the price of corn; correct? A. I want to hear all three before I say correct to the first one. Q. Okay. Well, it would have to enhance the price of corn, and then there would have to be some type of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. GLUDT: Objection, Your Honor. It's outside the scope of his direct. MR. JORDE: Well, it's not because there were specifically concerns about access to capital and he got into why he didn't think capital would be a problem. ALJ HOGAN: The objection is noted. I'll let him answer. A. I'm not aware of a capital call. Q. (BY MR. JORDE) All right. Are you aware of Summit laying off contractors or employees in the last several months? A. I am not aware of that. Q. All right. Are you aware of Summit changing its land acquisition strategy from paying all of the negotiated price for an easement upfront to paying 20 percent upfront? A. Not those specific terms. I have heard that there was that there was a (indiscernible) deferment of some payments in an effort to align my understanding was in an effort to align the landowners and Summit, but I don't know the specifics of those. Q. So then in terms of access to capital for Summit	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ALJ HOGAN: Yep. MR. BAKKE: Okay. Q. (BY MR. BAKKE) And as I understand your prior testimony on April 22nd, you testified there is a potential to at least support, if not enhance, the price of corn which would then flow through to farmers here in the state of North Dakota; is that correct? A. That's correct. Q. Okay. And the key word there, as you pointed out already, is "potential." You're not saying that's going to happen. You're saying simply there's a potential? A. That's correct. Q. Okay. So there's three things that would have to happen. First of all, the Summit pipeline to have to enhance the price of corn; correct? A. I want to hear all three before I say correct to the first one. Q. Okay. Well, it would have to enhance the price of corn, and then there would have to be some type of corresponding increase in the price of corn, and then

	ND PUBLIC SERV		
1	all that?	1	Q. Okay. And sometimes those that don't have the
2	A. I would. I do agree.	2	competitive advantage of carbon capture and storage can
3	Q. So you've got to have three different steps	3	face economic penalties and loss of market share;
4	happen that are all hypothetical, all three steps of the	4	correct?
5	way, before what you're saying is a possibility could	5	A. I don't know about economic penalties. And
6	occur; correct?	6	there's a potential for loss of market share, but it's
7	A. Correct.	7	not a given.
8	Q. Okay. Are you saying that the citizens of North	8	Q. Okay. And do you agree low-carbon ethanol
9	Dakota should give up on health and safety concerns for	9	producers can increase their margins and diversify their
10	the sake of a three-part hypothetical that somehow the	10	product portfolio which can help them mitigate the
11	price of corn might increase if the Summit pipeline were	11	impact of volatile commodity prices and reduce their
12	built here?	12	exposure to market risk by using carbon capture and
13	A. I'm not making any comment on any health and	13	storage?
14	safety as it relates to the citizens of North Dakota.	14	A. I agree with that statement.
15	Q. Okay. Let's talk about carbon capture and	15	Q. Do you agree that the ethanol plants that use
16	carbon storage. Are you familiar with carbon intensity	16	carbon capture and storage can reduce their carbon
17	indexes?	17	footprint and improve their company's scorecard with
18	A. I am.	18	respect to ESG, environmental, stewardship, and
19	Q. Okay. And are there competitive advantages to	19	governance?
20	ethanol plants that have a positive CI index score?	20	A. ESG, as I define it, is environmental, social,
21	A. My understanding of carbon intensity scores,	21	and governance. But, yes, I believe I agree with the
22	lower is better and so higher is worse.	22	statement that that you said as it respect as it
23	Q. Okay. And so I want to go through some things	23	relates to ESG scores.
24	that and see if you agree whether all of the	24	Q. Okay. And so in order to analyze whether
25	following are competitive advantages that ethanol plants	25	there's any economic benefit or other benefit to ethanol
	PAGE 85		PAGE 87
1	have that are involved in carbon capture and storage.	1	producers in North Dakota, those competitive advantages
2	Do you agree those plants that have carbon	2	need to be considered; correct?
3	capture and storage have the competitive advantage in	3	A. Correct.
4	the respect they can position themselves as leaders in	4	Q. Okay. And so you were asked some questions
5	the biofuel industry, attracting new customers and	5	about North Dakota ethanol plants. Can you tell me the
6	investors who are seeking environmentally-friendly	6	names and the locations of the currently operating North
7	alternatives and thereby gain a competitive advantage?	7	Dakota ethanol plants?
8	Do you agree with that?	8	A. I don't know the names of the two operating
9	A. I agree with that.	9	plants. And I know they're in the northern part of the
10	Q. Okay. And do you agree that ethanol plants that	10	state. Those are the things that I know.
11	can engage in carbon capture and storage can	11	Q. Well, and I think you previously testified there
12	producers that don't have that competitive advantage	12	were five. Aren't there, in fact, six currently
13	can't achieve the same carbon reduction as those that	13	operating ethanol plants in North Dakota?
14	can use carbon capture and storage?	14	A. I don't think I testified to the number. The
15	A. There, I'm not sure. And the reason I say that	15	number was stated and I responded to the question.
16	is carbon capture and storage is one way of dealing with	16	Q. Okay. Well, let's go through them. Blue Flint
17	CO2. It could be dealt with in other ways. And so I	17	Ethanol, are you familiar with that?
18	I believe that CCUS offers many times the most	18	A. Only the name, not nothing keep going.
19	cost-advantaged way to deal with carbon, assuming you	19	Q. Okay. Dakota Spirit?
20	don't want to just vent it to the atmosphere.	20	A. Familiar with the name.
21	Q. Okay. But you do agree that that one of the	21	Q. Where's that located?
22	ways that carbon capture and storage can disadvantage	22	A. I'm I'm not sure.
23	someone else, another ethanol plant, is if they don't	23	Q. Okay.
24	have that same competitive advantage?	24	A. I couldn't give you an exact physical location.
25	A. Correct.	25	Q. Guardian Energy?
	PAGE 86		PAGE 88

	ND PUBLIC SERV		
1	A. Not familiar.	1	pipeline will pay nothing to do that. Do you disagree
2	Q. Okay. Red Trail Energy?	2	with that?
3	A. Not familiar.	3	A. Please please repeat that.
4	Q. Okay. Red River Biorefinery?	4	Q. Yeah. There's been testimony in this case that
5	A. Not familiar.	5	the ethanol plants, including these 56 plants from
6	Q. Okay. And Tharaldson Ethanol?	6	outside the state of North Dakota, will be able to dump
7	A. Familiar.	7	their carbon into the Summit pipeline at no cost to
8	Q. Okay. And so are there some North Dakota	8	them, they don't pay anything to put it in the pipeline.
9	ethanol plants that already have a competitive advantage	9	MR. GLUDT: Objection, Your Honor. I think
10	for the reasons we've discussed already that are located	10	that's a mischaracterization of the evidence. I don't
11	in North Dakota?	11	believe we've had anybody say that there are that
12	A. Yeah. The two plants in existence the two	12	Summit or allege that Summit is taking CO2 for free
13	CCUS plants would have the qualitative benefits that you	13	from any customer. And, in fact, we've made specific
14	discussed. I don't believe they would have received the	14	points not to discuss the terms of those contracts.
15	45Q and so I don't know about the economic benefits, but	15	ALJ HOGAN: Mr. Bakke, can you expand on the
16	the qualitative benefits they would be receiving.	16	basis for that question?
17	Q. Okay. So we've already got two existing ethanol	17	MR. BAKKE: Well, there has been previous
18	plants, Red Trail Energy and Blue Flint, in North Dakota	18	testimony in that regard. But I can rephrase it a
19	that you understand use their own carbon capture and	19	different way.
20	storage; correct?	20	Q. (BY MR. BAKKE) Is it your understanding,
21	A. Yeah. I'm I'm I'm not sure which of	21	Mr. Pickering, that the 56 ethanol plants will be able
22	the two are are actively involved in CCUS. I can	22	to input their carbon into the Summit pipeline for free?
23	look back through my notes but so I don't want to	23	A. It is not my understanding that that's the case.
24	I don't want to agree or disagree to tag the specific	24	Q. Okay. So what are they going to pay?
25	plants with a specific action.	25	MR. GLUDT: Objection, Your Honor. Now we're
	PAGE 89		PAGE 91
1	Q. Well, that's what their literature indicates,	1	getting into the terms of these contracts.
2	that they both have carbon capture and storage that they	2	MR. BAKKE: I'm not asking for the dollar
3	use. It's been it's been in use for some time for	3	amount. What are they going to pay for? Is it so much
4	each of those plants. Do you disagree?	4	a pound?
5	A. What I'm saying is is I'm not I'm not	5	MR. GLUDT: Whether or not they pay or not is a
6	familiar with which two plants have the specific carbon	6	term of the contract.
7	capture. So if you're telling me it's those two, that	17	
8		_	MR. BAKKE: It's a government contract. It's a
	those are the names of plants I just looked at	8	government subsidy. There's nothing
9	capacity	8 9	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It
10	capacity Q. Okay.	8 9 10	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities.
10 11	capacity Q. Okay. A then I'll agree with you.	8 9 10 11	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about?
10 11 12	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants	8 9 10 11 12	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in
10 11 12 13	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages	8 9 10 11 12 13	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon
10 11 12 13 14	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is	8 9 10 11 12 13 14	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline.
10 11 12 13 14 15	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into	8 9 10 11 12 13 14 15	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit?
10 11 12 13 14 15 16	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct?	8 9 10 11 12 13 14 15 16	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract?
10 11 12 13 14 15 16	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I	8 9 10 11 12 13 14 15 16	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract? MR. BAKKE: Because Summit's getting reimbursed
10 11 12 13 14 15 16 17	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I can agree or disagree with the statement. The reason I	8 9 10 11 12 13 14 15 16 17	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract? MR. BAKKE: Because Summit's getting reimbursed by the government and, by their very nature, they're
10 11 12 13 14 15 16 17 18 19	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I can agree or disagree with the statement. The reason I say that is economic advantages imply an understanding	8 9 10 11 12 13 14 15 16 17 18	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract? MR. BAKKE: Because Summit's getting reimbursed by the government and, by their very nature, they're going to have to disclose to the government what those
10 11 12 13 14 15 16 17 18 19 20	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I can agree or disagree with the statement. The reason I say that is economic advantages imply an understanding of the profit and loss and of the specific plants	8 9 10 11 12 13 14 15 16 17 18 19 20	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract? MR. BAKKE: Because Summit's getting reimbursed by the government and, by their very nature, they're going to have to disclose to the government what those terms are. The government is not going to pay them
10 11 12 13 14 15 16 17 18 19 20 21	capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I can agree or disagree with the statement. The reason I say that is economic advantages imply an understanding of the profit and loss and of the specific plants relative to other plants. And I just don't think we	8 9 10 11 12 13 14 15 16 17 18 19 20 21	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. ALJ HOGAN: Which contract are you asking about? MR. BAKKE: I'm asking about any agreement in relation to the transportation costs for the carbon going in the pipeline. ALJ HOGAN: From the ethanol plant to Summit? How is that not a private contract? MR. BAKKE: Because Summit's getting reimbursed by the government and, by their very nature, they're going to have to disclose to the government what those terms are. The government is not going to pay them unless they know the quantities and all of those things.
10 11 12 13 14 15 16 17 18 19 20 21 22	Capacity Q. Okay. A then I'll agree with you. Q. Okay. So currently there are two ethanol plants in North Dakota who have these competitive advantages over these 56 other out-of-state plants that Summit is proposing to give the advantage of putting carbon into the pipeline at no cost to them; correct? A. Well, I don't I don't know that I can I can agree or disagree with the statement. The reason I say that is economic advantages imply an understanding of the profit and loss and of the specific plants relative to other plants. And I just don't think we have that information. And so I I can neither agree	8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	government subsidy. There's nothing MR. GLUDT: It is not a government contract. It is a contract between two private entities. The government is not going to pay them unless they know the quantities and all of those things. Q. (BY MR. BAKKE) But let me approach it a different way. And the attorney for Summit just made a

	ND 1 ODLIO OLIV		
1	correct?	1	ethanol plants in North Dakota, and we just named them a
2	MR. GLUDT: Same objection, Your Honor.	2	few minutes ago, that it's your understanding will not
3	ALJ HOGAN: The objection is noted. I'll allow	3	be contributing their carbon into the Summit pipeline;
4	him to answer this question, if he knows.	4	correct?
5	A. I I don't know the nature of the contract	5	A. I don't know I take that back. My
6	between the ethanol plants and Summit.	6	understanding is Tharaldson is the only North Dakota
7	Q. (BY MR. BAKKE) Okay. So assuming counsel for	7	ethanol plant contributing to the Summit project so, by
8	Summit is correct, that the money goes to Summit, that	8	definition, the other two at this point in time, based
9	doesn't provide any benefit to the citizens of North	9	on what I know, are not.
10	Dakota, does it?	10	Q. Okay. Well, there's actually three. Red River
11	A. That's a question for me, sir?	11	Bio
12	Q. It is.	12	A. Yeah, the other three. Yes, sir.
13	A. Yeah. So, again, not knowing the specifics of	13	Q. Red River Biorefinery, Guardian Energy, and
14	the contract, it's it's hard to answer where the	14	Dakota Spirit.
15	money goes relative to Summit or the citizens of North	15	So they're going to be in the event this
16	Dakota.	16	pipeline is approved, those three ethanol plants in
17	Q. Well, I thought, in response to Mr. Jorde's	17	North Dakota that will not be inputting carbon into the
18	question earlier today, you indicated this \$18 billion	18	Summit pipeline, they're going to be economically
19	came from the government and would go to the investors	19	disadvantaged; correct?
20	in the Summit pipeline. Is that not accurate?	20	A. They won't be receiving the same benefits that
21	A. What I said was the 45Q would go to the owners	21	other projects with carbon capture have, specifically
22	of the CO2 that's being injected. And so it's going	22	the qualitative benefits, and then hard to know the
23	it's going into the system or into the project, and then	23	quantitative impact.
24	I would assume some of that is is retained by Summit,	24	Q. Well, except for the numerous competitive
25	some of that goes to landowners, some of that is going	25	advantages that you agreed upon earlier in your
	PAGE 93		PAGE 95
1	to go to vendors. So it's I think it is incorrect to	1	testimony a few moments ago, those three existing
2	assume that it all goes to Summit.	2	
2	assume that it all goes to Summit.	2	ethanol plants in North Dakota won't have any of those
	assume that it all goes to Summit. Q. Okay. So then back to the two ethanol producers		ethanol plants in North Dakota won't have any of those competitive advantages, economic or otherwise; correct?
3	assume that it all goes to Summit. Q. Okay. So then back to the two ethanol producers in North Dakota who already have those competitive	3	ethanol plants in North Dakota won't have any of those
3 4	assume that it all goes to Summit. Q. Okay. So then back to the two ethanol producers	3 4	ethanol plants in North Dakota won't have any of those competitive advantages, economic or otherwise; correct? A. They will not have those qualitative benefits, that's correct.
3 4 5	assume that it all goes to Summit. Q. Okay. So then back to the two ethanol producers in North Dakota who already have those competitive advantages by carbon capture and storage, you agree that	3 4 5	ethanol plants in North Dakota won't have any of those competitive advantages, economic or otherwise; correct? 3 THE WITHESS: Fabilious: 4 UNIDENTIFIED SPEAKER: I see both him and Mark Glacomected, but Fredrikson & Byron are there so I See believe the problem is on their end. See believe the problem is on their end. See see but perhaps a suggestion. I see Mr. Boeshans is here. Does it make sense to stop my examination ~ I save the perhaps a suggestion. I see Mr. Boeshans is here. Does it make sense to stop my examination ~ I save the perhaps a suggestion. I see Mr. Boeshans is here. Does it make sense to stop my examination ~ I save the save than of paints in North Dakota will not have the save than of paints in Nor		I think we'll have to wait a few minutes for him		refreshed and then we'll have you repeat your answer,
UNIDENTIFIED SPEAKER: I see both him and Mark Green Content of the believe the problem is on their end. So were midstream through an answer when we lost you, were midstream through an answer when we lost you, were midstream through an answer when we lost you, were midstream through an answer when we lost you, were midstream through an answer when we lost you, were midstream through an answer when we lost you, but I'll make an sense but perhaps a suggestion. I see Mr. Boesnins is here. Does it make sense to stop my examination I So my question was that five out of the six ethical, but if we carrie yet him back and they to you were midstream through an answer when we lost you, but I'll make and the properties of them to try to prethaps a suggestion. I see Mr. Boesnins is here. Does it make sense to stop my examination I So my question was that five out of the six ethical, but if we carrie yet in the sense to stop my examination I So my question was that five out of the six ethical plants in North Dacka will will not be accessing agreement; correct? A. Yesh. So I think what I was trying to describe with I was interrupted was I I agree that that it hose five putting their carbon into the summit players of them to try to econnect. I shall be before we make adjustments. A. Jeh. So I think what I was trying to describe with I was interrupted was I I agree that that it hose five putting their carbon into the summit players of them to try to econnect. I shall benefit from is this it them to the vision and the putting their carbon into the summit players on contact with them; if they're trying to reconnect. I was advantage associated with the project that all ethianol plants; in North Dacka will be read advantage associated with the project that all ethianol plants; on making contact with them; if they're trying to reconnect. I was advantage associated with the project that all ethianol plants; on making contact with them; if they're trying to reconnect. I was advantage associated w		to reconnect.		Mr. Pickering.
disconnected, but Fredrikson & Byron are there so I believe the problem is on their end. NR BAKKE: Your honor, I don't know if it makes series but perhaps a suggestion. I see Mr. Roeshans is here. Does it make sense to stop my examination — I know if's not ideal, but if we can't get him back and try to get that figured out over non hour or something and continue with another witness's testimony? ALJ HOGAN: Let's see if there's a quick fix before we make adjustments. MIDENTIFED SPEAKER: We'd have to wait for the to by to reconnect. I have no contact with them otherwise. ALJ HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? MR. DROE: Well, Summit can certainly call the activity in the state could attract more investment, mere pipeline, more sequestration, eccetera, which then could be seld to the advantage of those other five plants. ALJ HOGAN: Olay. (Pause) ALJ HOGAN: Do you have a lot of additional questions, Mr. Baske? MR. Baske: A fair amount. (Pause) (Pause) ALJ HOGAN: Olay. (Pause) ALJ HOGAN: Do you have a lot of additional questions, Mr. Baske? MR. Baske: Tam. ALJ HOGAN: Olay. (Pause) ALJ HOGAN: Do you have a lot of additional questions, Mr. Baske? MR. Baske: A fair amount. (Pause) ALJ HOGAN: All right. Thank you for calling Where the fact that there is more carbon related and variate period to the surface period to the context with there will be an overall benefit that is created. (Pause) ALJ HOGAN: Olay. (Pause) ALJ HOGAN: Olay. (Pause) ALJ HOGAN: All right. Thank you for calling Where the fact that the present is Root of-s	3	(Pause)	3	THE WITNESS: Fabulous.
believe the problem is on their end. MR. BAKKE: Your fronor, I don't know if it makes sense but perhaps a suggestion. I see Mr. Boeshans is here. Does it make sense to stop my examination I try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something try to get that figured out over noon hour or something AL HOGAN: Let's see if there's a quick fix the before we make adjustments. AL HOGAN: Do you know? Does anybody have the them to try to reconnect. I have no contact with them the try to reconnect. I have no contact with them the summit pipeline, but I do think that the potential advantage associated with the project that all ethanol plants in North Dakota will benefit from is this advantage associated with the project that all ethanol plants in North Dakota will benefit from is this dorwise. AL HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? MR. BAKKE: No you know? Does anybody have contact with them, if they're trying to reconnect? AL HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? AL HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? AL HOGAN: Okay. Let's see if we can get him reconnected real quick. Otherwise, we'll talk about product with them, if they're trying to reconnect? AL HOGAN: Do you have a lot of additional questions, Mr. Bakke? AL HOGAN: Do you have a lot of additional questions, Mr. Bakke? A fair amount. AL HOGAN: Do you have a lot of additional questions, Mr. Bakke? A fair amount. AL HOGAN: Do you have a lot of additional questions, Mr. Bakke? I fair in	4	UNIDENTIFIED SPEAKER: I see both him and Mark	4	Q. (BY MR. BAKKE) Yeah. I think, Mr. Pickering,
8 sense but perhaps a suggestion. I see Mr. Beckens is 8 sense but perhaps a suggestion. I see Mr. Beckens is 8 sense but perhaps a suggestion. I see Mr. Beckens is 8 sense but perhaps a suggestion. I see Mr. Beckens is 9 sense but perhaps a suggestion in the 9 summit perhaps but in the well when I was trying to describe when I was trying to describe when I was I think the potential to summit pipeline, but I do think that the potential substance in the wild because the head of a carbon of a sense obspicer, if you will, where - 9 secondary or a carbon economy or a c	5	disconnected, but Fredrikson & Byron are there so I	5	you were midstream through an answer when we lost you,
sense but perhaps a suggestion. I see Mr. Boeshans is here. Does it make sense to stop my examination I how it is not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get him back and to know it's not ideal, but if we carrify get and continue with another witness's testimony? A. Yeah. So I think what I was trying to describe when I was interrupted was I I agree that that the Contact with them of them to try to reconnect. I have no contact with them to try to reconnect. I have no contact with them to try to reconnect. I have no contact with them them to try to reconn	6	believe the problem is on their end.	6	but I'll try to rephrase the question as best I can.
here. Does it make sense to stop my examination — I how here. Does it make sense to stop my examination — I how his not ideal, but if we can't get him back and try to get that figured out over poon hour or something and continue with another witness's testimony? ALJ HOGAN: Let's see if there's a quick fix before we make adjustments. UNIDENTIFIED SFEAKER: We'd have to wait for them to try to reconnect. I have no contact with them otherwise. ALJ HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? MR. JORGE: Well, Summit can certainly call the contact with them, if they're trying to reconnect? MR. JORGE: Well, Summit can certainly call the lawyer. That's Summit's lawyer they're paying for. UNIDENTIFIED SFEAKER: Your Honor, we're working or making contact with — ALJ HOGAN: Chewise, we'll talk about PAGE 97 I shifting gears. (Pause) ALJ HOGAN: All Garl is mount. ALJ HOGAN: All right. Thank you for calling upsided provide a phone number, I can diel out from of whatever the service is, GoTo Meeting, but them mute to the video and call in from a phone so we never lose audio at least. Just an idea. UNIDENTIFIED SPEAKER: That is true. They could guys could provide a phone number, I can diel out from of whatever the service is, GoTo Meeting, but them mute to the video and call in from a phone so we never lose unitable provide a phone number, I can diel out from UNIDENTIFIED SPEAKER: Hello, Dan Pickering has upsided again via phone. (Pause) UNIDENTIFIED SPEAKER: Hello, we can hear you. UNIDENTIFIED SPEAKER: Hello, we can hear you. ALJ HOGAN: Charling has been developed to be connected to be used to the substanting leading the were none of — this project, in the state of the proposed to be connected to be used to the substant pipeline; correct? That's not provide a phone number, I can diel out from of whatever the service is, GoTo Meeting, but the mute to vide a dual out aleast. Just an idea. UNIDENTIFIED SPEAKER: Hello, we can hear you. Quys could provide a phone num	7	MR. BAKKE: Your Honor, I don't know if it makes	7	So my question was that five out of the six
Name it's not ideal, but if we can't get him back and 10 Summit pipeline under the existing agreement; correct? 11 A. Yeah. So I think what I was trying to describe 2 and continue with another witherses's testimon? 12 when I was interrupted was I — I agree that — that 13 those five plants will not be putting their carbon into the burning plants will not be putting their carbon into the time to try to reconnect. I have no contact with them of them to try to reconnect. I have no contact with them of otherwise. 17 potential reation of a — kind of a carbon — a carbon 20 man, SORDE: well, Summit carbon into 18 economy or a carbon ecosphere, if you will, where — where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 19 where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 19 where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 19 where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 19 where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 19 where the fact that there is more carbon — carbon 20 contact with them, if they're trying to reconnect? 20 contact with them, if they're trying to reconnect? 20 contact with them, if they're trying to reconnect? 21 contact with them, if they're trying to reconnect? 21 contact with them, if they're trying to reconnect? 22 contact with them, if they're trying to reconnect? 23 contact with them, if they're trying to reconnect? 24 contact with them, if they're trying to reconnect? 25 contact with them, if they're trying to reconnect? 26 contact with them, if they're trying to reconnect? 27 contact with them, if they're trying to reconnect? 28 contact with them, if they're trying to reconnect? 28 contact with	8	sense but perhaps a suggestion. I see Mr. Boeshans is	8	ethanol plants in North Dakota will not have the
try to get that figured out over noon hour or something and continue with another witness's testimony? ALL HOGAN: Let's see if there's a quick fix before we make adjustments. It when to try to reconnect. I have no contact with them otherwise. ALL HOGAN: Do you know? Does anybody have contact with them, if they're trying to reconnect? MR, DADE: Well, Summit can certainly call the lawyer. That's Summits's lawyer they're paying for. UNIDENTIFIED SPEAKER: Your Honor, we're working and making contact with — ALL HOGAN: Okay. Let's see if we can get him reconnected real quick. Otherwise, we'll talk about PAGE 97 ALL HOGAN: Okay but ave a lot of additional questions, Mr, Bakke? MR, BAKKE: A fair amount. ALL HOGAN: Okay have a lot of additional questions, Mr, Bakke? MR, BAKKE: A fair amount. ALL HOGAN: Okay. ALL HOGAN: Okay have a lot of additional questions, Mr, Bakke? MR, BAKKE: A fair amount. ALL HOGAN: Okay. I UINDENTIFIED SPEAKER: Also, Your Honor, a workaround on this sometimes is to use the video option of whatever the service is, GaTo Meeting, but then mute the video and call in frome a phone so we never lose a united a call in frome a phone so we never lose a united a phone number, I can dial out from the video apinone number, I can dial out from good adjust out phone. ALL HOGAN: All right. Thank you for calling in, ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That's fine, I think — we did not ALL HOGAN: That'	9	here. Does it make sense to stop my examination I	9	advantage of being able to provide their carbon into the
12 and continue with another witness's testimony? 12 when I was interrupted was I - I agree that - that 13 those five plants will not be putting their carbon into 14 theore was adjustments. 14 the time to try to reconnect. I have no contact with them 15 otherwise. 17 otherwise. 18 ALJ HOGAN: Do you know? Does anybody have 18 contact with them, if they're trying to reconnect? 19 otherwise. 18 ALJ HOGAN: Do you know? Does anybody have 18 contact with them, if they're trying to reconnect? 19 otherwise. 18 otherwise. 19 otherwise working 20 otherwise rounded the potential creation of a	10	know it's not ideal, but if we can't get him back and	10	Summit pipeline under the existing agreement; correct?
13 ALJ HOGAN: Let's see if there's a quick fix 14 before we make adjustments. 15 UNIDENTIFIED SPEAKER: We'd have to wait for 16 them to try to reconnect. I have no contact with them 17 otherwise. 18 ALJ HOGAN: Do you know? Does anybody have 19 contact with them, if they're trying to reconnect? 20 MR. JORDE: Well, Summit can certainly call the 21 lawyer. That's Summit's lawyer they're paring for. 22 UNIDENTIFIED SPEAKER: Your Honor, we're working 23 on making contact with — 24 ALJ HOGAN: Cokay. Let's see if we can get him 25 reconnected real quick. Otherwise, we'll talk about 26 MR. BAKE: A fair amount. 27 ALJ HOGAN: Okay. 28 MR. BAKE: A fair amount. 29 MR. BAKE: A fair amount. 30 ALJ HOGAN: Okay 40 MINDENTIFIED SPEAKER: Also, Your Honor, a 41 questions, Mr. Bakke? 41 Questions, Mr. Bakke? 52 MR. BAKE: A fair amount. 53 MR. BAKE: A fair amount. 64 ALJ HOGAN: Do you have a lot of additional 65 Questions, Mr. Bakke? 66 MR. BAKE: A fair amount. 67 UNIDENTIFIED SPEAKER: Also, Your Honor, a 68 workaround on this sometimes is to use the video option 69 of whatever the service is, GoTo Meeting, but then mute 10 the video and call in from a phone so we never lose 11 aludio at least. Just an idea. 12 UNIDENTIFIED SPEAKER: Hello. Dan Pickering has 13 Just contact with the appropriate in most of the 14 gulys could provide a phone number, I can dial out from 18 Off Meeting to them. 19 UNIDENTIFIED SPEAKER: Hello. Dan Pickering has 19 Junioentified SPEAKER: Hello, we can hear you. 20 ALJ HOGAN: All right. Thank you for calling 21 In. 22 THE WITNESS: So sorry for that. 23 ALJ HOGAN: All right. Thank you for calling 24 ALJ HOGAN: That's fine. I think—we did not 25 ALJ HOGAN: That's fine. I think—we did not 26 ALJ HOGAN: That's fine. I think—we did not 27 ALJ HOGAN: That's fine. I think—we did not 28 ALJ HOGAN: That's fine. I think—we did not 29 ALJ HOGAN: That's fine. I think—we did not 40 Hogan contact with the appropriate of the only plants out of the skip lants in North Dakota who would see these competitive advantages by b	11	try to get that figured out over noon hour or something	11	A. Yeah. So I think what I was trying to describe
the Summit pipeline, but I do think that the potential davantage associated with the project that all ethanol plants in North Dakota will bear from is this potential creation of a – kind of a carbon – a carbon consonance with them, if they're trying to reconnect? MR. JORDE: Well, Summit can certainly call the lawyer. That's Summit Salwyer they're paying for. JuniDentTriEld SPEAKER: Your Honor, we're working on making contact with them. They are a plants in North Dakota will bear occopience, if you will, where – where the fact that there is more carbon – a carbon conomy or a carbon ecosphere, if you will, where – where the fact that there is more carbon-related activity in the state could attract more investment, more pipeline, more sequestration, etcetera, which then could be used to the advantage of those other five plants. ALJ HOGAN: Okay. Let's see if we can get him reconnected real quick. Otherwise, we'll talk about plants. PAGE 97 shifting gears. ALJ HOGAN: Do you have a lot of additional questions, Mr. Bakke? ALJ HOGAN: Do you have a lot of additional questions, Mr. Bakke? ALJ HOGAN: Okay. UNIDENTIFIED SPEAKER: Also, Your Honor, a workaround on this sometimes is to use the video option of whatever the service is, GoTo Meeting, but then mute the video and call in from a phone so we never lose and out a treatment of the video and call in from a phone so we never lose and out a treatment of the service is, GoTo Meeting, but then mute the video and call in from a phone so we never lose and out a treatment of the service is, GoTo Meeting, but then mute the video and call in from a phone so we never lose and out a treatment of the video and call in from a phone so we never lose and out a treatment of the service is, GoTo Meeting, but then mute the video and call in from a phone so we never lose and out a treatment of the service option of whatever the service is, GoTo Meeting, but then mute the video and call in from a phone so we never lose and out a treatment of the service proving the many proving	12	and continue with another witness's testimony?	12	when I was interrupted was I I agree that that
15 UNIDENTIFIED SPEAKER: We'd have to wait for 16 them to try to reconnect. I have no contact with them 17 otherwise. 18 ALJ HOGAN: Do you know? Does anybody have 19 contact with them, if they're trying to reconnect? 19 lawyer. That's Summit's lawyer they're paying for. 20 UNIDENTIFIED SPEAKER: Your Honor, we're working 21 lawyer. That's Dummit's lawyer they're paying for. 22 UNIDENTIFIED SPEAKER: Your Honor, we're working 23 on making contact with — 24 ALJ HOGAN: Okay. Let's see if we can get him 25 reconnected real quick. Dan Pickering has 18 joined again via phone. 19 UNIDENTIFIED SPEAKER: Hello, we can hear you. 20 ALJ HOGAN: All right. Thank you for calling 21 in. 22 THE WITNESS: So sorry for that. 23 ALJ HOGAN: That's fine. I think we did not 24 hear your answer to the question so our memories are 25 Mr. Bakke ask his last question so our memories are 26 Mr. Bakke ask his last question so our memories are 27 Intentification of a carbon econected to 28 PAGE 99 29 direct benefits, but I do think there will be an overall direct benefit that is created. 20 direct benefits, but I do think there will be an overall direct benefits, but I do think there will be an overall direct benefits, but I do think there will be an overall benefit that is created. 3 Q. Okay. And so you agree that advantage will be real in terms of these 55 out-of-state plants 4 real in terms of these 55 out-of-state plants 5 contributing carbon to the Summit pipeline; correct? 4 A Should be, yes, sir. 6 That's not hypothetical, that's a real competitive 7 advantage; correct? 8 A. Should be, yes, sir. 9 Q. Okay. Versus you use not a not a three-part 10 hypothetical this time in your answer but, instead, a 11 two-part hypothetical this time in your answer but, instead, a 12 two-part hypothetical this time in your answer but, instead, a 13 two-part hypothetical this time in	23	on making contact with	23	plants.
1 shifting gears. 2 (Pause) 3 ALJ HOGAN: Do you have a lot of additional 4 questions, Mr. Bakke? 5 MR. BAKKE: A fair amount. 6 ALJ HOGAN: Okay. 7 UNIDENTIFIED SPEAKER: Also, Your Honor, a 8 workaround on this sometimes is to use the video option 9 of whatever the service is, GoTo Meeting, but then mute 10 the video and call in from a phone so we never lose 11 audio at least. Just an idea. 11 two-part hypothetical where you said there was, quote, in 13 either just call in directly via phone, or if one of you 14 guys could provide a phone number, I can dial out from 15 GoTo Meeting to them. 16 (Pause) 17 UNIDENTIFIED SPEAKER: Hello. Dan Pickering has 18 joined again via phone. 19 UNIDENTIFIED SPEAKER: Hello, we can hear you. 20 ALJ HOGAN: All right. Thank you for calling 21 in. 22 THE WITNESS: So sorry for that. 23 ALJ HOGAN: That's fine. I think - we did not 24 hear your answer to the question so our memories are 25 plant currently connected or proposed to be connected to	24	ALJ HOGAN: Okay. Let's see if we can get him	24	So as it relates to the specific Summit project,
1 direct benefits, but I do think there will be an overall 2 (Pause) 3 ALJ HOGAN: Do you have a lot of additional 4 questions, Mr. Bakke? 5 MR. BAKKE: A fair amount. 6 ALJ HOGAN: Okay. 7 UNIDENTIFIED SPEAKER: Also, Your Honor, a 8 workaround on this sometimes is to use the video option 9 of whatever the service is, GoTo Meeting, but then mute 10 the video and call in from a phone so we never lose 11 audio at least. Just an idea. 12 UNIDENTIFIED SPEAKER: That is true. They could 13 either just call in directly via phone, or if one of you 14 guys could provide a phone number, I can dial out from 15 GoTo Meeting to them. 16 (Pause) 17 UNIDENTIFIED SPEAKER: Hello. Dan Pickering has 18 joined again via phone. 19 UNIDENTIFIED SPEAKER: Hello. Dan Pickering has 19 UNIDENTIFIED SPEAKER: Hello, we can hear you. 20 ALJ HOGAN: All right. Thank you for calling 21 in. 22 THE WITNESS: So sorry for that. 23 ALJ HOGAN: That's fine. I think we did not 24 hear your answer to the question so our memories are 10 direct benefits, but I do think there will be an overall 2 benefit that is created. 3 Q. Okay. And so you agree that advantage will be 4 real in terms of these 56 out-of-state plants 5 contributing carbon to the Summit pipeline; correct? 8 A. Should be, yes, sir. 9 Q. Okay. Versus you use not a not a three-part 10 the video and call in from a phone so we never lose 11 two-part hypothetical this time in your answer but, instead, a 11 two-part hypothetical where you said there was, quote, 12 "a potential advantage;" end quote, and then "a 13 potential creation of a carbon economy," end quote, in 14 North Dakota for the North Dakota ethanol plants; 2 correct? 16 A. Yeah. I think that in a situation like this 2 where none of this project is not yet built, that the 2 word "potential" is appropriate in most of the 2 discussion. 2 Q. And in terms of the Tharaldson plant, they are 2 the only plant out of the six plants in North Dakota who 2 would see these competitive advantages by being able to 2 use the Summit pipelin	25	reconnected real quick. Otherwise, we'll talk about	25	five of those six plants will not be accessing those

1	the project.	1	ALJ HOGAN: I think if we're going into benefits
2	Q. Okay. And you understand Mr. Tharaldson himself	2	to Mr. Tharaldson personally, I think that's too far
3	is a significant monetary investor in the Summit	3	down the road. So if you can keep your questions to the
4	pipeline; correct?	4	plant itself, I think that's the way we should proceed.
5	A. I am not aware of of Mr. Tharaldson's	5	MR. BAKKE: Well, there's been all kinds of
6	investment. I'm not aware of that.	6	testimony in relation to the investors in the plant and
7	Q. Well, there has been testimony, not of the	7	now we can't ask about one of them?
8	amount of his investment, they won't disclose that, but	8	ALJ HOGAN: Correct. I'm asking you to limit
9	Mr. Tharaldson is an investor in the pipeline. So he	9	your questions to the benefits to the plant.
10	would get a double benefit if the Summit pipeline is	10	MR. BAKKE: Well, I'll move on. Because that's
11	built and he can contribute carbon into that pipeline,	11	an important component, is his individual investment,
12	correct, as a personal investor and then through his	12	not the amount but the fact that he will benefit.
13	plant by having these competitive advantages over the	13	Q. (BY MR. BAKKE) Would you agree with me that
14	other five ethanol plants in North Dakota; correct?	14	since Summit has added from 32 out-of-state ethanol
15	A. I haven't seen that testimony with respect to	15	producers contributing to the Summit pipeline to 56
16	Mr. Tharaldson's investment. And I think that any time	16	out-of-state plants contributing to the Summit pipeline,
17	you're making an assessment of economic benefit of one	17	that the benefit has been diluted somewhat?
18	thing relative to another, you have to you have to	18	A. The benefit?
19	know the details, and we don't know I don't know the	19	Q. Of contributing carbon to the Summit pipeline.
20	details of either Mr. Tharaldson's investment, his	20	There's going to be more people that get that benefit
21	ownership of that facility, or the specific economics	21	than before. Let me just ask it that way.
22	associated with any of the other five North Dakota	22	A. Yeah, I think that that the benefits here are
23	plants. So I think it's pretty hard to make a relative	23	additive. Each plant is incremental and will receive,
24	assessment one versus the other.	24	you know, its its its own economic benefit. And
25	Q. Okay. Well, let's use your language. Let's use	25	so I don't think that adding one dilutes from the

ALJ HOGAN: Yes. Can you address relevance? MR. BAKKE: Sure. The Tharaldson plant has been touted as a beneficiary of the Summit pipeline by Summit. Been a lot of discussion about that. I wasn't in Wahpeton, but my understanding is there was a witness from the Tharaldson plant, I believe the chief operating officer, that talked about the benefits to Tharaldson. That's clearly something Summit has presented in the case so I'm just following up on that benefit and what that benefit looks like. MR. GLUDT: Your Honor, just a quick distinction. We've talked about the benefits to the plant in general. Mr. Bakke's line of questioning is going to the benefits to Mr. Tharaldson. MR. BAKKE: Actually, my question is to both benefits, the plant and to Mr. Tharaldson. And he's already testified here today about the \$18 billion and	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	benefits was what you called, quote, "the potential creation of a carbon economy," end quote, in North Dakota; is that correct? A. Correct. Q. Okay. Doesn't North Dakota already have a significant investment in the carbon economy? A. Well, when my definition here of "carbon economy" is really around CO2 and that specific that specific subeconomy, if you will. Hydrocarbons are obviously part of the carbon economy as well. And so what I was referencing is kind of creation of a new subindustry around CO2 and what's happening with CO2. Q. And that's what I I was referring to as well. Because there's already been a lot of money spent by North Dakota, including through the University of North Dakota and through private companies developing carbon capture and storage and actually taking affirmative steps to make that happen; correct? A. I'm not aware of the efforts of that you referenced. Q. Okay. So you're not aware of Project Tundra
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	getting the tax money, part of the 18 MR. GLUDT: Your Honor, I'm going to object. We're talking about benefits to Mr. Tharaldson right now. ALJ HOGAN: Yes. Can you address relevance? MR. BAKKE: Sure. The Tharaldson plant has been touted as a beneficiary of the Summit pipeline by Summit. Been a lot of discussion about that. I wasn't in Wahpeton, but my understanding is there was a witness from the Tharaldson plant, I believe the chief operating officer, that talked about the benefits to Tharaldson. That's clearly something Summit has presented in the case so I'm just following up on that benefit and what that benefit looks like. MR. GLUDT: Your Honor, just a quick distinction. We've talked about the benefits to the plant in general. Mr. Bakke's line of questioning is going to the benefits to Mr. Tharaldson. MR. BAKKE: Actually, my question is to both benefits, the plant and to Mr. Tharaldson. And he's already testified here today about the \$18 billion and the investors sharing in that. So I'm just following up	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	benefits was what you called, quote, "the potential creation of a carbon economy," end quote, in North Dakota; is that correct? A. Correct. Q. Okay. Doesn't North Dakota already have a significant investment in the carbon economy? A. Well, when my definition here of "carbon economy" is really around CO2 and that specific that specific subeconomy, if you will. Hydrocarbons are obviously part of the carbon economy as well. And so what I was referencing is kind of creation of a new subindustry around CO2 and what's happening with CO2. Q. And that's what I I was referring to as well. Because there's already been a lot of money spent by North Dakota, including through the University of North Dakota and through private companies developing carbon capture and storage and actually taking affirmative steps to make that happen; correct? A. I'm not aware of the efforts of that you referenced. Q. Okay. So you're not aware of Project Tundra that's currently being used for carbon capture and storage by Minnkota Power plant, a coal gasification

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND FUBLIC SERV	101	_ 001/11/11001011
1	or coal electrical power plant?	1	But my point is whether there's a Summit project or 5
2	A. I'm not aware of Project Tundra.	2	or 10 or 50 gas-fired plants or other plants, the pore
3	Q. Would you agree that North Dakota, western North	3	volume available to inject carbon in is is ample.
4	Dakota, has a geologic advantage for carbon storage?	4	Q. And aren't there coal plants that could also use
5	A. A geologic advantage relative to what?	5	the carbon existing carbon storage in North Dakota to
6	Q. To being able to store carbon below ground.	6	their benefit?
7	A. You indicated it has an advantage, and I'm	7	A. It is is a very expensive process to extract
8	asking advantage compared to not being able to store or	8	CO2 from a coal-fired power plant, but if those
9	another state	9	investments were made, they could absolutely inject that
10	Q. Compared to other states.	10	carbon in North Dakota.
11	A. I think that that there are many states that	11	Q. And they're actually doing that through Project
12	have the potential for carbon capture and sequestration.	12	Tundra with the Minnkota coal facility; correct?
13	One of the potential advantages here in North Dakota is	13	A. As I indicated, I don't know Project Tundra, but
14	a first mover advantage. And so I think that that	14	I'll take your word for it that that's occurring.
15	moving ahead with this particular project, you know,	15	Q. Okay. And to the extent coal-fired plants can
16	potentially puts North Dakota at the top of the list	16	use carbon capture and storage, that means that those
17	where further incremental projects would be developed.	17	plants can stay open longer, be economically
18	So I think it does have an advantage in terms	18	competitive, and continue to employ and support
19	relative to some other state.	19	communities where they're located; correct?
20	Q. Well, isn't North Dakota already the leader in	20	A. Completely agree.
21	carbon capture and storage in comparison to other	21	Q. Okay. So all of us all of this leads us to
22	states?	22	the conclusion it would be best for the welfare of the
23	A. Depends on your definition of "leader." There	23	citizens of North Dakota to use our existing carbon
24	are other projects proposed in Texas, Louisiana,	24	capture and storage locations for the energy industry
25	offshore, etcetera, that would be bigger. North Dakota	25	where it's already being used; correct?

The limited quantity is would be defined by the underground storage volume that's available to receive carbon. And so that's a function of both geology and aerial extent or the size of the various geologic formation. And so, by definition, there is a limit. We are the Summit project and subsequent projects, if there are any, are nowhere close to fulfilling that total potential pore volume for carbon injection. Q. Well, but aren't there gasification plants, including new gasification plants, that are going to be built in North Dakota that could use some of the existing carbon storage?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. I don't know how to assess what is best. I think the capital markets or the free markets, if you will, determine what's best by where capital is allocated and what projects move forward and don't move forward. So I think that to the extent that projects make economic sense, that whether it's one project one project is good, 10 projects is better, 50 projects would be even better because all of those are doing two things. One, in theory, they're not being invested unless they're creating economic value. And, two, they're sequestering carbon which is something that, you know, is a good thing from a climate perspective. So so I hope that answered your question. Q. Well, and by virtue of the fact that we've gone from 32 out-of-state plants to 56 ethanol plants contributing more carbon into the Summit pipeline, that means less carbon storage available for the North Dakota energy industry to use; correct? MR. GLUDT: Your Honor, I'm going to object to this line of questioning. Mr. Pickering is an economic analyst, not a geologist. He's already answered the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	is ahead of many of those projects. Q. Okay. And isn't North Dakota ahead in terms of carbon capture and storage for coal plants as well as for natural gas production facilities? A. I don't know specific the numbers for those two categories and so can't provide an answer. Q. And is there a limited quantity of carbon storage available in North Dakota? A. So the answer is yes. The limited quantity is would be defined by the underground storage volume that's available to receive carbon. And so that's a function of both geology and aerial extent or the size of the various geologic formation. And so, by definition, there is a limit. We are the Summit project and subsequent projects, if there are any, are nowhere close to fulfilling that total potential pore volume for carbon injection. Q. Well, but aren't there gasification plants, including new gasification plants, that are going to be built in North Dakota that could use some of the existing carbon storage? A. Absolutely. I think your question was is there	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. I don't know how to assess what is best. I think the capital markets or the free markets, if you will, determine what's best by where capital is allocated and what projects move forward and don't move forward. So I think that to the extent that projects make economic sense, that whether it's one project one project is good, 10 projects is better, 50 projects would be even better because all of those are doing two things. 1	sustained. I don't know that he has the expertise to	1	Q. (BY MR. BAKKE) Okay. So you don't know where
2	talk about that particular issue.	2	that power electrical power would come from?
3	MR. BAKKE: I don't think it calls for an expert	3	A. Well, the way the the way the power grid
4	opinion. It's just a reality. If you put on more	4	works typically is that that power is generated in
5	plants contributing CO2, increase it from 32 to 56, it's	5	any number of different locations and then flows and
6	using up more storage. I'm just asking whether he	6	flows across the transmission lines to the sources of
7	agrees or disagrees with that proposition.	7	demand or load. And so it's it isn't it isn't
8	ALJ HOGAN: I've already ruled.	8	like power plant A or power plant B will be specifically
9	MR. BAKKE: Okay.	9	supplying the power. The power goes into the grid, and
10	Q. (BY MR. BAKKE) And you've had some discussion	10	the grid is then tapped by Summit for that incremental
11	about enhanced oil recovery; correct?	11	power. So it's hard to specifically allocate which
12	A. Yes, sir. That was part of my initial	12	exact plant will supply the power.
13	testimony.	13	Q. Okay. Are you talking about the SPP?
14	Q. Okay. And if carbon capture and storage can be	14	A. What is SPP?
15	used for enhanced oil recovery, that would be used for	15	Q. Okay. You answered my question.
16	North Dakota oil operations; correct?	16	Will the Summit pipeline, in order to function
17	A. So one clarification. Carbon capture and	17	properly, need a continuous flow of electricity?
18	storage implies that the CO2 is going into the ground	18	A. I'm not I'm not close enough to the
19	and being stored there. And EOR would be a different	19	day-to-day operations or don't understand the day-to-day
20	use for carbon. And so CO2 can be sequestered	20	operations to know if that electricity consumption will
21	permanently, and that's what I believe the Summit	21	be intermittent or or continuous.
22	pipeline is targeting. And EOR would be a separate use	22	Q. And I'm assuming that means you wouldn't be able
23	of the carbon	23	to answer questions about what happens if the Summit
24	Q. Okay.	24	pipeline loses electrical power. Is that true?
25	A or the CO2.	25	A. That's correct.
	PAGE 109		PAGE 111
1	Q. Earlier in your testimony today, you testified	1	Q. Okay.
2	that the electrical demand growth would be a good thing	2	MR. BAKKE: I can ask these questions of
3	for North Dakota, what you see as a benefit to the	3	Mr. Powell or Mr. Boeshans. Okay. That's all the
4	Summit pipeline; is that correct?	4	questions I have.
5	A. I think the Summit pipeline will use incremental	5	ALJ HOGAN: Mr. Pelham, any other questions?
6	amounts of electricity which I view as a benefit to the	6	MR. PELHAM: I do not. Thank you.
7	state, correct.	7	ALJ HOGAN: Commissioner Christmann.
8	Q. Okay. And so where will this electricity come	8	COMMISSIONER CHRISTMANN: Mine were all answered
9	from to power the Summit pipeline?	9	in April.
10	A. So	10	ALJ HOGAN: Commissioner Haugen-Hoffart.
11	MR. GLUDT: Objection.	11	COMMISSIONER HAUGEN-HOFFART: No. No questions.
12	If you know, Dan, you can answer.	12	ALJ HOGAN: Mr. Dawson.
13	MR. BAKKE: How can he analyze if it's an	13	SUBSTITUTE DECISIONMAKER DAWSON: None for me.
14	economic benefit or not without knowing where it's	14	Thank you.
15	coming from?	15	ALJ HOGAN: Mr. Gludt, any redirect?
16	ALJ HOGAN: I'm not sure what the objection was,	16	MR. GLUDT: None for me.
17	but I'll allow him to answer.	17	ALJ HOGAN: All right. Well, thank you,
18	A. So my assumption is that the existing or the	18	Mr. Pickering. And sorry about the
19	incremental power demand will be supplied by the	19	THE WITNESS: No. My apologies on the internet
20	existing power facilities in the state. And so my	20	glitch. Thank you.
21	assumption that it's a benefit is that incremental	21	ALJ HOGAN: All right. Next witness, is it
22	incremental capacity utilization will carry higher	22	Mr. Boeshans?
23	revenues for the electricity generation companies and,	23	UNIDENTIFIED SPEAKER: Yes, I believe so, Your
24	therefore, that's an incremental economic benefit to the	24	Honor.
1			
25	state and its citizens.	25	ALJ HOGAN: All right. Easiest question first.

	ND PUBLIC SERV		
1	Is your microphone on? No.	1	electrical cooperatives that would serve the different
2	WADE BOESHANS: Is it on now?	2	substations across the footprint.
3	ALJ HOGAN: Yes.	3	Q. Okay. And maybe could you pull that microphone
4	WADE BOESHANS: All right. Thank you.	4	a little closer? I'm having a little difficulty hearing
5	ALJ HOGAN: I'll have you state your full name	5	you.
6	for the record.	6	And so you said some members talked to some
7	WADE BOESHANS: Wade Wayne Boeshans.	7	cooperatives. Who was spoken to in Burleigh County in
8	ALJ HOGAN: Mr. Boeshans, were you in the room	8	regards to the electrical requirements for the Summit
9	this morning when I went through the penalties for	9	pipeline that's proposed to go in here?
10	perjury?	10	A. I can't testify as to who specifically in
11	WADE BOESHANS: I was.	11	Burleigh County or at the the electrical cooperative.
12	ALJ HOGAN: And do you understand what perjury	12	Q. Okay. Well, who are the potential candidates in
13	is?	13	terms of the cooperatives that would be that this
14	WADE BOESHANS: I do.	14	would be discussed with that would be providing
15	ALJ HOGAN: And being advised of the potential	15	electrical power?
16	penalties for perjury, do you promise to tell the truth	16	A. I believe that's Capital Electric. I'm not a
17	in this case today?	17	hundred not a hundred percent sure in terms of all
18	WADE BOESHANS: I do.	18	the service territories. Again, my responsibility was
19	ALJ HOGAN: All right. And who is going first?	19	on the sequestration side. And so, you know, they're
20	Mr. Bakke?	20	aware of our engagement with Roughrider Electric.
21	MR. BAKKE: I am, Your Honor. Yes.	21	Q. So has Capital Electric or any other electrical
22	ALJ HOGAN: Okay. And just so you're aware,	22	supplier in Burleigh County indicated that they will be
23	we're going to break for lunch around 12:30.	23	able to provide continuous electricity for the Summit
24	MR. BAKKE: Okay. Thank you.	24	pipeline?
25	ALJ HOGAN: Go ahead.	25	A. That's my understanding.

And you said that would be an economic benefit to North Dakota; correct? A. Correct. Q. Okay. And so who have you or anyone else at Summit spoken to about supplying electricity for the Summit pipeline? A. I have not spoken to anybody about supplying	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yeah, I believe it's Capital Electric in you know, in Burleigh County, but, again, as I mentioned, the pipeline team would have made those those contacts and been communicating with those electric cooperatives. It was not me. Q. Well, has anything been provided by Summit, to your knowledge, to the PSC indicating that there has been a commitment by an electrical provider to provide a continuous supply of reliable electricity for the Summit pipeline? A. Not to my knowledge. Q. Okay. And is it correct that in order for the Summit pipeline to function properly, it will need a continuous and reliable flow of electricity? A. Yeah, that's that's fair, I believe. Q. Okay. A. It's going to need electricity to function, to operate the pumps.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	being first duly sworn, was examined and testified as follows: CROSS EXAMINATION BY MR. BAKKE: Q. Good morning, Mr. Boeshans. I have some questions for you based on your April 22nd testimony you provided to the PSC. And the first topic I want to ask you about that you provided testimony on was electricity for the Summit pipeline. And you, I think, talked about a number of \$14 million being paid annually to operate the carbon capture and storage project; is that correct? A. Yeah, that sounds correct. Q. Okay. And you said that would be an economic benefit to North Dakota; correct? A. Correct. Q. Okay. And so who have you or anyone else at Summit spoken to about supplying electricity for the Summit pipeline? A. I have not spoken to anybody about supplying electricity. Members of our team have engaged with the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yeah, I believe it's Capital Electric in you know, in Burleigh County, but, again, as I mentioned, the pipeline team would have made those those contacts and been communicating with those electric cooperatives. 	ND I ODLIG OLIV		
1	hydraulics and system operations.	1	or not generate.
2	Q. And do you know whether there would be a	2	Q. Okay. And also ice and other factors?
3	catastrophic event with the Summit pipeline if it lost	3	A. Yeah, it could be for ice as well, I presume.
4	electrical power or is that something I should ask	4	Q. And there are also time periods where the
5	Mr. Powell?	5	coal-fired electricity in North Dakota shuts down as
6	A. Again, Jimmy's the expert on that.	6	well; correct?
7	Q. Okay. And then in terms of the source of the	7	A. So why don't you restate that?
8	electrical power, do you know whether the source of the	8	Q. Are there time periods where the coal-fired
9	electrical power will be wind turbine, solar, coal, some	9	electricity plants experience either blackouts or
10	combination thereof? Do you have any knowledge on that?	10	brownouts or planned maintenance?
11	A. I'm presuming it will be grid power. I don't	11	A. Sure. There are times where the coal-fired
12	know specifically, you know, exactly where all the power	12	plants are shut down for maintenance, for sure.
13	sources will come from, but assuming it's served by an	13	Q. Okay. And do you know, have there been time
14	electric cooperative utility, it would be, you know, the	14	periods where Capital Electric has lost power in
15	power that is available on the grid and in their	15	Burleigh County?
16	systems.	16	A. I'm aware of a event in the past, I believe it
17	Q. Well, when you say "the grid," would that	17	was 2020, if I recall correctly, where there was
18	include all three of the sources I described, wind	18	disruptions in the availability of power.
19	turbines, solar, coal-fired electricity?	19	Q. Okay. Meaning there were time periods when
20	A. Yeah, it would be inclusive of all the	20	consumers were without electrical power for some time
21	generating generating or generating sources that are	21	period?
22	providing power or supplying power under the grid.	22	A. Yeah, that's my understanding.
23	Q. Okay. And you were previously the CEO of BNI	23	Q. Okay. And there can be other events that affect
24	Coal for many years; is that correct?	24	the availability of electrical power in Burleigh County
25	A. Yeah, the president and general manager.	25	and other locations along the Summit pipeline route
	PAGE 117		PAGE 119
1	Q. Okay. So you have some knowledge base,	1	including strikes of electrical lines?
2	including locally, about sources of electricity and	2	A. You know, I really can't testify or comment on,
	generation of electricity; correct?		
3			you know, the electrical systems operations in terms of
3 4	-	3 4	you know, the electrical systems operations in terms of how much redundancy they have or how susceptible they
4	A. That's correct.	4	how much redundancy they have or how susceptible they
	A. That's correct.Q. Okay. And so if we take, as an example, wind		how much redundancy they have or how susceptible they are to lightning strikes or other types of outages.
4 5 6	 A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability 	4 5	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by
4 5	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a	4 5 6	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies;
4 5 6 7	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis?	4 5 6 7	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct?
4 5 6 7 8 9	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind	4 5 6 7 8	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be.
4 5 6 7 8 9	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis?	4 5 6 7 8 9	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what
4 5 6 7 8 9 10	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available	4 5 6 7 8 9 10	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County
4 5 6 7 8 9 10 11	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you	4 5 6 7 8 9 10 11	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate?
4 5 6 7 8 9 10 11 12 13	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you	4 5 6 7 8 9 10	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County
4 5 6 7 8 9 10 11 12 13	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation	4 5 6 7 8 9 10 11 12 13 14	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical
4 5 6 7 8 9 10 11 12 13 14 15	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources.	4 5 6 7 8 9 10 11 12 13	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that.
4 5 6 7 8 9 10 11 12 13 14 15 16	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least	4 5 6 7 8 9 10 11 12 13 14 15 16	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that. Q. Doesn't Summit need to know on the front end
4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather	4 5 6 7 8 9 10 11 12 13 14 15 16 17	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that. Q. Doesn't Summit need to know on the front end before the pipeline is built what electrical power
4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather events; correct?	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that. Q. Doesn't Summit need to know on the front end before the pipeline is built what electrical power supply will be available and whether they can deliver
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather events; correct? A. I'm not really I'm not sure I understand your	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather events; correct? A. I'm not really I'm not sure I understand your question. Q. Do you know if extreme cold or at a certain	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that. Q. Doesn't Summit need to know on the front end before the pipeline is built what electrical power supply will be available and whether they can deliver reliable power to the Summit pipeline on a consistent basis? A. Yeah, I would presume we would, you know, need
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather events; correct? A. I'm not really I'm not sure I understand your question. Q. Do you know if extreme cold or at a certain temperature the wind turbines, the metal becomes brittle	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. Q. Well, there can be mechanical strikes by equipment that shut down electrical power supplies; correct? A. Yep, there could be. Q. Okay. What has Summit done to determine what the current electrical power supply in Burleigh County or other locations along the pipeline will accommodate? A. Again, as I mentioned before, I haven't been involved with those discussions with the electrical providers. I really can't testify to that. Q. Doesn't Summit need to know on the front end before the pipeline is built what electrical power supply will be available and whether they can deliver reliable power to the Summit pipeline on a consistent basis? A. Yeah, I would presume we would, you know, need to know that power is available and that it's reasonably
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. That's correct. Q. Okay. And so if we take, as an example, wind turbines in Burleigh County, have there been reliability issues with wind turbines producing electricity on a reliable basis? A. Well, I think just by nature, you know, wind generation is an intermittent generation so it's available when the wind blows and it's not available when the wind is not blowing. So if that's what you mean by "reliability." But I think it's come you know, it's implied with those types of of generation or generator sources. Q. Okay. And it's also wind turbines, at least in Burleigh County, are impacted by other weather events; correct? A. I'm not really I'm not sure I understand your question. Q. Do you know if extreme cold or at a certain temperature the wind turbines, the metal becomes brittle and they can't function?	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	how much redundancy they have or how susceptible they are to lightning strikes or other types of outages. 	ND PUBLIC SERV		_ 001/11/11001014
1	Q. Okay. Are you able to commit on behalf of	1	the right to pursue eminent domain or condemnation
2	Summit today, Mr. Boeshans, that if landowners in	2	actions against hold-out landowners who will not
3	Burleigh County refuse to voluntarily provide easements	3	voluntarily provide easements to Summit?
4	to Summit, Summit will not initiate eminent domain or	4	A. What I said was I cannot make that commitment.
5	condemnation actions against hold-out landowners?	5	Q. Right. And I'm asking you, by saying that, do
6	MR. GLUDT: I'm going to object, Your Honor.	6	you mean Summit's reserving the right to pursue eminent
7	Eminent domain is was outside the scope of this	7	domain or condemnation actions against hold-out
8	jurisdiction of the Commission. We've been down this	8	landowners?
9	line of questioning multiple times before. The question	9	A. Yeah, that would be fair.
10	has been asked and answered. I think we can move on.	10	Q. Okay. You provided some testimony previously on
11	MR. BAKKE: This witness testified on	11	the financial benefits to the Tharaldson Ethanol plant
12	April 22nd, and I think he just agreed, that they have	12	due to the Summit pipeline; correct?
13	no plans to initiate condemnation action. So I'm	13	A. Can you give me specifics? I can't recall that
14	entitled to follow up on that and see what their plans	14	specifically.
15	are or are not.	15	Q. Well, let me ask you this. Can you would you
16	ALJ HOGAN: The objection is noted. I'll allow	16	agree that whether the Tharaldson Ethanol plant gets a
17	him to I will allow him to answer.	17	financial benefit from putting carbon in the Summit
18	MR. BAKKE: Okay.	18	pipeline isn't relevant to any safety, health, or
19	Q. (BY MR. BAKKE) So let me ask the question	19	welfare of the citizens of North Dakota? Two different
20	again, Mr. Boeshans. Are you able to commit on behalf	20	things, aren't they?
21	of Summit today that if landowners in Burleigh County	21	A. So I can't testify to what Tharaldson's economic
22	refuse to voluntarily provide easements to Summit,	22	benefits are. I'm not privy to their their business,
23	Summit will not initiate eminent domain or condemnation	23	their financials, or the contract between us and them.
24	actions against hold-out landowners?	24	So I can't really testify to specifically what are their
25	A. I cannot make that commitment.	25	benefits.

2 3 4 5 6 7 8	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify	2 3 4 5 6 7 8	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our
2 3 4 5 6 7 8 9 10	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's	2 3 4 5 6 7 8 9 10	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details.
2 3 4 5 6 7 8 9 10 11	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of	2 3 4 5 6 7 8 9 10 11	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes
2 3 4 5 6 7 8 9 10 11 12	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit.	2 3 4 5 6 7 8 9 10 11 12 13	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from.
2 3 4 5 6 7 8 9 10 11 12 13	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit. ALJ HOGAN: Right. Well, what's the purpose of	2 3 4 5 6 7 8 9 10 11 12 13	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the
2 3 4 5 6 7 8 9 10 11 12 13 14 15	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit. ALJ HOGAN: Right. Well, what's the purpose of your follow-up question? I thought it was to clarify	2 3 4 5 6 7 8 9 10 11 12 13 14 15	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the financial benefits but whether you agree financial
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit. ALJ HOGAN: Right. Well, what's the purpose of your follow-up question? I thought it was to clarify his answer, but you tell me if I'm	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the financial benefits but whether you agree financial benefits to for sales of corn is a different issue
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit. ALJ HOGAN: Right. Well, what's the purpose of your follow-up question? I thought it was to clarify his answer, but you tell me if I'm MR. BAKKE: No. I'm following up on that and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the financial benefits but whether you agree financial benefits to for sales of corn is a different issue than what's best for the safety, health, and welfare of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the financial benefits but whether you agree financial benefits to for sales of corn is a different issue than what's best for the safety, health, and welfare of the citizens of North Dakota. Do you agree those are two totally separate issues? A. Yeah, I agree they're separate. Q. Switching to the topic of meetings with emergency managers and first responders both in Burleigh
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. BAKKE: Well, I think I asked on behalf of Summit. ALJ HOGAN: Right. Well, what's the purpose of your follow-up question? I thought it was to clarify his answer, but you tell me if I'm MR. BAKKE: No. I'm following up on that and asking him is what you're saying by that answer, is that they're reserving that right Summit reserves the right to pursue eminent domain or to initiate condemnation actions against hold-out landowners. ALJ HOGAN: I'll allow him to answer that. A. Could you state it again?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	plant consumes a significant amount of corn, north of 60 million bushels a year. And according to their COO's testimony and other information that I've seen, most of that is purchased in North Dakota. So those are things I know. But in terms of, you know, what are exactly the economic benefits of Tharaldson plant or the benefits of economic benefit to Tharaldson to connecting to our project, I don't know those details. Q. Okay. Are you aware of any of that corn coming from Burleigh County farmers? A. I am not aware of exactly where the corn comes from. Q. Okay. Then my question dealt not only with the financial benefits but whether you agree financial benefits to for sales of corn is a different issue than what's best for the safety, health, and welfare of the citizens of North Dakota. Do you agree those are two totally separate issues? A. Yeah, I agree they're separate. Q. Switching to the topic of meetings with emergency managers and first responders both in Burleigh County and the City of Bismarck, do you recall giving
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	commitment, what that means is that Summit reserves the right and will initiate eminent domain or condemnation actions against hold-out landowners, doesn't it? MR. GLUDT: Objection, Your Honor. He answered the question and now we're getting into the specifics of eminent domain. ALJ HOGAN: Well, I'll allow him to clarify because I wasn't clear whether or not there he's stating they're not willing to make that commitment or if he personally cannot make that commitment. MR. Switching to the topic of meetings with emergency managers and first responders both in Burleigh County and the City of Bismarck, do you recall giving

	ND 1 ODLIG OLIV		
1	Q. Okay. So tell us when you had those meetings	1	A. Again, I don't recall exactly or who
2	starting with the first meeting with Burleigh County	2	everybody that was in the room that day that had a role
3	and/or the City of Bismarck?	3	as it related to presenting, but I remember that Alex
4	A. So I participated in the meeting with Burleigh	4	Lange and Jimmy Powell both participated in the meeting,
5	County, and in that meeting were members of both the	5	as did Dave Daum.
6	City of Bismarck and Burleigh County emergency	6	Q. Okay.
7	management, first responders. And I believe that was on	7	A. And I believe those are all on the sign-in sheet
8	November 27th of last year, of '23, but it was right	8	for the meeting.
9	that last week of November.	9	Q. And what was the topic or issue Mr. David Daum
10	Q. So this would have been after the Summit	10	presented on?
11	application was denied by the PSC in their August 4,	11	A. Again, I don't recall David presenting. I
12	2023, order?	12	recall discussions about emergency response and
13	A. Yeah. That was the meeting in which we met with	13	preparedness and how the plan would come together. I
14	them and just, you know, shared a dispersion or	14	don't recall specific slides or something of that nature
15	discussed dispersion modeling, was that that November	15	that he was presenting.
16	meeting. There had been numerous meetings prior to	16	Q. Mr. Daum would be the individual from Summit who
17	that, as I understand it, from other members of our team	17	would be most knowledgeable on emergency management
18	prior to the denial and reapplication.	18	procedures and preparedness?
19	Q. Okay. And who was present on behalf of Burleigh	19	A. Yeah. David's knowledgeable and is responsible
20	County?	20	for for safety. I believe his title is director of
21	A. Who was present on at the November meeting?	21	safety.
22	Q. Correct.	22	Q. Including emergency management procedures and
23	A. I don't recall everybody that was present at	23	preparedness?
24	that meeting. I know there was a sign-in sheet. I	24	A. Correct.
25	recall that Commissioner Bitner was there. I recall	25	Q. Okay. And you mentioned slides. Was there some
	PAGE 129		PAGE 131
1	that Boespflug from City of Bismarck was there, Joel	1	sort of PowerPoint presentation made?
2	Boespflug, but I don't recall everybody that was there.	2	A. Yes. There were PowerPoint slides used during
3	I want to say there was 15 to 20 people that attended	3	the meeting.
3 4	I want to say there was 15 to 20 people that attended the meeting.	3 4	the meeting. Q. And by its nature, was the PowerPoint
			_
4	the meeting.	4	Q. And by its nature, was the PowerPoint
4 5	the meeting. Q. And at the meeting were there any handouts or	4 5	Q. And by its nature, was the PowerPoint presentation two-dimensional?
4 5 6	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency	4 5 6	Q. And by its nature, was the PowerPoint presentation two-dimensional?A. Yes.
4 5 6 7	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county	4 5 6 7	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this
4 5 6 7 8	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials?	4 5 6 7 8	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials
4 5 6 7 8 9	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there	4 5 6 7 8 9	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders?
4 5 6 7 8 9	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project	4 5 6 7 8 9	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos.
4 5 6 7 8 9 10	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts.	4 5 6 7 8 9 10	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the
4 5 6 7 8 9 10 11	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit?	4 5 6 7 8 9 10 11	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was
4 5 6 7 8 9 10 11 12 13	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange.	4 5 6 7 8 9 10 11 12 13	 Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a
4 5 6 7 8 9 10 11 12 13	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange?	4 5 6 7 8 9 10 11 12 13 14	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type?
4 5 6 7 8 9 10 11 12 13 14	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter.	4 5 6 7 8 9 10 11 12 13 14 15	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in
4 5 6 7 8 9 10 11 12 13 14 15 16	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting.	4 5 6 7 8 9 10 11 12 13 14 15 16	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall
4 5 6 7 8 9 10 11 12 13 14 15 16	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting	4 5 6 7 8 9 10 11 12 13 14 15 16	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that.
4 5 6 7 8 9 10 11 12 13 14 15 16 17	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion	4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling?	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling? A. Yeah. As I recall, Alex presented on dispersion	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show real-life conditions in the event of a CO2 leak;
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling? A. Yeah. As I recall, Alex presented on dispersion modeling, the methodology, and talked people through how	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show real-life conditions in the event of a CO2 leak; correct?
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling? A. Yeah. As I recall, Alex presented on dispersion modeling, the methodology, and talked people through how a dispersion model is used and and developed, if you	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show real-life conditions in the event of a CO2 leak; correct? A. Again, I don't recall any videos being used in
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling? A. Yeah. As I recall, Alex presented on dispersion modeling, the methodology, and talked people through how a dispersion model is used and and developed, if you will.	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show real-life conditions in the event of a CO2 leak; correct? A. Again, I don't recall any videos being used in that meeting.
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the meeting. Q. And at the meeting were there any handouts or written materials provided to any of the emergency management people or first responders or county officials or city officials? A. I don't recall there being handouts, but there may have been some, you know, general project information. I don't recall specific handouts. Q. Okay. And who presented on behalf of Summit? A. I believe it was Alex Lange. Q. Alex Lange? A. Yeah. Alex Lange was the primary presenter. Jimmy Powell also participated in that meeting. Q. And was the topic that Mr. Lange was presenting on in relation to what you're calling the dispersion modeling? A. Yeah. As I recall, Alex presented on dispersion modeling, the methodology, and talked people through how a dispersion model is used and and developed, if you will. Q. Okay. And who else presented on behalf of	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Q. And by its nature, was the PowerPoint presentation two-dimensional? A. Yes. Q. Okay. And there were no videos shown at this meeting with the emergency manager and county officials and first responders? A. I don't recall any videos. Q. Okay. So anything that was presented to the emergency managers and to the first responders was presented in a two-dimensional fashion as opposed to a 3-D simulation or video of any type? A. What I recall is what was presented was in PowerPoint slides projected on a screen. I don't recall videos being part of that. Q. So in relation to the dispersion modeling, there were no simulations or videos presented that would show real-life conditions in the event of a CO2 leak; correct? A. Again, I don't recall any videos being used in that meeting. Q. Well, for instance, have you seen the

	ND PUBLIC SERV	ICE	E COMMISSION
1	in Norway which shows an actual CO2 leak under certain	1	Q. Okay.
2	conditions in a pipeline of a certain diameter, certain	2	A. What I can tell you is the follow-up meetings, I
3	pressures, certain volume, certain weather conditions?	3	was not at the meetings.
4	A. Yeah, I I believe I've seen that video.	4	Q. Okay. And so you believe the log will bear out
5	Q. Okay.	5	that there were additional meetings with Burleigh County
6	A. But I don't know exactly the if it's the same	6	officials after November 27th?
7	one you're talking about.	7	A. Again, as I said earlier, I'm not sure if that
8	Q. And there was nothing like that shown to the	8	was those meetings are in the log, but I do know that
9	emergency managers or first responders or county	9	they occurred because the people were in our office
10	officials on November 27, 2023, but, rather, it was just	10	afterwards.
11	a slide show PowerPoint-type two-dimensional	11	Q. Which people? People from Burleigh County?
12	presentation; correct?	12	A. People from Summit.
13	A. Again, I don't recall any videos.	13	Q. Okay. Well, can you name any names of people
14	Q. Okay. So were there additional meetings that	14	from Summit who claim to have met with anyone from
15	you attended after November 27, 2023, with emergency	15	Burleigh County after November 27, 2023?
16	managers, first responders, or county officials?	16	A. Yes, I know that Dave Daum met with them.
17	A. In which county?	17	Q. Anyone else?
18	Q. In Burleigh County.	18	A. I believe Rod Dillon as well was part of those
19	A. No, I don't I didn't attend there were	19	meetings.
20	other meetings, but I was not in attendance.	20	Q. And who did they meet with at Burleigh County?
21	Q. Okay. Specifically, were there any other	21	A. Again, I don't recall. My recollection is that
22	meetings with any Burleigh County officials?	22	it was the fire chief, but I didn't see specifically the
23	A. Between me and them?	23	agenda or itinerary of the meeting and who all attended.
24	Q. Well, you said that there were others that met.	24	Q. You testified about landowners that were met
25	I'm assuming you mean others from Summit.	25	with regarding the Summit proposed reroute. Who
	PAGE 133		PAGE 135
1	A. Correct.	1	specifically did you meet of any landowners in Burleigh
2	Q. Okay. So were there others from Summit, after	2	County who were asked about securing easements for their
3	November 27, 2023, that met with any of the Burleigh	3	land for the reroute?
4	County officials, emergency managers, first responders?	4	A. So you're asking me, of all of the landowners on
5	A. Yes.	5	the reroute, which ones I met with?
6	Q. Okay. And when did that occur and who from	6	Q. In Burleigh County.
7	Summit met with them?	7	A. In Burleigh County. I met with a lot of
8	A. I don't recall specifically the dates or who was	8	different landowners.
9	in attendance. I believe it's part of the log that was	9	Q. Well, can you give me some names?
10	submitted. I would have to refer to that.	10	A. Yes. I like I said, I met with
11	Q. Well, I understand, based on the log, there were	11	MR. GLUDT: Your Honor, I'm going to go ahead
12	meetings with other county officials in other counties.	12	and object. I don't think the names of the folks are
13	I'm being specific to Burleigh County. Are you saying	13	relevant nor should Mr. Boeshans be under an obligation
14	the log will verify that there were additional meetings	14	to start disclosing individuals he's met with and
15	with Burleigh County officials after November 27, 2023?	15	negotiated easements with. I think we're a little bit
16	A. Again, I would have to see the log, but I do	16	outside the scope.
17	know that there were follow-up meetings with members of	17	ALJ HOGAN: Can you address relevance?
18	Burleigh County after November 27th.	18	MR. BAKKE: Well, the easements are part of
19	Q. And the reason I'm asking these questions is, at	19	public record. There should be easements on file
20	your initial testimony, you said, quote, "There were	20	identifying the landowners. So the landowners that
21	numerous meetings with emergency managers and first	21	signed easements is not secret
22	responders in both Burleigh County and City of	22	MR. GLUDT: You have the same access to them as
23	Bismarck," end quote.	23	we do and you can find them, those names.
24	Is that accurate testimony?	24	ALJ HOGAN: Hang on.
25	A. It is.	25	What's the relevance of Mr. Boeshans disclosing
	PAGE 134		PAGE 136

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		E COMMUNICATION
1	who he met with?	1	A. I'm not.
2	MR. BAKKE: I'm following up on who he met with,	2	Q. Because Exhibit 113 is just a general statement
3	and the next step I'm going to get to is which of those	3	in relation to percentages of easements secured in
4	people signed easements and which did not.	4	Burleigh County which could include people under the
5	ALJ HOGAN: And the relevance of that?	5	original route
6	MR. BAKKE: The relevance of that is that it	6	A. Yep.
7	shows that there's a lot of resistance to the Summit	7	Q and also under the reroute?
8	pipeline in Burleigh County.	8	A. Yeah, that's correct.
9	ALJ HOGAN: How does that show relevance of that	9	Q. Okay. My assumption is Summit has information
10	if we're talking about who he met with and the ones that	10	they could provide the PSC in regards to what percentage
11	signed easements?	11	of the people on the reroute location in Burleigh County
12	MR. BAKKE: He can tell me whether they did or	12	have or have not agreed to easements on their property.
13	did not sign easements. I think it's relevant if he's	13	Correct?
14	meeting with people and they're not signing easements in	14	A. Correct. And that's the information I provided
15	Burleigh County.	15	at the hearing in Mandan and just stated here. We have
16	ALJ HOGAN: Well, just for the sake of time, can	16	we've acquired 46 percent of the miles of on the
17	we ask in a general fashion rather than trying to have	17	reroute.
18	Mr. Boeshans recall specifics of who he met with?	18	Q. And is that just for Burleigh County, that
19	MR. BAKKE: Sure, I can do that.	19	percentage is 46 percent?
20	My dilemma here is each and every time I get	20	A. That's that's just the reroute, the new
21	into a topic I'm meeting objections so I'm trying to be	21	route. So we'd have to go to the map so you could see
22	careful to walk through the process to establish the	22	exactly what that is, but the reroute is about 25 or
23	foundation for my questions. I'd just as soon move	23	just over 25 miles. From where we left the old route,
24	along more quickly, but I'm encountering I mean, I	24	went further north and east of Bismarck and reattached
25	can see that he's got his finger on the button to object	25	to where the river crossing is.
	PAGE 137		PAGE 139
1	on a frequent basis, as is happening, but I can try to	1	Q. Right. But what I'm trying to focus on, is all
2	speed this up, but I'm afraid I'm going to have to then	2	of that in Burleigh County?
3	go backwards and lay foundation for the questions. But	3	A. Is all of that reroute? Yes.
4	I can do that in this situation.	4	Q. Okay.
5	Q. (BY MR. BAKKE) Mr. Boeshans, in relation to	5	A. But there are other tracts in Burleigh County as
6	these meetings, did some of these people you met with	6	well, which is why the numbers are different here. The
7	not agree to provide easements to Summit along the	7	number that you see in your Exhibit 113 is all of
8	reroute?	8	Burleigh County. I'm talking to you about numbers
9	A. So as of today, we've signed easements on	9	related to the Bismarck reroute.
10	46 percent of the route. So, yes, we have not secured	10	Q. And then in terms of the reroute locations, does
11	all the easements.	11	Summit offer to pay only 20 percent down or less than
12	Q. Right. But my question is some of the people	12	the full amount of the easement amount that might be
13	you met with, did they tell you they would not be	13	negotiated with those landowners that are willing to do
14	signing easements for the reroute?	14	so?
15	A. I'm trying to recall if they used those specific	15	MR. GLUDT: Objection, Your Honor. This goes to
16	words. What I do know is we haven't signed all the	16	private easement negotiations.
17	easements.	17	ALJ HOGAN: Can you discuss relevance of that?
18	Q. Take a look at Exhibit 113 again, the one you	18	MR. BAKKE: Yeah. The relevance of it is that
19	have open in front of you, the right of way progress in	19	might help explain why they're not getting easement or
20	terms of percentages of easements obtained in Burleigh	20	it may not. If they're offering a full price and
24	County.	21	they're turning them down, I think that's more important
21			
22	A. Yeah.	22	than if they're just offering them 20 percent.
		22 23	than if they're just offering them 20 percent. ALJ HOGAN: Can we just get to that in a general
22	A. Yeah.		
22 23	A. Yeah.Q. Are you able to identify for us how many people	23	ALJ HOGAN: Can we just get to that in a general

PAGE 140

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		_ 001/11/11001014
1	MR. BAKKE: I'm asking if that's a specific	1	Likewise, prior to today's hearing I did send
2	reason.	2	out a schedule and so today was reserved for
3	ALJ HOGAN: Well, I'm asking you to ask your	3	cross-examination of Summit's witnesses. So if there's
4	question in a general fashion.	4	any changes to that schedule, I'd ask the parties work
5	Q. (BY MR. BAKKE) Are people offering reasons why	5	that out amongst themselves, and if there's an
6	they won't provide easements?	6	agreement, you have to let me know.
7	A. I would say generally in every this gets	7	And, with that, I will turn back to you,
8	into, ultimately, negotiations and, you know, settlement	8	Mr. Bakke. You can continue.
9	with individual landowners. But, yeah, they'll have	9	MR. BAKKE: Okay. Thank you, Your Honor.
10	reasons.	10	Q. (BY MR. BAKKE) Mr. Boeshans, at your prior
11	Q. What are the reasons they're offering?	11	testimony, you testified about meetings you had after
12	A. Sometimes it's money; they want more. Sometimes	12	the initial Summit application was denied on August 4,
13	it's "We want to wait to see how the PSC hearing goes."	13	2023, with the Bismarck intervenors. Do you recall that
14	Sometimes it's, you know, not all the family members	14	testimony?
15	agree on an easement and so it's divided amongst	15	A. I do.
16	multiple you know, there's multiple parties involved.	16	Q. Okay. And there were three Bismarck
17	So, I mean, there's a variety of reasons why people	17	intervenors: Dr. Warford, Chad Moldenhauer, and Chad
18	would not want to to sign an easement. Could be	18	Wachter; correct?
19	related to safety. They still have safety concerns that	19	A. That's correct.
20	are not yet addressed. So, again, there's a variety of	20	Q. Okay. And when did you have a meeting with
21	reasons why people would, you know, not enter into	21	Mr. Chad Moldenhauer after August 4, 2023, regarding the
22	you know, into an easement.	22	Summit pipeline?
23	What I can tell you is when we like I	23	A. As I said in my written testimony and my verbal
24	testified to last time, you know, when we initially	24	testimony last time, I did not have a face-to-face
25	started selecting a route around Bismarck and we were	25	meeting with Chad Moldenhauer. I indicated that I
	PAGE 141		PAGE 143
	FAGE 141		
1		1	contacted Chad Moldenhauer.
1 2	able to get have lots of different meetings with the		contacted Chad Moldenhauer.
2	able to get have lots of different meetings with the vast majority of the landowners along the route and	2	Q. Well, I'm reading from the transcript where you
	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them,		contacted Chad Moldenhauer.
2	able to get have lots of different meetings with the vast majority of the landowners along the route and	2	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you
2 3 4	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those	2 3 4	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings
2 3 4 5	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we	2 3 4 5	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate?
2 3 4 5 6	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was	2 3 4 5 6	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of
2 3 4 5 6 7	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement	2 3 4 5 6 7	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate?
2 3 4 5 6 7 8	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's	2 3 4 5 6 7 8	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with
2 3 4 5 6 7 8 9	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions	2 3 4 5 6 7 8 9	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three.
2 3 4 5 6 7 8 9	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners.	2 3 4 5 6 7 8 9	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and
2 3 4 5 6 7 8 9 10	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in	2 3 4 5 6 7 8 9 10	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John
2 3 4 5 6 7 8 9 10 11	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right	2 3 4 5 6 7 8 9 10 11	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023?
2 3 4 5 6 7 8 9 10 11 12	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so	2 3 4 5 6 7 8 9 10 11 12	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023? A. I don't recall specifically or have the specific
2 3 4 5 6 7 8 9 10 11 12 13	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so they've asked that we break at 12:20 to make that 12:30	2 3 4 5 6 7 8 9 10 11 12 13 14	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023? A. I don't recall specifically or have the specific date in front of me. I believe it was around
2 3 4 5 6 7 8 9 10 11 12 13 14 15	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so they've asked that we break at 12:20 to make that 12:30 commitment.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023? A. I don't recall specifically or have the specific date in front of me. I believe it was around September 7th, I want to say it was.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so they've asked that we break at 12:20 to make that 12:30 commitment. MR. BAKKE: Okay.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023? A. I don't recall specifically or have the specific date in front of me. I believe it was around September 7th, I want to say it was. Q. And where did you meet?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so they've asked that we break at 12:20 to make that 12:30 commitment. MR. BAKKE: Okay. ALJ HOGAN: So we are going to take our lunch	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. And you were making that comment in relation to after August 4, 2023. Is that testimony inaccurate? A. No. I believe if you look in the beginning of that testimony where I was very specific to I met with two, I contacted all three. Q. Yeah, I don't see that in the transcript and I've reviewed it. But when did you meet with John Warford after August 4, 2023? A. I don't recall specifically or have the specific date in front of me. I believe it was around September 7th, I want to say it was. Q. And where did you meet? A. We met in our office in Bismarck.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	able to get have lots of different meetings with the vast majority of the landowners along the route and ultimately secure the permission to survey from them, and from that survey and our interactions with those landowners we were able to define the route. And it was no secret, we were very much upfront with "Hey, when we find a route, we're going to be back to talk easement terms." And so that's where we you know, that's where we continued to to advance those discussions with with landowners. Q. Well, in ALJ HOGAN: Mr. Bakke, I need to stop you right there. The commissioners have a commitment at 12:30 so they've asked that we break at 12:20 to make that 12:30 commitment. MR. BAKKE: Okay. ALJ HOGAN: So we are going to take our lunch break and we will pick up at 1:30.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	contacted Chad Moldenhauer. Q. Well, I'm reading from the transcript where you said, quote, "So as I mentioned, had numerous meetings with Bismarck area intervenors," end quote. 	ND PUBLIC SERV		- 001/11/11/001/014
1	Q. And where were these meetings at?	1	received.
2	A. Once was at once was at the Petroleum Council	2	Q. (BY MR. BAKKE) And then Figure 1 on page 8 of
3	office in Bismarck and another time was at the	3	BC-100, that shows the reroute being proposed by Summit
4	University of Mary.	4	in Burleigh County; correct?
5	Q. And you mentioned there was a third time. Where	5	A. Yeah. I would say this looks to be conceptual
6	was that at?	6	in nature. This this looks like what was filed in
7	A. I mentioned I met with him three times. The	7	as part of the reconsideration; is that correct?
8	first time, we met at Kroll's Diner downtown.	8	Q. Right. By Summit.
9	Q. And the meeting at the Petroleum Council when	9	A. Yeah, that's correct.
10	you met with Mr. Wachter, what was the purpose of that	10	Q. Okay.
11	meeting?	11	A. But that's not the route today exactly. I mean,
12	A. So, you know, as I indicated in my testimony, we	12	there was this was the preliminary route. There's
13	in my written and and verbal testimony this past	13	been lots of changes to the exact route location and
14	time, I met with the very first of these meetings was	14	through the engagement with landowners and determining
15	to understand their concerns and, you know, include them	15	of the route that's actually filed in the in the
16	in you know, as we moved forward and developed the	16	docket today.
17	project, developed the route, to, as best we could,	17	Q. But no changes on the original route to the east
18	address the concerns of various stakeholders, which is,	18	of Bismarck near Silver Ranch; correct?
19	you know, why I reached out to the intervenors	19	A. Yeah, that's correct.
20	specifically, to make sure I fully understood what their	20	Q. Okay. That's remained the same?
21	concerns were and could, you know, do my best to address	21	A. That's correct.
22	them as we rerouted the project.	22	Q. Okay. And if we look at the blue, that's the
23	Q. Did you indicate to Mr. Wachter when you met	23	original route, and then the reroute is the pinkish or
24	with him on any of these three occasions that under the	24	reddish color on Figure 1; correct?
25	proposed reroute by Summit there was any change in the	25	A. Yeah. That's the approximate reroute. Again,
	PAGE 145		PAGE 147
1	location of the Summit pipeline from the original route	1	as I mentioned, there was numerous changes between the
2	on the east side of Bismarck near Silver Ranch?	2	filing of this and the filing of the updated route in, I

Burleigh County 100 is the first page of the Petition for Reconsideration Notice of Route Adjustment and Request for Limited Rehearing from Summit. And then the second page is page 8 of that Petition For	3 4 5 6 7 8 9 10 11 12 13 14 15	believe it was the 1st around about the 1st of November. Q. We'll talk a little bit more about this in a few minutes, but, first of all, at your prior testimony, you talked about landowners who had been, quote, "pressured by others," unquote. And when you say "pressured by others," who are you talking about? A. I'm talking about they were pressured by other people. You know, as we filed in the docket, they'd all, you know, received a letter from the North Dakota Easement Team, had received follow-ups on that letter and yeah, so that's what I'm talking about. Q. Well, have you talked or have you been present
3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. No. What I indicated to him was that there was no change to the route directly to the east. We didn't change the crossing of, you know, I-94 and, roughly, the first four, five miles going north thereabouts as is shown on on the exhibit that's in the map book here. Q. Okay. And if you would look at Exhibit 100, Burleigh County 100 A. That's in this this book? Q. Should be the first one. Burleigh County 100 is the first page of the Petition for Reconsideration Notice of Route Adjustment and Request for Limited Rehearing from Summit. And then the second page is page 8 of that Petition For Reconsideration, which has a map on the top called	3 4 5 6 7 8 9 10 11 12 13 14 15 16	believe it was the 1st around about the 1st of November. Q. We'll talk a little bit more about this in a few minutes, but, first of all, at your prior testimony, you talked about landowners who had been, quote, "pressured by others," unquote. And when you say "pressured by others," who are you talking about? A. I'm talking about they were pressured by other people. You know, as we filed in the docket, they'd all, you know, received a letter from the North Dakota Easement Team, had received follow-ups on that letter and yeah, so that's what I'm talking about. Q. Well, have you talked or have you been present when any you've overheard some landowners say, "Gee,
3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. No. What I indicated to him was that there was no change to the route directly to the east. We didn't change the crossing of, you know, I-94 and, roughly, the first four, five miles going north thereabouts as is shown on on the exhibit that's in the map book here. Q. Okay. And if you would look at Exhibit 100, Burleigh County 100 A. That's in this this book? Q. Should be the first one. Burleigh County 100 is the first page of the Petition for Reconsideration Notice of Route Adjustment and Request for Limited Rehearing from Summit. And then the second page is page 8 of that Petition For Reconsideration, which has a map on the top called Figure 1 in Summit's Petition For Reconsideration.	3 4 5 6 7 8 9 10 11 12 13 14 15 16	believe it was the 1st around about the 1st of November. Q. We'll talk a little bit more about this in a few minutes, but, first of all, at your prior testimony, you talked about landowners who had been, quote, "pressured by others," unquote. And when you say "pressured by others," who are you talking about? A. I'm talking about they were pressured by other people. You know, as we filed in the docket, they'd all, you know, received a letter from the North Dakota Easement Team, had received follow-ups on that letter and yeah, so that's what I'm talking about. Q. Well, have you talked or have you been present when any you've overheard some landowners say, "Gee, I got pressured by someone not to enter into an easement
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. No. What I indicated to him was that there was no change to the route directly to the east. We didn't change the crossing of, you know, I-94 and, roughly, the first four, five miles going north thereabouts as is shown on on the exhibit that's in the map book here. Q. Okay. And if you would look at Exhibit 100, Burleigh County 100 A. That's in this this book? Q. Should be the first one. Burleigh County 100 is the first page of the Petition for Reconsideration Notice of Route Adjustment and Request for Limited Rehearing from Summit. And then the second page is page 8 of that Petition For Reconsideration, which has a map on the top called Figure 1 in Summit's Petition For Reconsideration. A. Yeah. I see the figure.	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	believe it was the 1st around about the 1st of November. Q. We'll talk a little bit more about this in a few minutes, but, first of all, at your prior testimony, you talked about landowners who had been, quote, "pressured by others," unquote. And when you say "pressured by others," who are you talking about? A. I'm talking about they were pressured by other people. 	ND PUBLIC SERV	-	
1	A. I was not.	1	to the proposed reroute location?
2	Q. Okay. So anything you would know on that topic	2	A. Like I said, I think it's always good business
3	is hearsay from somebody else because you weren't there?	3	practice, if you will, to be transparent. I'm not sure
4	A. It's just what the landowners had told me.	4	who you're referring to as the parties but certainly
5	Q. And so is there anybody who's going to come and	5	want to be transparent, and I believe we have been.
6	testify for Summit that they were pressured by others	6	Q. Well, should Summit be transparent on
7	not to enter into easements with Summit, to your	7	information regarding the reroute to my client, Burleigh
8	knowledge?	8	County?
9	A. Not that I'm aware of.	9	A. Well, yes.
10	Q. I want to talk about the alternative southern	10	Q. Okay. And to the public in Burleigh County as
11	route around Bismarck. And that's something you	11	well?
12	provided some testimony about, but so did Mr. Powell.	12	A. Yes.
13	What knowledge do you have about the possible southern	13	Q. Okay. And to landowners in Burleigh County as
14	alternative route around Bismarck?	14	well?
15	A. Yeah, just my my knowledge is that the	15	A. Yes.
16	southern route analysis was completed and it was filed	16	Q. And do they have a responsibility to be honest
17	into the docket. I was not involved in the analysis so	17	and forthcoming regarding information on the proposed
18	I can't speak to the detail or the specifics of the	18	reroute around Bismarck?
19	southern route analysis.	19	A. Yes.
20	Q. Okay. So you didn't make any personal contacts	20	Q. Okay. Take a look at the map we've been talking
21	yourself in regards to the viability of a southern route	21	about on page 8 of BC-100.
22	around Bismarck for the Summit pipeline?	22	A. Sure.
23	A. I did not.	23	Q. Who prepared
24	Q. Would that have been Mr. Powell?	24	A. On page 8?
25	A. Yes, that would have been Mr. Powell or it was	25	Q. Page 8, Figure 1. Second page of BC-100.
	PAGE 149		PAGE 151
1	under his direction.	1	A. Okay.
1 2	under his direction.Q. But you did talk about in your prior	2	Q. Okay. Do you have that in front of you?

	ND PUBLIC SERV		
1	Q. Are the landowner names on here somewhere? Did	1	readily recognize whether their land was affected by the
2	I miss	2	Summit pipeline?
3	A. No. I would say most landowners would know what	3	A. No, I can't. It wasn't intentional.
4	property they own, section, township, range, etcetera.	4	Q. Did Summit do anything to alert adjacent
5	If I owned property, I would know where it's at.	5	landowners to the reroute location that Summit was
6	Q. Well, you may or may not.	6	proposing that the reroute would be located close to
7	A. Without somebody putting it on a map is my	7	their land?
8	point.	8	A. We did not take steps to notify adjacent
9	Q. Well, you may or may not; correct? Can we agree	9	landowners of the planned reroute on adjacent
10	to that?	10	properties.
11	A. Well, I would say it would be unusual for a	11	Q. Okay. And you would agree with me, based on
12	landowner not to know that they own section 1, 2, or 3,	12	Figure 1 on page 8 of BC-100, those nearby landowners
13		13	
	or whatever, what properties they own.		wouldn't be able to figure it out based on that map with
14	Q. My	14	with no landmarks around the reroute; correct?
15	A. I guess it's possible.	15	A. Yeah, I would say it's likely that they, yeah,
16	Q. Yeah. Might depend on if they lived there;	16	wouldn't be able to pick out the exact parcel that the
17	correct?	17	line was crossing or may not be able to.
18	A. Depend on if they lived on the property?	18	Q. At your prior testimony, you talked about a
19	Q. On the property.	19	preliminary study of anticipated power with Minnkota.
20	A. I guess it could.	20	Has that been provided by Summit?
21	Q. Okay. Might depend if they lived nearby;	21	A. Say this again. I'm not sure what you're
22	correct?	22	referring to.
23	A. I don't really understand the question in terms	23	Q. Well, I'm looking at page 60. And you
24	of	24	indicated, as of April 22nd, Summit had completed a
25	Q. Well, my point here is you're telling us Summit	25	preliminary study of an anticipated power agreement with
	PAGE 157		PAGE 159
1	has got a responsibility to be transparent?	1	Minnkota and you and Summit were asked to submit a copy,
2	A. Uh-huh.	2	and I believe it was Mr. Bender said there would be no
3	Q. And we're seeing information that doesn't even	3	problem in doing so.
4	identify the names of the landowners whose property is	4	My question is was that done? Was it provided
5	affected; correct?	5	to the PSC and to the parties in this matter?
6	A. It does not identify the names of the landowners	6	A. Yeah, so what I was indicating was not with
7	or who owns these parcels.	7	Minnkota Power. It was with Roughrider Electric who is
8	Q. Okay.	8	the electric cooperative that would serve the power to
9	A. But as a landowner, I would tell you that I know	9	the sequestration area. In Oliver and Mercer County,
10	what section, township, range I own property at.	10	that's their service territory.
11	Q. Well, I think that's commendable that you do,	11	Q. So there was no anticipated power agreement with
12	but there are many landowners who don't live near their	12	Minnkota?
13	land; correct?	13	A. No, not with Minnkota.
14	A. Yeah, there may be.	14	Q. And if I'm recalling correctly, Roughrider
15	Q. Okay. There's landowners who live out of state?	15	Electric is in Stark County?
16	A. Sure, yeah.	16	A. No. It's in well, it's in Oliver and Mercer
17	Q. Much of this land has turned over so that now	17	County. I think it combined with a number of
18	another generation owns this land; correct?	18	different of the co-ops combined and formed
19		19	•
	A. I would say certainly other generations own		Roughrider Electric so I don't know exactly their
20	land, but I'll tell you, working on this reroute, most	20	footprint, but I know that they are the cooperative that
21	of the people that whose property we're on lived	21	serves Oliver and Mercer County.
22	here, not all of them but most of them.	22	Q. Okay. Is that just going to be electric power
23	Q. Can you explain to me why Summit, when it was	23	for the sequestration area only in Oliver County?
24	publicly available information, didn't just put the	24	A. That's correct.
25	landowners' names on the property so people could more PAGE 158	25	Q. Okay. So getting back to any power agreement, PAGE 160

	THE TOBETO CETAL	T .	
1	is there any power agreement with Summit in Burleigh	1	A. Yeah, those would be better questions for Jimmy.
2	County to provide electricity to the Summit pipeline	2	Q. Okay. Okay. So, briefly, let's turn back to
3	here in Burleigh County?	3	that November 27, 2023, meeting with the emergency
4	A. So I'm not aware of a specific, you know, power	4	planning people in Burleigh County. And then in terms
5	purchase agreement. You know, Jimmy may be able to	5	of this two-dimensional presentation, the PowerPoint, in
6	testify to that.	6	relation to the dispersion modeling, was that
7	What I can tell you is that, you know, we've	7	two-dimensional to the extent you can do that in a
8	reached out to all of the cooperatives. They've, you	8	two-dimensional fashion, was that specific to Burleigh
9	know, done their load studies. And, you know, we filed	9	County or was that just generic information about the
10	the the response in the docket of that information	10	Summit pipeline in general?
11	that, you know, basically indicated that the we'd	11	MR. GLUDT: Objection, Your Honor. The
12	engaged with the cooperatives, we they'd affirm that	12	PowerPoint presentation that Mr. Bakke is referencing
13	they could serve the load, they'd done the system	13	has been filed under the protective order with the
14	analysis to determine what system improvements are	14	Commission for their review. I think he's getting into
15	required. I believe they're itemized in that filing. I	15	the details of what this PowerPoint does or does not
16	don't have it in front of me. And, you know, itemizes	16	show, which is subject to our protective order.
17	out, you know, these are the system improvements and the	17	ALJ HOGAN: Can you repeat your question?
18	cost of those improvements and the amount of load that	18	MR. BAKKE: Sure. What I'm asking about is the
19	they would be serving, etcetera.	19	two-dimensional presentation, which, incidentally, was
20	Q. Well, except for I thought you told me earlier	20	not a dispersion model or plume model. He's already
21	today in your testimony that you can't tell me the	21	said it wasn't a video, it wasn't a simulation, it
22	details of where the power is going to come from for the	22	wasn't real time. It was just
23	Summit pipeline in Burleigh County, what happens if it	23	ALJ HOGAN: I think he's already answered that
24	gets interrupted, what happens if the pipeline were to	24	question.
25	shut down due to lack of power. You can't address any	25	MR. BAKKE: He said it was just a PowerPoint
	PAGE 161		PAGE 163
1	of those issues; correct?	1	presentation. And what I'm asking about, whether it
2	A. Yeah, that's correct. I could address them	2	accounted for whether it related specifically to
3	generically, but specifically, you know, Jimmy's going	3	Burleigh County or was it just two-dimensional
4	to be in a better position to answer that question	4	information generic about could be a location
5	because that's under his, you know, area of	5	anywhere on the pipeline.
6	responsibility and his team has been working on those	6	ALJ HOGAN: I'll allow him to answer that
7	things.	7	question.
8	Q. Mr. Powell?	8	A. Yes, I would say that it was both. There was
9	A. Mr. Powell.	9	portions that were specific to Burleigh County and there
10	Q. Okay.	10	were portions that were more general or generic in
11	A. What I can tell you is, you know, I know what's	11	nature.
12	been filed in the docket, I saw it, you know, reviewed	12	Q. (BY MR. BAKKE) Okay. And when you say
13	it	13	"specific to Burleigh County," what components were
14	Q. Sure.	14	specific to Burleigh County? And let me and just a
15	A it was filed, those kinds of things, which,	15	few to speed this up. Was it specific as to certain
16	again, the specific loads and the specific cooperatives	16	topography in Burleigh County?
17	are identified, you know, in that table and in that	17	A. Yes. I believe topography was part of it, of
18	filing.	18	the specific nature.
19	Q. But that's something different than what I'm	19	Q. When you say "topography was part of it," what
20	asking about. I'm asking about what happens if there	20	do you mean by that?
21	isn't power, what happens to the pipeline if it goes	21	A. What I mean is there's lots of different
22	without power, what's required to start it back up, what	22	variables that go into developing dispersion modeling,
23	happens to the volume, what happens to the pressure in	23	and one of them is topography. You know, so you have
24	the pipeline. You can't answer any of those questions;	24	the actual X, Y, Z location, which the Z is the
25	correct? That's not in the filings.	25	topography element of it. And so there were parts of
	PAGE 162		PAGE 164
		-	

	IND PUBLIC SERV		
1	that that were specific to Burleigh County.	1	was showing or predicting an output in any direction of
2	Q. Okay.	2	wind at the same speed, right. So regardless of what
3	ALJ HOGAN: Mr. Boeshans, can you pull your mic	3	the wind direction would be, it would influence the
4	closer to you?	4	you know, the dispersion, but the the outputs that we
5	THE WITNESS: Sure.	5	were looking at were referencing, well, if if the
6	ALJ HOGAN: Thank you.	6	wind could be any direction. So it was like looking at
7	Q. (BY MR. BAKKE) So it wasn't just a	7	a 360 around a point and said, well, if the wind was
8	two-dimensional model that presumed the it was flat	8	from the south it would be up, if it was from the north
9	where the dispersion modeling took place, the ground was	9	it would be down, those kinds of things.
10	flat?	10	Q. Do you know what a real-time video or real-time
11	A. So what I would say is the you asked me	11	presentation is?
12	earlier, was this a two-dimensional presentation. Well,	12	A. No, I don't.
13	it was two-dimensional in the fact that it was on a	13	Q. Okay. So let's say, hypothetically, you say,
14	screen, right, and we showed slides. But in terms of,	14	okay, this is going to show you simulated conditions
15	you know, the output specifically that we were looking	15	where the wind speed is one mile an hour and then we're
16	at, you know, they contemplated lots of different input	16	going to gradually progress it on the video or the
17	variables. And so that's the best way for me to	17	real-time presentation up to 45 miles per hour.
18	describe it to you.	18	A. Sure.
19	Q. Okay. But	19	Q. This wasn't that type of presentation?
20	A. To make it, a flat piece of paper,	20	A. It was not.
21	three-dimensional was not easy so it's on a screen.	21	Q. Okay. It was certain static conditions,
22	That's what I was trying to respond to you with.	22	correct, an assumed wind speed at X miles an hour?
23	Q. Right. But my point is, if it's not	23	A. That's correct.
24	three-dimensional, it can't account for changes in	24	Q. Okay. It didn't account for if the wind speed
25	elevations or topography; correct?	25	or direction changed?
	PAGE 165		PAGE 167
1	A. Yeah, I think that's correct.	1	A. It accounted for direction change, but not for
1 2	A. Yeah, I think that's correct.Q. Okay. And then did it account for any	2	A. It accounted for direction change, but not for speed change. It was assuming an input of a certain
2	Q. Okay. And then did it account for any	2	speed change. It was assuming an input of a certain speed.Q. Did it account for variable humidity?
2	Q. Okay. And then did it account for any particular wind speed and wind direction?	2	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I
2 3 4	Q. Okay. And then did it account for any particular wind speed and wind direction?A. Yes. There we were looking at a scenario	2 3 4	speed change. It was assuming an input of a certain speed.Q. Did it account for variable humidity?
2 3 4 5	 Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those 	2 3 4 5	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I
2 3 4 5 6 7 8	 Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. 	2 3 4 5 6	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable.
2 3 4 5 6 7	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not.	2 3 4 5 6 7	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the
2 3 4 5 6 7 8 9	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck,	2 3 4 5 6 7 8	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation
2 3 4 5 6 7 8 9 10	 Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical 	2 3 4 5 6 7 8 9 10	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to
2 3 4 5 6 7 8 9 10 11	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct?	2 3 4 5 6 7 8 9 10 11	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that.
2 3 4 5 6 7 8 9 10 11 12	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a	2 3 4 5 6 7 8 9 10 11 12	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2
2 3 4 5 6 7 8 9 10 11 12 13 14	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it	2 3 4 5 6 7 8 9 10 11 12 13 14	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline?
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs into into a model.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	speed change. It was assuming an input of a certain speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183. Q. What volume of CO2 did it account for as being
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs into into a model. Q. Okay. But the model did not account for wind	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183. Q. What volume of CO2 did it account for as being in the pipeline?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs into into a model. Q. Okay. But the model did not account for wind direction, just an assumed wind speed; correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183. Q. What volume of CO2 did it account for as being in the pipeline? A. I don't recall.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs into into a model. Q. Okay. But the model did not account for wind direction, just an assumed wind speed; correct? A. Yeah, that's that's correct. As I recall,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183. Q. What volume of CO2 did it account for as being in the pipeline? A. I don't recall. Q. Was it a single volume or did it have the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. Okay. And then did it account for any particular wind speed and wind direction? A. Yes. There we were looking at a scenario with a set of assumptions, one of included in those assumptions would be wind speed. Q. Okay. And did it assume a certain wind direction? A. It did not. Q. Okay. Versus in Burleigh County or Bismarck, north of Bismarck, there would be a certain typical prevailing wind direction; correct? A. Yeah, there's I'm guessing there's a prevailing wind direction. It's probably the same as it is at my house. It's northwest. Q. Okay. And then the same if if it was determining wind direction from east of Bismarck, that would there would be a prevailing wind direction for that as well; correct? A. Yeah. Wind direction, wind speed are all inputs into into a model. Q. Okay. But the model did not account for wind direction, just an assumed wind speed; correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	speed. Q. Did it account for variable humidity? A. I don't recall what the humidity was, but I don't believe it was variable. Q. Did it consider or account for the Pasquill-Gifford atmospheric stability class rating? A. So now you're getting far enough into the details of the dispersion modeling and the presentation that I can't answer that specifically. You'd have to have one of the experts talk to that. Q. Did it account for the pressure inside the CO2 pipeline? A. I believe so, yes. Q. What was the assumed pressure? A. I don't recall specifically. I believe it was maximum operating pressure. Q. Which would be what? A. 2,180 or 2,183. Q. What volume of CO2 did it account for as being in the pipeline? A. I don't recall.

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

what they did in a two-dimensional study of what they're condition we're assuming the pipeline's a guarter full, 2 under this condition we're assuming 50 percent full, 2 calling a dispersion modeling, which we don't believe 3 under this condition 75 percent full, etcetera? 3 was a dispersion model at all. The dispersion model is 4 A. So I don't think that matters, but again that --4 a three-dimensional real-time event that you're able to 5 because you're simulating what is the -- if it's adjust the parameters on that particular real-time 6 6 operating at maximum pressure, it's, you know, at video. And that's not what this was. 7 7 maximum pressure. And so the line is full and pressured ALJ HOGAN: Mr. Pelham, does the Commission have 8 8 to that amount, to that -- to that -- I guess to that a position on this? 9 9 pressure. So I don't know that it necessarily would MR. PELHAM: Yeah. Be that all as it may, there 10 have an impact but -- again, on the dispersion output, 10 is an order that deems it protected. And there was a 11 reconsideration motion filed yesterday by Burleigh because the amount of volume that's in the line and the 11 12 pressure that's on the line, I believe, would give you 12 County. Burleigh County's been an intervenor since 13 13 August of 2023. The protective order has been in place the same result. But, again, you'd have to have the 14 people that actually drove the model to answer that 14 since August of 2023. The protective order is the 15 question with more detail than I just did. 15 protective order. 16 Q. And do you know, did it account for how long the 16 I would also note that while this Commission is 17 17 leak would last? -- and considered safety a very important aspect of the 18 MR. GLUDT: Your Honor, I'm going to restate my 18 application, this Commission's jurisdiction related to 19 objection. Now we're getting progressively further and 19 safety is limited by federal law and PHMSA and this 20 20 further down into the weeds of what this dispersion Commission has limited ability to make specific 21 21 modeling showed and what -- essentially, he's just decisions and findings related to safety. The very fact 22 picking out details about the PowerPoint presentation, 22 that discussions between the company and Burleigh County 23 23 which, again, is filed subject to our protective order and its emergency responders is an indication, at least 24 and he's just eliciting information from the witness, 24 in my opinion, that safety is being addressed. 25 25 trying to gain information about this PowerPoint. As to the specifics of federal law that this **PAGE 169 PAGE 171** 1 ALJ HOGAN: Would you like to respond, 1 Commission does not have the ability to supersede, there 2 Mr. Bakke? 2 is a limit to this line of questioning. And I have not 3 MR. BAKKE: Yeah. I think we've outlined in our 3 interjected today as to this issue. I had previously 4 -- the reasons previously, but there's nothing under the last year when we had hearings, but there is a limit to 5 National Security Act that applies here at all. In fact 5 the jurisdiction that the Commission has as to the 6 6 they, in their filing, that's only a potential and that safety element. 7 7 doesn't apply. And I understand that wasn't the basis So I do think that we are starting to get into 8 for the PSC's prior order on this issue. It was the 8 these areas in which the Commission simply does not have 9 open records law. But this pipeline hasn't even been 9 the intrinsic and detailed abilities to weigh in as to 10 built and we're talking about emergency preparedness, 10 -- as to the safety issues. Because if it does, then 11 emergency management, you know, the citizens being able 11 the Commission's jurisdiction is effectively threatened 12 12 to know how they should prepare, what the concerns are. by a review in court. 13 None of that has anything to do with protected 13 Thank you. 14 14 information on the open records law. ALJ HOGAN: I went through the Commission's 15 I mean, you know, they're relying on this. It's 15 order too, and I know that at the April 22nd hearing 16 a sword and a shield. Now we're seeing the shield part 16 there was some testimony regarding coordination with 17 of it. They're saying, "Well, we've done the dispersion 17 local emergency management teams and departments, but I 18 modeling and everything looks fine," but yet they're 18 don't believe that was one issue that this matter was 19 using it as a shield to not allow us to question them 19 re-opened for. And I think that we have generally 20 about some of the parameters. 20 covered those conversations so I am going to sustain the 21 21 You know, so I'm just asking how long did the objection and not allow any further questions regarding 22 22 leak last. And that's not, you know, anything that's any type of modeling or substance as it -- as it goes to 23 23 protected, how long a leak might last and what what was discussed at that Burleigh County meeting. 24 24 conditions they considered. That's of no use to a MR. BAKKE: And, Your Honor, I'll just note for 25 25 the record there's also been some subsequent events terrorist or anybody else in relation to this pipeline,

     feeder line in Otter Tail County.
                                                                           issue, and as I understand the objection, is -- is
 7
                                                                       7
                                                                           getting into the specifics as to the modeling and
             And then subsequent to that in this case Summit
 8
     filed, on May 10, 2024, with the PSC information
                                                                       8
                                                                           aspects in which the Commission simply does not have the
 9
     identifying the emergency and first responders by county
                                                                       9
                                                                           jurisdiction to determine whether or not that meets the
10
     and other county officials who attended the SCS meetings
                                                                      10
                                                                           federal law. Federal law is what federal law is. And
11
                                                                      11
     from November 7, 2023, through May 16, 2023, and then
                                                                           the State, through the Public Service Commission, is
     they go on to say Summit shared Summit's dispersion
12
                                                                      12
                                                                           permitting the potential siting of a pipeline here.
13
     modeling methodology, generic model inputs, pipeline
                                                                      13
                                                                                   So to the extent that we're going outside of --
14
     hazardous materials, PHMSA requirements, relative
                                                                      14
                                                                           of the Commission's jurisdiction, that's my concern. I
15
     toxicity, potential CO2 release scenarios,
                                                                      15
                                                                           don't so much have a concern of Burleigh County and the
16
                                                                      16
                                                                           landowners intervenors' ability to question as to what
     shelter-in-place studies, emergency response plans and
17
     guidelines, and discussed specific training and
                                                                      17
                                                                           is being done for safety to ensure that the Commission
18
     equipment needs. We also invited emergency managers to
                                                                      18
                                                                           knows that something is being done for safety so that
19
     CO2 emergency responders training at Texas A&M
                                                                      19
                                                                           there is compliance with federal law. I think the
20
                                                                      20
     University. That's Docket 530.
                                                                           Commission does have a responsibility to do that. But
21
                                                                      21
             And that's specifically what I'm exploring, is
                                                                           as to the specific and the intricacies of that, that's
22
                                                                      22
     something they're relying on for their reapplication is
                                                                           where I question. Thank you.
23
                                                                      23
     that specific training, they're relying on potential CO2
                                                                                   ALJ HOGAN: I concur with that and I -- I can
24
     release scenarios, they're relying on generic model
                                                                      24
                                                                           recall now the last question that was asked before all
                                                                           this discussion, I do think that crossed the line. And
25
     outputs, they're relying on Summit's dispersion modeling
                                                                      25
                                                                                                                              PAGE 175
     methodology. And here we are at the point where I'm --
 1
                                                                       1
                                                                           I would also note that the Commission did make that
 2
     should have ability, we believe, to ask these types of
                                                                       2
                                                                           statement in its August 4th order, saying that safety
 3
     questions that they're relying on in support of their
                                                                       3
                                                                           compliance with PHMSA construction and operation is
 4
     application and now I can't even ask questions about it
                                                                           outside of its jurisdiction so...
 5
     for my client or for the benefit of the public and
                                                                       5
                                                                                   MR. BAKKE: Okay. And just to the note for the
 6
     landowners affected by the Summit pipeline.
                                                                       6
                                                                           record the topics that I -- I would have addressed with
 7
             MR. JORDE: Landowners join for the record.
                                                                       7
                                                                           this witness or other Summit witnesses on this would
 8
     Thank you.
                                                                       8
                                                                           include but are not limited to the bullet points on page
 9
             ALJ HOGAN: Mr. Pelham, maybe you could address
                                                                       9
                                                                           5 of our -- Burleigh County's Motion for Reconsideration
10
     this, but previous discussions about conversations with
                                                                      10
                                                                           of Order on Protect -- Protection of Information, Docket
11
     local management, emergency management services, in my
                                                                      11
                                                                           No. 364 or, in the alternative, for me to question
12
                                                                      12
     take, have been more general in nature and to address
                                                                           regarding dispersion model.
13
     whether or not those conversations were happening rather
                                                                      13
                                                                                   MR. JORDE: Landowners join.
14
     than the full substance of the issues and specifics
                                                                      14
                                                                                   ALJ HOGAN: All right. Well, I've already
15
     being discussed?
                                                                      15
                                                                           addressed the objection.
16
             MR. PELHAM: Thank you, Your Honor.
                                                                      16
                                                                                   MR. BAKKE: Okay. That's all the questions I
17
             Landowners Intervenors Exhibit 33 is a letter
                                                                      17
                                                                           have for this witness.
18
     dated September 15, 2023, from PHMSA to Mr. Lee Blank,
                                                                      18
                                                                                   ALJ HOGAN: All right. Mr. Jorde, did you have
19
     CEO of Summit Carbon Solutions, and on the second page
                                                                      19
                                                                           any questions for Mr. Boeshans?
20
     summarize effectively what the Commission's limitations
                                                                      20
                                                                                   MR. JORDE: Believe it or not, I do. Let's see.
21
                                                                      21
                                                                                                CROSS EXAMINATION
22
                                                                      22
                                                                           BY MR. JORDE:
             "Federal safety standards apply to both
23
                                                                      23
     interstate and intrastate pipeline facilities. Only
                                                                               Q. Okay. In your initial testimony on April 22nd,
24
     PHMSA can regulate the safety of interstate pipelines,
                                                                      24
                                                                           there was some discussion while you were testifying
                                                                           about shapefiles, and Mr. Braaten, I believe, was going

	ND PUBLIC SERV		
1	to speak or something with Mr. Bender. Are you aware,	1	Q. Now Mr. Bakke asked a little bit about a
2	sir, if the shapefiles for the maps, your proposed route	2	Minnkota-Summit relationship. I thought you previously
3	maps, have been shared with any other parties party	3	testified you had an agreement, that you signed a joint
4	in these proceedings other than the PSC itself?	4	development agreement with Minnkota in April 2022. Is
5	A. I'm not aware.	5	that true?
6	Q. You previously testified there were three	6	A. Yeah, that's correct.
7	landowners who had not give permission for survey	7	Q. Okay. And has a copy of that agreement been
8	relative to the Bismarck reroute. What are the names of	8	provided to the parties in this case?
9	those three landowners?	9	A. It has not.
10	A. They are Ray Wald, Jay Pahlke, and Brent	10	Q. Okay. Has a copy of that agreement been
11	Earsley.	11	provided to the PSC?
12	Q. You mentioned that Summit doesn't have any plans	12	A. It has not.
13	to condemn, but then I think you conceded that if the	13	Q. Now back to this meeting, I think you testified
14	PSC were to grant both your applications and there were	14	you attended five emergency management-type meetings
15	landowner holdouts on land where you wish to place your	15	where the PowerPoint that we discussed was shared with
16	hazardous pipeline, you would use the power of eminent	16	those who participated and attended; is that right?
17	domain against them; correct?	17	A. Yeah, that's correct.
18	MR. GLUDT: Objection. Asked and answered.	18	Q. And the meeting that you were recalling, the
19	ALJ HOGAN: Yeah, he already answered that.	19	November 2023 meeting in Burleigh County, did you say
20	MR. JORDE: Well, he	20	Commissioner Bitner was the only Burleigh County
21	Q. (BY MR. JORDE) Mr. Bakke's questions were	21	commissioner who attended?
22	premised specific to Burleigh County so I want to be	22	A. I don't recall who who else from the
23	sure that the record is clear that your your use of	23	commission was there. I recall Commissioner Bitner
24	eminent domain would not be limited to Burleigh County;	24	being there. There may have been another, but, again,
25	right? It would be anywhere on the line where Summit	25	I'd have to go back to the sign-in sheet to know.
	PAGE 177		PAGE 179
1	saw that necessary; correct?	1	Q. And that was my question. Has the sign-in sheet
1 2	saw that necessary; correct? A. Yeah, I would say my my answer is the same	1 2	Q. And that was my question. Has the sign-in sheet been produced to the parties in this case?
	_		
2	A. Yeah, I would say my my answer is the same	2	been produced to the parties in this case?
2	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county.	2	been produced to the parties in this case? A. I'm not sure.
2 3 4	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one	2 3 4	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to
2 3 4 5	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. 2 3 4 5 6 7 8 9 10 11	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct.	2 3 4 5 6 7 8 9 10 11	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear
2 3 4 5 6 7 8 9 10 11 12	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about	2 3 4 5 6 7 8 9 10 11 12	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person?
2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about A. We have an exclusive option.	2 3 4 5 6 7 8 9 10 11 12 13	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person? A. The fire chief for the City of Bismarck.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about A. We have an exclusive option. Q. I'm sorry?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person? A. The fire chief for the City of Bismarck. Q. Okay. Thank you very much.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about A. We have an exclusive option. Q. I'm sorry? A. I said we have an exclusive option to use the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person? A. The fire chief for the City of Bismarck. Q. Okay. Thank you very much. A. I recall meeting him at that meeting.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about A. We have an exclusive option. Q. I'm sorry? A. I said we have an exclusive option to use the pore space within our options agreements.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person? A. The fire chief for the City of Bismarck. Q. Okay. Thank you very much. A. I recall meeting him at that meeting. Q. Very good.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. You stated that if a landowner signs a lease for, I believe it was the pore space, that that's exclusive, meaning only the landowner could only work with or allow Summit to occupy their pore space; is that correct? A. Yeah, that's correct. Q. You talked about A. We have an exclusive option. Q. I'm sorry? A. I said we have an exclusive option to use the pore space within our options agreements. Q. Understood. And you have an option agreement	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	been produced to the parties in this case? A. I'm not sure. Q. Do you know if it's been produced or uploaded to the PSC's docket? A. I do not know that. Q. And without the sign-in sheet, you couldn't identify then who the emergency managers or first responders or other personnel who may have been in attendance; is that correct? A. I could not. Q. And did you mention a Boespflug I didn't hear you from the City of Bismarck? Who was that person? A. The fire chief for the City of Bismarck. Q. Okay. Thank you very much. A. I recall meeting him at that meeting. Q. Very good. Now, I don't want to go over everything we've
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yeah, I would say my my answer is the same regardless if it's Burleigh County or any other county. You know, I can't make a commitment or won't be the one to make a decision on will we use eminent domain or not use eminent domain. Q. 10	Summit believes that all of the content of the	10	Where would you go to find that information?
11	PowerPoint slides is confidential.	11	MR. GLUDT: I'm going to object, Your Honor.
12	ALJ HOGAN: I agree that he can't offer a legal	12	Mr. Jorde's on a discovery expedition right now. He's
13	conclusion or determination whether it falls under the	13	had the opportunity to conduct discovery. I think the
14	protective order, but I will allow him to answer as a	14	Petition for Reconsideration was granted September 15,
15	representative of Summit, in Summit's opinion, whether	15	2023, and here we are now on a discovery expedition.
16	or not they believe that slideshow falls under the	16	MR. JORDE: Well, the surprising fact is we've
17	protected information.	17	asked for numerous discovery that hasn't been provided.
18	A. I would say yes, the slideshow does fall under	18	The witness just said he has a place where he can find
19	protective information, which is, you know, why we asked	19	this information out. My question simply is where would
20	it to be protected.	20	that be.
21	Q. (BY MR. JORDE) And you believe then that each	21	ALJ HOGAN: I'll tell you what my concern is.
22	and every person that attended each and every one of the	22	I'm curious about the relevance. And I'll just note
23	meetings, not just in Burleigh County but across the	23	it's already 2:30 and we still have Mr. Powell to get
24	project in North Dakota, that all of those persons are	24	through today. So my concern is the relevance of these
25	also protected persons or, in other words, sir, persons	25	type of questions and multiple questions that are on the
L	PAGE 181	L	PAGE 183
1	that fall under some type of exception so that this data	1	same issue or asking the same thing. So I guess maybe
2	can remain confidential?	2	if you want to address relevance.
3	A. That's my understanding.	3	MR. JORDE: Certainly. If they showed he
4	Q. And in order to test that and see if there was	4	said there may have been overlap. If there's overlap
5	any person who participated that doesn't, in fact, and	5	with a landowner, there's a waiver. No landowner is
6	if it was a waiver of any claimed privilege, we would	6	under this protected alleged protected persons under
7	need the sign-in sheets from each and every meeting; is	7	whatever they're claiming it is. So that would be
8	that correct?	8	waiver of any confidentiality and we would have the
9	A. Yeah, I I guess I can't testify as to what	9	right to see whatever was provided.
10	you would need.	10	ALJ HOGAN: And, again, for the purpose of this
11	Q. Okay.	11	hearing, I doesn't seem like this is an efficient use
12	A. I just don't have an answer for you.	12	of our time.
13	Q. Sure. But you required anyone who attended to	13	I guess, Mr. Boeshans, if you know the answer,
14	sign in. Is that true?	14	you can answer.
15	A. My recollection is there was sign-in sheets at	15	A. Yeah, as I said, I don't believe there's
16	these meetings.	16	overlap, but, again, I don't want to testify to that
17	Q. But it wasn't mandatory to sign in?	17	without confirming.
18	A. I don't I can't recall that everybody did or	18	Q. (BY MR. JORDE) I know. And I can move on. I
19	didn't sign in, is my point.	19	just want to know what would you look at to confirm.
20	Q. All right. Did you maintain did you or did	20	That's all I want to know.
21	you notice if Mr. Daum or Mr. Powell maintained any	21	A. I would look at the presentation that we used
22	handwritten notes as a part of these meetings?	22	with the landowners and compare it to the presentation
23	A. I didn't notice that.	23	we used with the emergency managers.
24	Q. Did you maintain any?	24	Q. Okay. And the presentation used with landowners
25	A. I did not.	25	specifically, is that something that Summit has provided

	ND PUBLIC SERV	. •	
1	to the PSC?	1	those 500-foot waivers, did you share did Summit
2	A. It is not.	2	share dispersion or risk modeling with the person who
3	Q. All right. You had stated that you met with	3	provided the waivers?
4	landowners because you wanted to understand their	4	A. Did we share dispersion or risk modeling with
5	concerns. Is there any reason you haven't met with, in	5	Q. Yeah. In other words
6	the last year, any of my clients relative to their	6	A. Who's
7	concerns?	7	Q. Yeah. You approached someone you testified
8	A. Yeah. Because to the best of my knowledge,	8	that you have a there's a setback waiver on the
9	they're not on the reroute around Bismarck and that was	9	Bismarck reroute. Do you recall that?
10	the portion of the route that I was focused on or	10	A. Yes.
11	working on.	11	Q. All right. And you said you have it. And I
12	Q. Okay. So if for anyone else, I should direct	12	assume you approached them, and in order to get it,
13	that to Mr. Powell, correct, any non-Burleigh County	13	you're trying to persuade them to give you something.
14	reroute landowners. Is that your testimony?	14	Did you share with that person dispersion modeling or
15	A. Yeah. For for the most part, I've met with	15	risk analysis during your conversations to try to obtain
16	landowners outside of Burleigh County. You know, we've	16	their waiver?
17	been working on this project since 2021 and so there's,	17	A. No. We did not share dispersion modeling. I'm
18	you know, many landowners outside of Burleigh County, or	18	sure we talked about, you know, risks. That was a
19	several I don't want to be too liberal with my	19	common topic of conversation with landowners, is what
20	language there but I've met many landowners over the	20	are the risks and potential leakage scenarios, and that
21	course of the last close to three years now as I was	21	type of information was frequently discussed. But if
22	across the footprint of the state providing project	22	you're referring to sharing dispersion model outputs
23	overviews and introductions, going all the way back	23	like we did with emergency managers, no, we did not.
24	to 2021.	24	Q. Okay. So the information on the emergency
25	And in the course of that time, you know, I met	25	manager-type PowerPoint where you got into any details,

Now, sir, do you or your family own any lands or have interest in any land where the CO2 is planned to be sequestered or stored? MR. GLUDT: Objection. Relevance. ALJ HOGAN: I'll allow him to answer. A. I do not own any land in the sequestration area. I'm from Mercer County. My wife is from Mercer County.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	with the right people within our pipeline right-of-way team to, you know, get their questions answered and in some cases facilitated conversations around reroutes, etcetera. But my engagement with landowners was never specific to, you know, an attorney or whether they were represented. It was whoever would come and approach me and ask for my help, I would help them. And that's what I did. And some of them, I think, did end up being your clients. I met, you know, prior to you being their clients, quite frankly. But there was no reason to segregate one a landowner based on who what attorney represented them. It was just whoever reached out to me. And my standard was I'll take a meeting with anybody. And, you know, I found across the footprint of this project these are good North Dakota people and they like dealing with North Dakotans, and I'm a North Dakotan and I try to help them every chance I got. Q. Since the Wahpeton hearing a few days ago, have you reached out to me to do that?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	modeling, that would not have been shared with any of the landowners to whom you received waivers; correct? A. Not to my knowledge. Q. All right. Then on the you mentioned about there was some discussion about the ten-year tax incentive, that the county still gets the tax revenue, but you understand the State provides the money to the county. And would you agree to the counties. And would you agree that's, therefore, a cost to the citizen taxpayers of North Dakota? A. I would agree that the State of North Dakota is reimbursing the county with, you know with state revenues, which are in the form of taxes. Q. Now, sir, do you or your family own any lands or have interest in any land where the CO2 is planned to be sequestered or stored? MR. GLUDT: Objection. Relevance. ALJ HOGAN: I'll allow him to answer. A. I do not own any land in the sequestration area. I'm from Mercer County. My wife is from Mercer County. We're both fourth generation so we have lots of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	with the right people within our pipeline right-of-way team to, you know, get their questions answered and in some cases facilitated conversations around reroutes, etcetera. 1	extended family members do have ownership in the	1	were meeting with Roughrider Electric to determine
2	sequestration areas.	2	electric loads and electric supply and working directly
3	Q. And, sir, in your written testimony, on page 9	3	with Roughrider Electric.
4	it says that well, you were asked a question, what	4	COMMISSIONER HAUGEN-HOFFART: Regarding the
5	has Summit done to address the items on the order	5	sequestration.
6	denying the permit last August? And you said that "We	6	THE WITNESS: Yeah.
7	reviewed the order and discussed internally how best to	7	COMMISSIONER HAUGEN-HOFFART: Then on page 7,
8	address the deficiencies identified therein."	8	that table I'm going to refer you to
9	Who who was a part of that team that did that	9	THE WITNESS: Yes.
10	review? Yourself and who else?	10	COMMISSIONER HAUGEN-HOFFART: who prepared
11	A. I don't at all recall everybody that was part of	11	that table?
12	that without going back to but what I recall is that	12	THE WITNESS: I believe it was I believe it
13	included Jimmy Powell and Erik Schovanec, members of our	13	was Dave. I'm trying to remember Dave's last name but
14	environmental permitting team, safety team. It would	14	it was Dan Wood and Dave from Jimmy's team that lead
15	just be the project I would describe it as the	15	the electrical side of the pipeline. So they deal with
16	project leadership team that was reviewing and deciding	16	pump sizings and electric loads and all of that.
17	next steps.	17	COMMISSIONER HAUGEN-HOFFART: Okay. So it's
18	Q. All right. Thank you.	18	fair to say that a lot of some of the information in
19	MR. JORDE: I don't have anything further.	19	your testimony is given to you by members or employees
20	ALJ HOGAN: Mr. Pelham, any questions?	20	of Summit Carbon Solutions so you can
21	MR. PELHAM: No questions.	21	THE WITNESS: Yeah. This table specifically was
22	ALJ HOGAN: Commissioner Christmann.	22	given to me by others.
23	COMMISSIONER CHRISTMANN: I do not.	23	COMMISSIONER HAUGEN-HOFFART: Okay. Just one
24	ALJ HOGAN: Commissioner Haugen-Hoffart.	24	more follow-up question. There was a question asked of
25	COMMISSIONER HAUGEN-HOFFART: Yes. This morning	25	you since Wahpeton's meeting, which was just on Friday,
	PAGE 189		PAGE 191
1	you testified "not part of the discussion with the	1	we had a weekend and a holiday, you haven't had any
2	electrical suppliers"; is that correct?	2	communication with any of the landowners that testified;
3	THE WITNESS: That's correct.	3	correct?
4	COMMISSIONER HAUGEN-HOFFART: So I go to your	4	THE WITNESS: I have not.
5	testimony, on page 6, your question is "How does this	5	COMMISSIONER HAUGEN-HOFFART: Okay. That makes
6	project benefit North Dakota's energy industry?" And	6	sense. Everybody deserves a weekend and a holiday.
7	you referred to, in your response, "we." Who's "we"?	7	Is Summit willing and let me preface this.
8	I'll go to, like, line 16.	8	In Wahpeton we talked about landowners and measures
9	THE WITNESS: "We" is the company, Summit	9	taken to address the need of landowners. So my question
10	Carbon.	10	is, is Summit willing to take measures to address all
11	COMMISSIONER HAUGEN-HOFFART: Okay. So you're	11	landowners' needs who testified during hearings?
12	not included you're not included in the "we"?	12	THE WITNESS: We're
13	THE WITNESS: No. I am included in the "we."	13	COMMISSIONER HAUGEN-HOFFART: To to have
14	COMMISSIONER HAUGEN-HOFFART: Okay.	14	communication and and work with them on
15	THE WITNESS: We also have three sequestration	15	landowners?
16	injection wells, "we" being Summit Carbon.	16	THE WITNESS: You know, I would say we're or
17	COMMISSIONER HAUGEN-HOFFART: Okay. So at that	17	I can say affirmatively, yes, we're absolutely willing
18	point in time you're not part of any discussion with the	18	to meet with landowners and to work with them. You
19	electrical suppliers; correct?	19	know, whether or not we can address all of their
20	THE WITNESS: No. I was part of the discussion	20	concerns is another question. But absolutely we would
21	with electrical suppliers related to the sequestration	21	attempt to do that and welcome the opportunity to meet
22	facilities.	22	with them to to accomplish that.
23	COMMISSIONER HAUGEN-HOFFART: Okay.	23	COMMISSIONER HAUGEN-HOFFART: Okay. I have no
24	THE WITNESS: So my team members not me	24	further questions. Thank you.
25	specifically, but my team was under my leadership,	25	THE WITNESS: Yeah.
	PAGE 190		PAGE 192
1			

	ND 1 ODLIO OLIV		
1	ALJ HOGAN: Mr. Dawson, any questions?	1	to joining Summit, most of the previous decade trying to
2	SUBSTITUTE DECISIONMAKER DAWSON: No.	2	figure out how do we stay competitive in a over-supplied
3	ALJ HOGAN: Commissioner Christmann.	3	market.
4	COMMISSIONER CHRISTMANN: Sorry, Judge, but I	4	COMMISSIONER CHRISTMANN: Okay. No other
5	got so bogged down in all the safety discussion, I'm	5	questions. Thank you.
6	glad Commissioner Haugen-Hoffart asked the question	6	ALJ HOGAN: Mr. Gludt, any redirect?
7	about the electrical supply because I did have one in	7	MR. GLUDT: No, Your Honor.
8	that regard.	8	ALJ HOGAN: All right. Well, thank you,
9	I was surprised on at Wahpeton and again so	9	Mr. Boeshans.
10	much today that the level of alarm about that we're	10	THE WITNESS: You're welcome.
11	just no longer able to supply electricity for new loads	11	ALJ HOGAN: I think we'll take our afternoon
12	in North Dakota. I believe from April you mentioned	12	break now so that we don't have to stop in the middle of
13	Roughrider Electric, Capital Electric, and maybe it was	13	Mr. Powell's testimony. So why don't we take a short
14	Dakota Valley Electric, the third one where there would	14	break until 3:00.
15	be pump stations. Regardless, two, three. Did any of	15	And then if you want to get Mr. Powell ready to
16	those	16	go, we'll start with him at 3:00.
17	THE WITNESS: That's correct.	17	(Recess)
18	COMMISSIONER CHRISTMANN: cooperatives	18	ALJ HOGAN: All right. And I see we have
19	express any concern about their ability to serve the	19	Mr. Powell.
20	load?	20	Mr. Powell, I'll have you start by stating your
21	THE WITNESS: No, not to my not to my	21	full name for the record.
22	knowledge. Actually, when it was early in the project,	22	JAMES POWELL: Good afternoon. James Powell.
23	they were reaching out to me because of my North Dakota	23	ALJ HOGAN: And, Mr. Powell, I don't know if
24	presence, saying, "Hey, can you site the pump stations	24	you've been part of our hearing up to this point, but
25	in my service territory?" They were competing for it.	25	have you heard me go through the penalties for perjury
	PAGE 193		PAGE 195
1	Because, generally speaking, new load is a good thing	1	today?
2	for an electric utility or a cooperative.	2	JAMES POWELL: I have.
3	You know, in our case, as is outlined in what we	3	ALJ HOGAN: And do you understand what perjury
4	submitted here, you know, there's system upgrades that	4	is?
5	are required to serve this load, which the company would	5	JAMES POWELL: I do.
6	pay for, and makes the system more resilient, plus you	6	ALJ HOGAN: And being advised of the potential
7	get the additional benefit you I say the	7	penalties for perjury, do you promise to tell the truth
8	cooperative gets the additional benefit of serving that	8	in this case today?
9	additional load so they're going to have a higher volume	9	JAMES POWELL: I do.
10	of sales over, you know, the same amount of fixed costs.	10	ALJ HOGAN: All right. Thank you.
11	And so I'm presuming that's why they're reaching out to	11	And who's going first? Mr. Bakke?
12	me and saying, "Hey, how about putting your your pump	12	MR. JORDE: I will, Your Honor.
13	stations in our service territory versus across the	13	ALJ HOGAN: Okay. Go ahead.
14	border." And so that's been my experience.	14	MR. JORDE: All right. Thanks.
15	And, you know, kind of beyond that, as you know,	15	JAMES POWELL,
16	I led the Lignite Council for many years and was part of	16	being first duly sworn, was examined and testified as
17	the lignite industry. And our biggest challenge is we	17	follows:
18	had more generation than we had demand for that	18	CROSS EXAMINATION
19	generation and so we were curtailing our power	19	BY MR. JORDE:
20	generation. And our coal plants were running at less	20	Q. I see you're there with Mr. Leonard. Are you in
21	than full capacity because there wasn't enough market or	21	Des Moines today?
22	enough market demand.	22	A. I am.
23	And so I've been equally surprised by the level	23	Q. All right. Is there anyone else present in the
24	of concern and attention to we don't have enough power	24	room with you, sir?
25	to serve the load when I spent the last or most prior	25	A. There is. Jon Schmidt is in the room as well.
	PAGE 194		PAGE 196

	IND PUBLIC SERV		
1	Q. Okay. The same the same Jon Schmidt that	1	I was referencing, is it's evolved based on questions
2	provided prefiled written testimony in this matter;	2	from emergency managers and first responders. So the
3	correct?	3	first most recent presentations include toxicity tables,
4	A. Correct.	4	the API guidance on tactical response for CO2 that was
5	MR. JORDE: And I don't know, Brant, if you have	5	published since we began these these conversations
6	access to our exhibits there.	6	with the emergency managers, etcetera. So it's as new
7	Q. (BY MR. JORDE) But I was going to ask you,	7	information becomes available or we're responding to
8	sir, to pull up exhibit Landowner Exhibit 34, if you	8	inquiries in meetings, we update the slide deck
9	can. It's the organizational chart that you submitted	9	accordingly.
10	to us in the Iowa proceedings. And just let me know	10	Q. All right. And I appreciate that. And I'm
11	when you have that in front of you, please.	11	trying to just get specific. Of the types of
12	And, actually, while Mr. Leonard is searching	12	information you just listed off, have those all of
13	for that, I my question is fairly simple. In the	13	those that you've listed off, sir, been provided to the
14	North Dakota proceedings, you submitted a new	14	North Dakota PSC?
15	organizational chart, and in the North Dakota	15	A. I I think what we've covered has been. So
16	proceedings, in discovery, there's a new entity added	16	the API document, the CTEH study, and a slide deck. I
17	under the parent tree from Summit Carbon Solutions and	17	may be leaving one out. That's from memory.
18	that's SCS Farm Carbon LLC. The question, sir, is does	18	Q. All right. And then you talk about Texas A&M
19	that entity what is the role of that entity in North	19	University, a new program. Did Summit provide Texas A&M
20	Dakota, if any?	20	its dispersion modeling and any type of risk analysis
21	A. Mr. Jorde, I'd have to see the org chart because	21	for the benefits of that Texas A&M program?
22	the name does not ring a bell.	22	A. No.
23	Q. Okay. And I agree. That's why I had the	23	Q. All right. Do you have a copy of the program or
24	question. So I'll wait for Mr. Leonard to pull up 34	24	lesson plan? I understand it's relatively new.
25	and 35, please.	25	A. I do not. The program was developed it was a
	PAGE 197		PAGE 199
1	MR. LEONARD: Brian, I'm looking at prefiled	1	joint effort between ExxonMobil and Texas A&M, but
_		١ .	
2	hearing exhibits Part 1 and Part 2. They don't go up to	2	Mr. Daum and Mr. Dillon have both attended that training
3	hearing exhibits Part 1 and Part 2. They don't go up to 34 and 35. Is there another place I'd find those?	3	Mr. Daum and Mr. Dillon have both attended that training and have been part of that conversation.
			_
3	34 and 35. Is there another place I'd find those?	3	and have been part of that conversation.
3 4	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess	3 4	and have been part of that conversation.Q. And you testified that you routed off landowners
3 4 5	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went	3 4 5	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order
3 4 5 6	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if	3 4 5 6	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts,
3 4 5 6 7	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the	3 4 5 6 7	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting
3 4 5 6 7 8	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits.	3 4 5 6 7 8	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct?
3 4 5 6 7 8 9	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can	3 4 5 6 7 8 9	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but
3 4 5 6 7 8 9	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now.	3 4 5 6 7 8 9	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde,
3 4 5 6 7 8 9 10	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then	3 4 5 6 7 8 9 10	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number.
3 4 5 6 7 8 9 10 11	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go	3 4 5 6 7 8 9 10 11 12	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively
3 4 5 6 7 8 9 10 11 12 13	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster.	3 4 5 6 7 8 9 10 11 12 13	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other
3 4 5 6 7 8 9 10 11 12 13	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir,	3 4 5 6 7 8 9 10 11 12 13	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the
3 4 5 6 7 8 9 10 11 12 13 14 15	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time	3 4 5 6 7 8 9 10 11 12 13 14 15	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that?
3 4 5 6 7 8 9 10 11 12 13 14 15 16	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time here.	3 4 5 6 7 8 9 10 11 12 13 14 15 16	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that? A. Bruce I'm sorry, Mr. Bernhardt, I believe
3 4 5 6 7 8 9 10 11 12 13 14 15 16	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time here. When you gave your live testimony on April 22nd,	3 4 5 6 7 8 9 10 11 12 13 14 15 16	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that? A. Bruce I'm sorry, Mr. Bernhardt, I believe it's Kevin Bernhardt, the gentleman whose property we
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time here. When you gave your live testimony on April 22nd, you had stated that you updated dispersion modeling and	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that? A. Bruce I'm sorry, Mr. Bernhardt, I believe it's Kevin Bernhardt, the gentleman whose property we originally routed on? Are you talking about are you
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time here. When you gave your live testimony on April 22nd, you had stated that you updated dispersion modeling and then met with the emergency and first responders. My question is the is it the updated dispersion modeling you referenced since the late fall of 2021 that was provided to the PSC or does the PSC have an older	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that? A. Bruce I'm sorry, Mr. Bernhardt, I believe it's Kevin Bernhardt, the gentleman whose property we originally routed on? Are you talking about are you talking about Q. Yeah. A Mr. Bernhardt that we routed off of? Q. Routed off of.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	34 and 35. Is there another place I'd find those? MR. JORDE: Well, I would let's see. I guess I'd ask a question to Roseanne there, if that email went out, Roseanne, to all the parties. I'm not sure if Mr. Leonard specifically got the email with the exhibits. MR. DUBLINSKE: I have that pulled up. I can forward that to Mr. Leonard right now. MR. JORDE: I'd appreciate that, Bret. And then maybe if you could forward all of them and that will go a little faster. Q. (BY MR. JORDE) While we're doing that, sir, let me just get in a few other questions to save time here. When you gave your live testimony on April 22nd, you had stated that you updated dispersion modeling and then met with the emergency and first responders. My question is the is it the updated dispersion modeling you referenced since the late fall of 2021 that was provided to the PSC or does the PSC have an older version of your dispersion modeling?	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	and have been part of that conversation. Q. And you testified that you routed off landowners following the August 2023 denial, and the PSC order specifically named, for instance, Dotzenrod, Bernhardts, of my clients, but you you still are targeting approximately 14 or 15 of my clients; is that correct? A. Well, I'm not sure of the term "targeting," but we still may cross a number of your clients, Mr. Jorde, but I don't remember the number. Q. All right. And in order to reroute exclusively off the multiple Bernhardt properties and onto other non-Bernhardt-owned land, did you speak with the Bernhardts to do that? A. Bruce I'm sorry, Mr. Bernhardt, I believe it's Kevin Bernhardt, the gentleman whose property we originally routed on? Are you talking about are you talking about Q. Yeah. A Mr. Bernhardt that we routed off of? Q. Routed off of. A. Because we routed onto because when we routed

	ND PUBLIC SERV	IOL	_ 001/11/11/001/014
1	were receptive.	1	responders and emergency managers that we will provide
2	Q. Okay.	2	gas detectors, and nobody has requested any equipment or
3	A. We did not get permission or talk to Mr.	3	resources beyond that.
4	Bernhardt that we routed off of about routing onto	4	Q. And I have it that you testified that there were
5	adjacent property owners.	5	requests about documentation. What documentation was
6	Q. Okay. Correct.	6	requested?
7	And so for my clients who for well over a year	7	A. I'm not sure what you're referring to.
8	now who have expressed numerous issues, problems,	8	Q. These are in regards to the emergency manager
9	concerns, and who would like to see a reroute off their	9	meetings. You had testified that Mr. Dillon has a list
10	property, you wouldn't need to sit down and talk to them	10	from some of the emergency response managers, and then
11	in order to look at potential reroutes off their	11	you said there were requests about documentation. And I
12	property, would you?	12	just wanted to know if you know what documentation
13	A. Well, as I think Mr. Boeshans testified to, we	13	requests had been made relative to emergency management
14	welcomed an opportunity to talk with your clients and	14	personnel?
15	others. Been some discussion between your yourself	15	A. The only one that I remember is Ms. Senger
16	and Mr. Bender about providing survey access, etcetera,	16	well, I had that her last name correct, the emergency
17	to see what we could do to accommodate your landowners.	17	manager for, I believe, both Burleigh and Emmons, had
18	Q. Okay. And I think the question there was that	18	requested from Dave Daum a copy of our emergency
19	you wouldn't need to discuss anything with landowners if	19	response plan and, I believe, the presentation. And
20	you are routing off of them. Those discussions would	20	Mr. Daum immediately responded by providing I believe
21	have to be held with the adjacent or nearby landowners;	21	he provided a draft emergency response. I'd have to
22	correct?	22	verify. But, of course, we told Ms. Senger that the
23	A. That's correct.	23	presentation was confidential.
24	Q. And you made the statement that your	24	Q. And to clarify, the presentation, sir, is that
25	right-of-way team feels like they can obtain easements	25	PowerPoint presentation we've spent some time on?
	PAGE 201		PAGE 203
1	voluntarily. Who is on your right-of-way team?	1	A. That's correct.
2	A. Well, the right-of-way team in North Dakota has	2	Q. You were asked about conditional use permits and
3	obtained agreements with about 400 North Dakota	3	
	obtained agreements with about 400 North Dakota	١ ،	said none have applied for. And is that because you
4	landowners up to this point to get voluntary easements	4	said none have applied for. And is that because you don't have specific locations on where you might need
4 5	-		
	landowners up to this point to get voluntary easements	4	don't have specific locations on where you might need
5	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's	4 5	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh
5 6 7 8	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North	4 5 6 7 8	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them?
5 6 7 8 9	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who	4 5 6 7 8 9	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in
5 6 7 8 9	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native.	4 5 6 7 8 9	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan
5 6 7 8 9 10	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care	4 5 6 7 8 9 10	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan
5 6 7 8 9 10 11	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who	4 5 6 7 8 9 10 11	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The
5 6 7 8 9 10 11 12	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led	4 5 6 7 8 9 10 11 12 13	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application
5 6 7 8 9 10 11 12 13 14	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still	4 5 6 7 8 9 10 11 12 13	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two
5 6 7 8 9 10 11 12 13 14 15	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team?	4 5 6 7 8 9 10 11 12 13 14	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until
5 6 7 8 9 10 11 12 13 14 15 16	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team? A. Well, Mr. Rorie, he leads the overall land group	4 5 6 7 8 9 10 11 12 13 14 15 16	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with
5 6 7 8 9 10 11 12 13 14 15 16	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team? A. Well, Mr. Rorie, he leads the overall land group so that's for the entire project. Ms. DiMeo reports up	4 5 6 7 8 9 10 11 12 13 14 15 16	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with the pipeline route, believe it or not, the hydraulics
5 6 7 8 9 10 11 12 13 14 15 16 17	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team? A. Well, Mr. Rorie, he leads the overall land group so that's for the entire project. Ms. DiMeo reports up to Micah Rorie.	4 5 6 7 8 9 10 11 12 13 14 15 16 17	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with the pipeline route, believe it or not, the hydraulics are so sensitive that the pump station could move a
5 6 7 8 9 10 11 12 13 14 15 16 17 18	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team? A. Well, Mr. Rorie, he leads the overall land group so that's for the entire project. Ms. DiMeo reports up to Micah Rorie. Q. All right. You stated that Rod Dillon maintains	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with the pipeline route, believe it or not, the hydraulics are so sensitive that the pump station could move a parcel or two or three, and we want to make sure that
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. Ms. DiMeo reports up to Micah Rorie. Q. All right. You stated that Rod Dillon maintains a list of requests for equipment from first responders and other other folks or entities. Is that a list that's been filed with the PSC? A. It has not. In North Dakota, per my conversations with Mr. Dillon, that there have not been	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with the pipeline route, believe it or not, the hydraulics are so sensitive that the pump station could move a parcel or two or three, and we want to make sure that we've got it exactly right before we approach a landowner about an easement for or a lease for the pump station. Q. And in terms of the pump stations moving, are you aware of any area where the pump station could
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	landowners up to this point to get voluntary easements executed. And Mr. Boeshans mentioned it earlier, but on the northern reroute, it's some of his team that's North Dakota-based. And then the right-of-way team that's handling the rest of North Dakota are also North Dakotans. That's led by a lady named Julie DiMeo, who is a North Dakota native. Q. Okay. And I just I don't particularly care where they're from, but I just wanted to know if who the right-of-way team is in North Dakota. So it's led by Ms. DiMeo. Is Mr. Rorie, Micah Rorie, still involved? Is he part of the right-of-way team? A. Well, Mr. Rorie, he leads the overall land group so that's for the entire project. Ms. DiMeo reports up to Micah Rorie. Q. All right. You stated that Rod Dillon maintains a list of requests for equipment from first responders and other other folks or entities. Is that a list that's been filed with the PSC? A. It has not. In North Dakota, per my	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	don't have specific locations on where you might need the conditional use permits for the pump stations or why haven't you applied for them? A. Well, of the four pump stations, only Burleigh and Morton counties require conditional use permits. And there is a township in Q. Logan A I believe it's in Richland yeah, Logan Township that requires a conditional use permit. The township will not they will not accept an application until we have a permit from the PSC. And the other two counties we have not submitted yet because, yes, until we get more mature in especially Burleigh County with the pipeline route, believe it or not, the hydraulics are so sensitive that the pump station could move a parcel or two or three, and we want to make sure that we've got it exactly right before we approach a landowner about an easement for or a lease for the pump station. Q. And in terms of the pump stations moving, are

	ND PUBLIC SERV		
1	it's already close to a county line?	1	companies such as Summit Carbon Solutions from sharing
2	A. No.	2	plume modeling that they may have conducted, that that's
3	Q. You were asked what percentage of landowners	3	a company-based decision; correct?
4	have you received permission to survey on where you	4	MR. DUBLINSKE: Objection, Your Honor. Calls
5	still need survey access. You had told Mr. Schock that	5	for a legal conclusion.
6	you didn't know that answer. Have you come to learn of	6	ALJ HOGAN: Will you repeat the question?
7	that answer?	7	MR. JORDE: Yes. Just first for foundational
8	A. We're about 94 percent surveyed along the route.	8	purposes, this gentleman has testified many times
9	And it's my understanding that there are about 15	9	related to PHMSA, and in his prefiled testimony he
10	landowners that have denied survey access at this point.	10	addresses PHMSA and talks about different items related
11	Q. You'd stated that you haven't done all the	11	to PHMSA. So the specific question is does he agree
12	surveys but, quote, "We know where the cultural risks	12	that PHMSA does not instruct companies on what they can
13	are." Is that a true statement?	13	and cannot share with the public, and if a company such
14	A. I think it's a relatively accurate statement.	14	as Summit wanted to share CO2 plume modeling, they could
15	Most of the cultural risk are on the west side of our	15	do so.
16	system versus the east side of the system. But that's	16	MR. DUBLINSKE: And the objection was calls for
17	cultural. There are also paleontological and	17	a legal conclusion.
18	architectural. So I think it's a generally correct	18	ALJ HOGAN: I agree but I'll I agree it's
19	statement.	19	ultimately a legal conclusion, but I'll allow Mr. Powell
20	Q. You were asked some questions relative, I think,	20	to testify what his understanding of that requirement
21	to your statement that SCS has not filed eminent domain	21	is.
22	suits on any North Dakota landowner, and your answer was	22	A. In my experience, that is sensitive security
23	that there's been a limited or then you moved to a	23	information and it is not shared other than in
24	survey question and said there's a limited number of	24	confidentiality.
25	instances where state law has been invoked. And does	25	Q. (BY MR. JORDE) And I appreciate that response,
	PAGE 205		PAGE 207
1	that mean where Summit has sued landowners for survey	1	but is that another way of saying that that's a company
2	access?	2	decision and you're not aware of any federal or PHMSA
3	A. Correct.	3	requirements saying or preventing Summit from sharing
4	Q. All right. Now maybe if Mr. Leonard is	4	your plume modeling; correct?
5	available with those exhibits, if I could go back to	5	MR. DUBLINSKE: Same objection.
6	Exhibit 34, sir.	6	ALJ HOGAN: And, again, I agree that it's a
7	A. I have it.	7	legal conclusion, but I'll allow Mr. Powell to testify
8	Q. Okay. Very good. And I'll just represent	8	what his understanding is.
9	that's what was already in evidence in Iowa of your org	9	A. I I don't know whether or not PHMSA would
10	chart at that time in July of 2023. And then if you	10	prevent someone from sharing that information, but I do
11	want to toggle over to Exhibit 35, you'll you'll	11	know that it's it's it's defined as sensitive
12	notice on the right-hand side there's a new entity, SCS	12	security information and, in some cases, as someone
13	Farm Carbon LLC. And I'd like you to tell me if that	13	mentioned earlier today, it's it's not open to FOIA
14	has any function in North Dakota or with your proposed	14	requests and that it's in some cases you have to have
15	North Dakota operations.	15	permission from the TSA to share information.
16	A. I can't tell you, Mr. Jorde.	16	Q. (BY MR. JORDE) All right. If I could have
17	Q. All right.	17	Mr. Leonard pull up Landowner Exhibit 32, please.
18	A. I mean, I don't know. I don't know. Not that I	18	And if you can just to yourself, sir, just look
19	can't tell you. I don't know.	19	at that and read the first two sentences, not out loud,
20	Q. All right. And you wouldn't know why that	20	just to yourself, and tell me when you're done.
21	structure was changed from your previous corporate	21	(Pause)
22	structure, would you?	22	A. Okay.
23	A. I would not.	23	Q. All right. So would you agree with me that it
24	Q. Would you agree that PHMSA does not have a	24	is a company-based decision relative to sharing plume
25	restriction or does not have a rule that prohibits	25	modeling?
	PAGE 206		PAGE 208

	IND PUBLIC SERV	101	
1	MR. DUBLINSKE: Same objection, Your Honor.	1	MR. PELHAM: No objection.
2	Again, this the fact that he's asking the witness to	2	ALJ HOGAN: All right. 33 is received.
3	read from a third-party communication doesn't change the	3	MR. JORDE: Thank you.
4	fact that it's ultimately a legal conclusion and, in	4	Q. (BY MR. JORDE) Now I'd like to ask you a
5	fact, if you read beyond those first two sentences, it's	5	little bit about sequestration and the CI scores
6	clear this is a little more complicated. That same	6	you've talked about that in the past and projections
7	communication notes that this is not subject to FOIA,	7	of what carbon capture, storage might do and CI
8	which certainly tells you something about the	8	reduction. And I'd like you to take a look at
9	confidentiality protections of the document. This is a	9	Exhibit 41, sir. And my questions are simply do you
10	complicated area that's been a matter of dispute, which	10	agree that certain farming practices can have
11	is why we probably shouldn't have non-lawyers opining	11	significant impacts on reducing carbon intensity scores?
12	about what's ultimately a legal conclusion.	12	A. From what I understand, farming practices, like
13	ALJ HOGAN: I agree. I'm going to sustain the	13	cover crops, for example, can have an impact on the CI
14	objection.	14	score, but I believe as the COO of Tharaldson may have
15	MR. JORDE: Okay. Well, I'm going to offer	15	testified to on Friday, that only carbon capture and
	, , ,		
16	Exhibit 32.	16	sequestration can reduce that CI score below the
17	ALJ HOGAN: Any objection to Landowner	17	threshold required to participate in the sustainable
18	Exhibit 32?	18	aviation fuel market.
19	MR. DUBLINSKE: No, Your Honor.	19	Q. And I appreciate that. And and that CEO of
20	ALJ HOGAN: Mr. Pelham.	20	Tharaldson also said that their baseline, I think, was
21	MR. PELHAM: No objection.	21	like 69 or something, a fair amount higher than your
22	ALJ HOGAN: All right. Landowner Exhibit 32 is	22	standard baseline dry mill ethanol plant CI score.
23	received.	23	Would you agree with that?
24	MR. JORDE: And I'm sorry, I forgot to offer 34	24	A. I'm not an expert on where the CI scores, where
25	and 35. Those are the organizational charts.	25	their baselines are for the 57 plants that we partnered

	ND PUBLIC SERV		
1	Q. All right. And do you recall that in the Iowa	1	a pending motion that we haven't had a chance to resist
2	IUB hearings certain of that information, the public	2	yet. This, again trying to litigate the status of the
3	information, was offered and received in the IUB hearing	3	protective order based on what states other than North
4	relative to their plume and dispersion findings?	4	Dakota did, seems both inappropriate legally and not a
5	A. I believe you introduced that, yes.	5	good use of time.
6	Q. If I could have you take a look at Landowner	6	MR. JORDE: Well, I'm not litigating anything
7	Exhibit 42, and if you look on the bottom right of	7	and I'm not asking about anything covered by the
8	the first page, you might recognize our Iowa exhibit	8	protective order. I'm asking him about
9	sticker. And so, sir, my question to you then is do you	9	publicly-available information that I believe is
10	dispute that an 8-inch diameter pipeline, if there was a	10	relevant to these proceedings.
11	rupture, a guillotine rupture, that a cloud of CO2 at	11	MR. DUBLINSKE: And the objection was relevance.
12	concentration 40,000 parts per million could travel as	12	ALJ HOGAN: Can you explain why it's relevant?
13	far as 1,855 feet?	13	I mean, this Commission has already granted the
14	MR. DUBLINSKE: Objection, Your Honor. That is	14	protective order on that information.
15	a backdoor way of getting behind the protective	15	MR. JORDE: Sure. So the Commission has granted
16	agreement that covers SCS's dispersion.	16	the protective order relative to Summit contracted, paid
17	MR. JORDE: Your Honor, it's not. I'm asking	17	for, generated analysis. And I'm not talking about that
18	him about the publicly-available findings related to an	18	at all. I'm saying I believe it's relevant to get this
19	8-inch diameter pipeline. I'm not asking him if that	19	other publicly-available data that's not covered by a
20	if that is what his analysis says.	20	protective order in front of the PSC to consider when
21	MR. DUBLINSKE: Your Honor, that assumes that	21	they're vetting Summit's data. Otherwise, the PSC has
22	every 8-inch pipeline is subject to all the same	22	no possible way to vet Summit's data as there hasn't
23	conditions and all the same assumptions. If he wants to	23	been cross-examination or development of expert
24	ask whether Mr. Powell has reason to question what	24	witnesses by the parties around Summit's protected data.
25	Navigator's data shows about Navigator's then-proposed	25	MR. BAKKE: And I'll join in their position.
	PAGE 213		PAGE 215
1	project, I think that's fine, but the generic statement	1	And I would also note this is a
1 2	project, I think that's fine, but the generic statement is simply a way to get behind the protective agreement	1 2	And I would also note this is a publicly-available document. So any protective order in
2	is simply a way to get behind the protective agreement	2	publicly-available document. So any protective order in
2	is simply a way to get behind the protective agreement for Summit's information.	2	publicly-available document. So any protective order in North Dakota never addressed a publicly-available

ALJ HOGAN: Mr. Pelham, Commission's position on relevance of this topic or this line of questioning? MR. PELHAM: Well, it certainly may be relevant to the Navigator project. Whether or not it's relevant to this project as to this proposed line is, I think, the question. It certainly is not a protected piece of

	ND PUBLIC SERV	_	
1	Iowa.	1	that time, there were still approximately 201 parcels
2	But as to the relevance, I think the question	2	yet to be yet to have leases or easements acquired.
3	that was asked of the witness is whether or not he	3	Is that still true today?
4	agrees with it, as to what it found. So the question	4	A. From April 22nd, I believe there has been one
5	then is, is it relevant for these proceedings? And I'm	5	or two it's generally correct one or two other
6	not sure that it is, but I don't have I don't have a	6	parcels that agreements have been executed with that
7	position on the objection.	7	landowner. So it's generally correct.
8	ALJ HOGAN: Mr. Jorde, can you restate your	8	Q. And the 201 or so parcels, does that represent
9	question?	9	approximately 110 or so landowners?
10	MR. JORDE: I've forgotten my question.	10	A. That is generally correct.
11	ALJ HOGAN: And I'll tell you what my problem	11	Q. All right. Okay.
12	is. I think Mr. Powell has said he's seen perhaps these	12	Now, the matter about this corridor, in your
13	maps in 42, Exhibit 42, and he apparently is aware of	13	application you reapplication, reconsideration
14	Minnesota, but he's not aware of South Dakota and the	14	requested a 200-foot-wide corridor which, I believe, was
15	other states. So I don't know that this is a great	15	a reduction of a hundred foot, but then you're now
16	witness to get this information in.	16	asking for, what is it, a hundred or 150-foot deviation
17	MR. JORDE: Well and, look, I can easily get	17	outside of that 200 feet? Or can you explain that? I
18	this in through other witnesses and I'm, frankly, trying	18	was a little confused from your testimony last time.
19	to save some time here. And I don't have any more	19	A. The original application had a deviation buffer
20	questions about either Exhibit 42 or 46 so I'm just	20	of 150 feet on either side of the pipeline, which would
21	going to I'm going to offer Exhibit 42 and Exhibit 46	21	be 300 foot. And in the petition for reconsideration,
22	and Exhibit 45.	22	at least in response to the commissioner's question, we
23	UNIDENTIFIED SPEAKER: (Inaudible).	23	reduced that to a hundred foot on either side or 200.
24	ALJ HOGAN: Okay.	24	Q. Okay. But help me out. If the corridor is
25	UNIDENTIFIED SPEAKER: (Inaudible).	25	200 feet and the deviation is a hundred foot, does that
	PAGE 217		PAGE 219
1	ALJ HOGAN: Mr. Dublinske, any objection to 42,	1	mean you can you are seeking to go a hundred foot
2	45, and 46?	2	outside of that 200-foot-band if necessary?
3	MR. DUBLINSKE: I do not.	3	A. No. That's not the intent.
4	ALJ HOGAN: Mr. Pelham.	4	Q. Okay. So if you're asking for a hundred and
5	MR. PELHAM: I'm not sure which one is 45 and 46	5	I'm sorry, did you say a hundred or 150-foot deviation?
6	60	6	A A leave does d & - 4
_	S0	ı •	A. A hundred foot.
7	ALJ HOGAN: You're getting 45 and 46. They're	7	Q. A hundred foot. So if you're asking for a
8			-
	ALJ HOGAN: You're getting 45 and 46. They're	7	Q. A hundred foot. So if you're asking for a
8	ALJ HOGAN: You're getting 45 and 46. They're coming around.	7 8	Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that
8 9	ALJ HOGAN: You're getting 45 and 46. They're coming around. MR. PELHAM: Is it just one oh, here's	7 8 9	Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that deviation start point from?
8 9 10	ALJ HOGAN: You're getting 45 and 46. They're coming around. MR. PELHAM: Is it just one oh, here's ALJ HOGAN: There's two.	7 8 9 10	Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that deviation start point from?A. At least from my perspective, it's from the
8 9 10 11	ALJ HOGAN: You're getting 45 and 46. They're coming around. MR. PELHAM: Is it just one oh, here's ALJ HOGAN: There's two. MR. PELHAM: Gotcha. Okay.	7 8 9 10 11	 Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that deviation start point from? A. At least from my perspective, it's from the centerline of the pipeline.
8 9 10 11 12	ALJ HOGAN: You're getting 45 and 46. They're coming around. MR. PELHAM: Is it just one oh, here's ALJ HOGAN: There's two. MR. PELHAM: Gotcha. Okay. MR. BAKKE: 45 is what you've just got handed.	7 8 9 10 11	 Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that deviation start point from? A. At least from my perspective, it's from the centerline of the pipeline. Q. Okay. But if the centerline could be located
8 9 10 11 12 13	ALJ HOGAN: You're getting 45 and 46. They're coming around. MR. PELHAM: Is it just one oh, here's ALJ HOGAN: There's two. MR. PELHAM: Gotcha. Okay. MR. And like I said, now that those are in, I'm going to spare all of us any questions related to that. Q. (BY MR. JORDE) Sir, in your prefiled testimony of April 22nd, you had a right-of-way progress chart as	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Q. A hundred foot. So if you're asking for a hundred-foot deviation, where do we measure that deviation start point from? A. At least from my perspective, it's from the centerline of the pipeline. Q. Okay. But if the centerline could be located anywhere within the 200 foot, if, let's say, it's on the very bottom of that band, then could you go another hundred foot outside of that corridor? A. At least from my perspective, Mr. Jorde, it's a 200-foot wide corridor. Regardless of where the pipeline is, it's 200 foot wide. So if it's narrower on the bottom, it's it's wider on the top, but it's still 200 from boundary to boundary. Q. All right. Did you make any notes, sir, at any of these emergency responder or safety-kind-of-based meetings that you attended across North Dakota? A. I did not.

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

1 strike that. personally at, Mr. Boeshans wasn't at, would -- would 2 Would the sign-in sheets be the best evidence of David Daum or Rich Dillon, who -- who would have been 3 3 the person attending those for Summit, the other who exactly attended each of those meetings? 4 A. I would agree with you that that would be -- and 4 meetings? 5 I know we had sign-in sheets for the majority of the 5 A. Alex Lange, I believe, attended all of those 6 meetings. I'm not sure if we had sign-in sheets for all 6 meetings. And Dave Daum and/or Rod Dillon typically 7 7 of the meetings. But I agree that would be the best attended those meetings. If -- if they did not have a 8 8 scheduling conflict, they always try to attend those identification of who actually attended. 9 Q. And so on your April 22nd testimony, on page 8, 9 meetings. 10 at the bottom, you list out when, the date, where the 10 Q. And forgive me, but I think it's your intent to 11 11 meetings took place, the county, the date, the time they make Mr. Daum and Mr. Dillon available for -- or maybe 12 12 started, and then you have, like, 11 attendees. In it's rebuttal. Are those gentlemen going to be 13 13 testifying, to the best of your knowledge, Mr. Daum and order for you to put that together, were you using the 14 sign-in sheets, sir? 14 Mr. Dillon? 15 A. The -- our -- our team that presented that 15 A. I'm aware Mr. Daum is scheduled to testify. I'm 16 16 information compiled that. And, yes, I believe that was not aware that Mr. Dillon is. 17 the primary source. Whether or not they used -- they 17 Q. And what about Mr. Lange, will we be hearing 18 had their own notes or checked the attendee or the 18 from him? 19 invitation list, I'm not sure how that was recorded, 19 A. I believe he's scheduled to testify in rebuttal, 20 Mr. Jorde, but they were the source of that information. 20 but Mr. Dublinske would -- and Mr. Bender would have a 21 21 **Q.** And would you, sir, in your role as an executive better idea of who's scheduled when. 22 22 at Summit be willing to publicly file the names of the Q. That's fine. 23 23 attendees at each one of those meetings you reference on MR. DUBLINSKE: Mr. Jorde, I can confirm that we 24 page 8 and page 9 of your April 22nd, 2024, prefiled 24 intend to call Lange and Daum as part of the rebuttal 25 25 testimony? case and therefore make them available for **PAGE 221 PAGE 223** 1 A. I don't have an issue with that. We filed in 1 cross-examination. 2 the docket those who were invited so I -- I don't think 2 MR. JORDE: Thank you. 3 there would be any issue with confirming who attended. 3 Q. (BY MR. JORDE) All right. Believe it or not, 4 Q. And I don't want to go over all of the ground 4 I'm getting close to being finished. 5 5 with Mr. Boeshans, but it seemed like he was only in On the bottom of page 9, just to kind of put a 6 6 attendance at five of the Burleigh County-specific bow on this, you talk about the areas that were covered 7 7 emergency response type meetings we're discussing. How at the meeting, and I'm going to list them off and then 8 many were you personally in attendance with anywhere in 8 ask you if those, to your knowledge, those same areas of 9 North Dakota? 9 information were shared at all the meetings. That's 10 A. In North Dakota, I was only -- I only attended 10 dispersion modeling methodology, generic model outputs, 11 the Burleigh County meeting. 11 the PHMSA requirements, relative toxicity, potential CO2 12 12 Q. Okay. So as Mr. Boeshans walked through that release scenarios, shelter-in-place studies, emergency 13 and recounted, without getting into the detail, kind of 13 response plan guidelines, and discuss specific training 14 14 the category of information shared, did that comport and equipment needs. 15 with your recollection of what Summit shared that day? 15 Is that kind of the consistent checklist of 16 A. Generally, yes, general information. And just 16 information or data that was discussed at these 17 for context, as I think I mentioned in April, this is an 17 meetings? 18 iterative process. So we began talking -- the team 18 A. Yes. And, Mr. Jorde, Alex Lange, who was at 19 began talking with emergency management, first 19 every one of those meetings, can confirm. As I 20 responders a couple years ago. I personally have met 20 mentioned earlier, these meetings evolved so this 21 with first responders in North Dakota outside of those 21 shelter-in-place study and the toxicity levels -- or 22 22 emergency manager meetings. And that will continue up toxicity tables and thresholds, I can't confirm if they 23 23 until two and a half years from now when the pipeline were presented in the first couple of meetings that were 24 24 is, hopefully, permitted, constructed, and in operation. conducted. Mr. Lange can tell you --

25

25

Q. And then for, sir, the meetings that you weren't

Q. And, sir -- I'm sorry. Sir, is it your

	ND PUBLIC SERV	101	_ 001/11/11/001014
1	understanding that those categories of data that I read	1	non-confidential documents in that slide deck, but
2	off, would those have been embedded in or part of a	2	they're standalone.
3	PowerPoint or was there a PowerPoint and then maybe	3	Q. Okay. Thank you for that clarification.
4	there was additional handouts relative to those	4	So if we're talking about PowerPoint or slide
5	categories?	5	deck, that's synonymous? Can we agree on that?
6	A. The latter. So I know the API document, the	6	A. Yes.
7	shelter-in-place document, and, if requested, the draft	7	Q. And so there might be references to other
8	emergency response plan, which I believe is already in	8	documents in the slide deck, but then you're saying
9	the docket, those were available. They were not	9	there could have been also separate handouts that are
10	embedded in the PowerPoint.	10	also confidential in addition to the slide deck; right?
11	Q. So of those items that I read off on the bottom	11	A. I'm sorry if I'm not being clear, Mr. Jorde.
12	of page 9 of your April 22nd, '24, prefiled testimony,	12	The only confidential information is the PowerPoint or
13	so I'm clear, the ones that are that you claim	13	slide deck. The other information that was referenced
14	confidentiality and have been determined to be	14	is not confidential and was either provided or was
15	confidential that the PSC has in their possession, does	15	indicated would be made available upon request. But the
16	that include dispersion modeling methodology, generic	16	links where people could find that information was
17	model outputs, and relative toxicity, and potential CO2	17	provided.
18	release scenarios?	18	Q. But the the modeling and the outputs and the
19	A. It's my understanding the slide deck is	19	potential release, that data, that confidential data,
20	maintained as confidential. The other ancillary	20	was included to or referenced in the slide deck; is that
21	documents have been provided.	21	right?
22	Q. All right. And that's probably a better way.	22	A. Generally, yes.
23	Would rather than me asking, so the auxiliary	23	Q. All right. Okay. Good. Because you're not
24	non-confidential documents, of those listed that are	24	saying if someone requested the dispersion modeling
25	found on page 9, which of those are the non-confidential	25	methodology or the generic model outputs or the
	PAGE 225		PAGE 227
1	documents, in your view?	1	potential CO2 release scenarios, you're not saying you
1 2	documents, in your view? A. The only confidential document is the slide deck	1 2	potential CO2 release scenarios, you're not saying you would produce it, for instance, if I requested that,
2	A. The only confidential document is the slide deck	2	would produce it, for instance, if I requested that,
2	A. The only confidential document is the slide deck which walks through the dispersion methodology and	2	would produce it, for instance, if I requested that, would you?
2 3 4	A. The only confidential document is the slide deck which walks through the dispersion methodology and general output.	2 3 4	would produce it, for instance, if I requested that, would you? A. No. And even in the the PowerPoint itself,
2 3 4 5	A. The only confidential document is the slide deck which walks through the dispersion methodology and general output. Q. Okay. So the relative toxicity and the	2 3 4 5	would produce it, for instance, if I requested that, would you? A. No. And even in the the PowerPoint itself, there's the first couple of slides talk about the

1	essentially be in that in that bill or what he	1	could be a potential outcome. I'm not aware that that
2	believed would be in that bill.	2	would apply to a landowner.
3	Q. On page 4 of that March 1st letter attachment,	3	Q. What about a tenant? Are the tenants of the
4	at the bottom, you say, quote, "Each easement agreement	4	landowners covered in your indemnification language?
5	includes a clause that indemnifies a landowner from this	5	MR. DUBLINSKE: I'm going to object, Your Honor.
6	responsibility," end quote. And that's relative to the	6	I think Mr. Powell has probably answered this to the
7	liability insurance discussion.	7	best of his ability, but also the Commission, in the
8	Sir, what about the instance where you have to	8	August 4th order, made a determination on the liability
9	condemn or you choose to condemn, how would that term be	9	issue and it found that that issue had been resolved for
10	provided to a landowner if there is no written easement	10	purposes of this hearing.
11	and you obtain the easement via condemnation?	11	MR. JORDE: Well, the problem is that they bring
12	A. Well, Mr. Jorde, if we had to go through the	12	it back up. And now we have an exhibit, Mr. Powell's
13	process of condemnation, it's not my intent or anyone	13	testimony, where they're attaching documents
14	else's intent with Summit to penalize a landowner	14	specifically putting this back in play. We didn't do
15	because we had to go through condemnation. I would	15	it. So that's that's my last question, by the way,
16	offer that landowner the same terms and conditions of	16	and then I'm done with this so I'd appreciate an answer.
17	any other landowner that signed a voluntary easement.	17	ALJ HOGAN: I'll allow him to answer.
18	Q. Would you agree that your liability insurance	18	A. I'm not aware that that that is an option for
19	indemnification does not cover your insurer and does not	19	the insurer, Mr. Jorde.
20	prevent your insurer of suing a landowner if you make a	20	Q. (BY MR. JORDE) Okay. And, I'm sorry, my
21	claim to your insurer?	21	question was as to the tenant. Are you aware that your
22	A. Could you restate the question, please?	22	language doesn't indemnify the tenant if the tenant is
23	Q. Yep. For instance, you state that Summit	23	alleged to have struck the pipeline or caused damage?
24	let's see here. "Regarding liability insurance" you	24	A. I'm not aware.
25	state " there is no need for landowners to secure	25	Q. All right. Okay.

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND 1 ODLIO OLIV		
1	Mr. Schmidt, so the parties are going to have to	1	Q. Okay. Were you aware he worked for the North
2	probably have a discussion when we're done today whether	2	Dakota Petroleum Council, which is a non-profit
3	or not he's going to be available if if there's	3	corporation?
4	cross-examination requested of him.	4	A. I am aware of that, yes.
5	So, again, we have a hard stop at 5:00 so I will	5	Q. Okay. And if Mr. Wachter testified that he was
6	interrupt you and stop you at 5:00, Mr. Bakke, but you	6	shown this PowerPoint presentation, that would mean that
7	can go ahead.	7	Summit was showing the PowerPoint presentation it's
8	MR. BAKKE: Okay. Thank you, Your Honor.	8	claiming confidential to select members of the public;
9	CROSS EXAMINATION	9	correct?
10	BY MR. BAKKE:	10	A. Correct.
		11	_
11	Q. First of all, I want to make sure, Mr. Powell,		Q. Okay. And Mr. Ness isn't an emergency manager,
12	you have available to you now the Burleigh County	12	to your knowledge?
13	exhibits that were provided to your counsel?	13	A. Not to my knowledge.
14	MR. LEONARD: I do have the exhibits in that	14	Q. He's not a first responder?
15	Dropbox link from your assistant this morning,	15	A. Again, not to my knowledge.
16	Mr. Bakke.	16	Q. And Mr. Wachter is not an emergency manager
17	MR. BAKKE: Okay.	17	or first responder, to your knowledge?
18	ALJ HOGAN: And, Mr. Bakke, can you move your	18	A. Correct.
19	mic a little closer?	19	MR. BAKKE: And, Your Honor, I'll just note for
20	MR. BAKKE: Sure. Sorry about that.	20	the record I'm not asking for a ruling or anything else,
21	ALJ HOGAN: Thank you.	21	but once Mr. Wachter testifies about this PowerPoint, I
22	Q. (BY MR. BAKKE) The first one I'm going to ask	22	think there's been a complete waiver of their position
23	about is Burleigh County 106 so if you could have that	23	that this is confidential if they're selectively showing
24	available.	24	it to members of the public, but I'll move on to my next
25	But, first of all, Mr. Powell, you used the term	25	topic.

	ND 1 ODLIG OLIV		
1	A. Again, this is intended to be conceptual in	1	by Summit to talk about this southern alternative route.
2	nature and shows that there's a there's a distance	2	And why is it that Summit considered only a southern
3	between the ETA of the city of Bismarck and the and	3	alternative route that was contiguous with the existing
4	the proposed route	4	city of Bismarck extraterritorial limits?
5	Q. Or actually	5	A. Because of the constraints on the southern side
6	A route.	6	of Bismarck with Apple Creek and the ETA and the
7	Q. Actually, that's that answer is not accurate.	7	floodplains and proximity to residences and businesses,
8	If you look at the map, in Figure 4 on the bottom, you	8	there was very limited option on where you could route
9	can see the red line for the southern alternative route	9	the pipeline to the south side of Bismarck. And that's
10	appears to intersect with the existing city of Bismarck	10	why in the in the draft environmental statement
11	ETA, doesn't it?	11	that's been released now for Energy Transfer, in that
12	A. Yeah, I didn't I wasn't speaking about the	12	the government says the only viable option if Energy
13	southern route. I was speaking about the northern	13	Transfer would have to relocate the pipeline, Dakota
14	route.	14	Access, would be on the north side of the city of
15	Q. Okay. I'm asking about the southern route. Do	15	Bismarck.
16	you agree with me that the southern alternative route	16	Q. Okay. So what I want to talk about now is what
17	that Summit considered looks like, on the map presented	17	Summit did to explore what you've called those
18	to the PSC, was actually an alternative route that would	18	constraints. So did you contact any landowners who gave
19	have been either on the intersection of the southern ETA	19	easements for the DAPL pipeline?
20	for the city of Bismarck or inside the ETA?	20	A. No.
21	A. Yes. It actually intersects the ETA for about	21	Q. Did you contact anyone from the Standing Rock
22	seven-tenths of a mile on the southern side. But as we	22	Sioux Tribe?
23	also stated in the southern route analysis or the	23	A. Well, we heard very clearly in the initial
24	Bismarck route analysis, that there were many different	24	hearing in Bismarck that if from the Standing Rock
25	factors. In fact, there were dozens of factors that can	25	Tribe representative, that if the pipeline were routed
	PAGE 237		PAGE 239
1	be bucketed really into safety, environmental risk,	1	on the southern side, I believe it was I'm taking it
2	cultural risk, tribal impacts, etcetera	2	out of context and I'm not quoting directly but if the
2	cultural risk, tribal impacts, etcetera Q. Mr. Powell, I just I've got limited time here	2	out of context and I'm not quoting directly but if the pipeline
	_		
3	Q. Mr. Powell, I just I've got limited time here	3	pipeline
3 4	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk	3 4	pipeline Q. I'm not asking what the testimony
3 4 5	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about	3 4 5	pipeline Q. I'm not asking what the testimony A were moved further south, they would not
3 4 5 6	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects	3 4 5 6	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was
3 4 5 6 7	 Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. 	3 4 5 6 7	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it.
3 4 5 6 7 8	 Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. 	3 4 5 6 7 8	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after
3 4 5 6 7 8 9	 Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. 	3 4 5 6 7 8 9	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after August 4, 2023, when Summit was told they needed to
3 4 5 6 7 8 9	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. Q. That was my only question.	3 4 5 6 7 8 9	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after August 4, 2023, when Summit was told they needed to determine or consider an alternative southern route, did
3 4 5 6 7 8 9 10	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. Q. That was my only question. Okay. So Summit was the one who made the	3 4 5 6 7 8 9 10	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after August 4, 2023, when Summit was told they needed to determine or consider an alternative southern route, did Summit contact anyone from the Standing Rock Sioux
3 4 5 6 7 8 9 10 11 12	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. Q. That was my only question. Okay. So Summit was the one who made the determination of what southern alternative route to	3 4 5 6 7 8 9 10 11 12	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after August 4, 2023, when Summit was told they needed to determine or consider an alternative southern route, did Summit contact anyone from the Standing Rock Sioux Tribe?
3 4 5 6 7 8 9 10 11 12 13	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. Q. That was my only question. Okay. So Summit was the one who made the determination of what southern alternative route to consider in Burleigh County; correct?	3 4 5 6 7 8 9 10 11 12 13	pipeline Q. I'm not asking what the testimony A were moved further south, they would not Q was A support it. Q. I'm asking Mr. Powell, I'm asking, after August 4, 2023, when Summit was told they needed to determine or consider an alternative southern route, did Summit contact anyone from the Standing Rock Sioux Tribe? MR. DUBLINSKE: Your Honor, I think Mr. Powell
3 4 5 6 7 8 9 10 11 12 13	Q. Mr. Powell, I just I've got limited time here so I just want you to answer my question, not talk about A. Yes, it intersects Q other topics. A. It intersects for seven-tenths of a mile. That's correct. Q. That was my only question. Okay. So Summit was the one who made the determination of what southern alternative route to consider in Burleigh County; correct? A. Yes.	3 4 5 6 7 8 9 10 11 12 13	pipeline Q. 	ND PUBLIC SERV	101	= 001/11/11/001011
1	Q. (BY MR. BAKKE) Okay. Did you contact anyone	1	Pipeline?
2	from the Standing Rock Sioux Tribe after August 4, 2023,	2	A. Not that I'm aware of.
3	when the PSC, as part of its order, said Summit should	3	Q. Who was it that drew out or plotted out the
4	analyze or evaluate a southern route?	4	alternative southern route?
5	A. As Mr. Dublinske correctly stated, we were very	5	A. Well, we used the same GIS program and
6	aware of the Standing Rock's position about a pipeline	6	methodology that we used for the entire pipeline system,
7	on the southern side of the city of Bismarck so we did	7	which, as we've testified to, is a broad database with
8	not contact them again about that option.	8	publicly and and available information and some
9	Q. Okay. Well, that individual who came and	9	information that you have to purchase that has things
10	testified at the PSC hearings also indicated that the	10	like federal grasslands and other avoidance areas,
11	entire state of North Dakota was tribal land, didn't he?	11	etcetera. And that's what we used to plot a route on
12	A. He did.	12	the southern side of Bismarck.
13	Q. Yeah. So you're already at that point in	13	Q. And the location of the southern alternative
14	violation of what what that individual from the tribe	14	route, isn't that actually in an existing floodplain
15	has testified to by having the northern crossing;	15	area?
16	correct?	16	A. The floodplain in that area is about 4.28 miles,
17	A. Well, but it's my understanding from from	17	if I remember correctly, wide. Significantly wider than
18	what I recollect from his testimony in Bismarck that	18	on the north side.
19	not that he accepted the northern route, but that they	19	Q. So in response to my question, did Summit show
20	would not accept a southern route.	20	us a southern alternative route that was in the existing
21	Q. Well, I don't know that that's accurate, but the	21	floodplain?
22	record is what it is.	22	A. Yes.
23	Did you contact the Army Corps of Engineers	23	Q. Okay. And were you aware
24	about a crossing of the Missouri River south of Bismarck	24	A. Both routes were in the existing floodplain.
25	after August 4, 2023?	25	The floodplain on the southern route is just much wider
	PAGE 241	<u> </u>	PAGE 243
1	A. We did not because of the constructability	1	than on the northern route.
2	issues on the southern side of Bismarck, the	2	Q. Okay. And in the location where Summit
2	issues on the southern side of Bismarck, the floodplains, the topography	2	Q. Okay. And in the location where Summit considered a southern alternative route, did you know
2 3 4	issues on the southern side of Bismarck, the floodplains, the topography Q. I'm just asking whether you contacted them or	2 3 4	Q. Okay. And in the location where Summit considered a southern alternative route, did you know going into it that that was a location that would be
2 3 4 5	issues on the southern side of Bismarck, the floodplains, the topography Q. I'm just asking whether you contacted them or not, not what the reasons were.	2 3 4 5	Q. Okay. And in the location where Summit considered a southern alternative route, did you know going into it that that was a location that would be unlikely to be approved?
2 3 4 5 6	issues on the southern side of Bismarck, the floodplains, the topography Q. I'm just asking whether you contacted them or not, not what the reasons were. A. We did not.	2 3 4 5 6	 Q. Okay. And in the location where Summit considered a southern alternative route, did you know going into it that that was a location that would be unlikely to be approved? A. Well, we knew that going into it and I think
2 3 4 5 6 7	issues on the southern side of Bismarck, the floodplains, the topography Q. I'm just asking whether you contacted them or not, not what the reasons were. A. We did not. Q. Okay. May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

	ND PUBLIC SERV		
1	governmental agency to use eminent domain. They were	1	Bismarck?
2	able to get through the property involved, they were	2	A. Along the proposed southern route.
3	able to get voluntary easements from those landowners;	3	Q. I'm sorry?
4	correct?	4	A. Along the proposed southern route.
5	MR. DUBLINSKE: Objection. I don't know that	5	Q. Well, that's because it's right next to the
6	there's any foundation that Mr. Powell is aware of what	6	city. I'm talking about further south than that. Is it
7	Dakota Access did and whether or not those were disputed	7	your testimony there's more rural subdivision and
8	and whether or not or when those were obtained, on the	8	population south of Bismarck where there is some
9	courthouse steps or otherwise.	9	floodplain issues than there is north of Bismarck?
10	ALJ HOGAN: I agree. Foundation hasn't been	10	A. My testimony is, Mr. Bakke, that there are
11	laid for him to answer those that particular question	11	numerous constraints that prevented a pipeline in this
12	or those type of questions about easements for Dakota	12	general area on the south side of Bismarck. And the
13	Access.	13	route that we're showing or that we included in the
14	Q. (BY MR. BAKKE) Well, are you aware of any	14	analysis in our estimation was the least impactful route
15	situation where, for the Dakota Access Pipeline, eminent	15	on the southern side of Bismarck but still very much
16	domain was exercised to obtain an easement for the	16	more impactful to residents and the environment and the
17	pipeline?	17	area, including the Standing Rock Tribe, than the
18	A. Well, I am aware, since we members of our	18	northern route.
19	right-of-way acquisition team also were part of that	19	Q. Well, did you have any other surveys done in
20	Energy Transport, Dakota Access project, I am aware that	20	other locations south of Bismarck for an alternative
21	condemnation suits were filed.	21	route?
22	Q. Take a look at Burleigh County Exhibit 133. Do	22	A. Well, Mr. Bakke, we did not want to disturb
23	you have that available to you?	23	landowners and request survey permission when we didn't
24	A. Yes.	24	think it was a viable alternative to construct the
25	Q. Okay. And it shows Bismarck on there and it	25	pipeline on the southern side of Bismarck.
	PAGE 245		PAGE 247

1	that we addressed constructability risk, maintenance and	1	obviously referenced on the map on the route maps
2	integrity risk, etcetera.	2	that were submitted, our current route in the docket,
3	Q. So how can you make a good faith effort if you	3	but I don't know off the top of my head how many of
4	don't contact any of the landowners, you don't contact	4	the 18 are in Burleigh County.
5	the Corps of Engineers about an alternative crossing	5	Q. Okay. And who would know about that and what
6	over the Missouri River, you don't you don't contact	6	the the geologic risks are that were identified in
7	the Standing Rock Sioux Tribe, you don't contact any	7	Burleigh County?
8	township boards, you don't contact Burleigh County, you	8	A. Well, Mr Mr. Lange would have the detail.
9	don't contact the City of Bismarck, you don't contact	9	But as we've submitted in our geotechnical report, you
10	the City of Mandan, you don't contact any governmental	10	know, of the 18, five are being the risk is being
11	entities whatsoever? You would call that a good faith	11	mitigated by directionally drilling those. 11 were
12	effort to explore the possibility of a southern	12	actually Class II. Field reconnaissance was conducted
13	alternative route?	13	to make sure that moving a route or the pipeline away
14	MR. DUBLINSKE: Objection, Your Honor.	14	from those those geohazards was was adequate. And
15	Q. Is that your testimony?	15	the remainder we can resolve via construction practices:
16	MR. DUBLINSKE: First of all, asked and	16	how we ditch, how we store the soil, etcetera.
17	answered. Second, badgering the witness. Third,	17	Q. Earlier today Summit's counsel indicated Summit
18	they're not going to get a lot of sympathy on	18	is strictly a private company. Is that accurate?
19	rescheduling Mr. Schmidt if this sort of badgering and	19	A. We're not a publicly-traded company.
20	"Well, don't you think this is good isn't good faith"	20	Q. You're a private company; correct?
21	is how we're spending our time in this limited time we	21	A. Yes.
22	have left.	22	Q. Okay. Summit is not in any way a governmental
23	ALJ HOGAN: I agree. I think he's already	23	entity?
24	answered those questions and I think the point has been	24	A. Not to my knowledge.
25	made about the efforts made to explore the route around	25	Q. Okay. And did you hear Mr. Boeshans' testimony
	PAGE 249		PAGE 251
1	south Bismarck.	1	when I asked him the questions about whether he can
2	Q. (BY MR. BAKKE) You provided testimony about	2	commit on behalf of Summit not to use eminent domain or
3	locations that presented geologic risk at the prior	3	condemnation proceedings in the event landowners will
4	hearing. You said there were 18 locations; is that	4	not agree to a voluntary easement for the Summit
5	correct?	5	pipeline? Did you hear that testimony?
6	A. That's correct.	6	A. I did.
7	Q. Okay. And previously Summit had provided	7	Q. Okay. And as the chief operating officer of
8	testimony there were 14 known geologic risks in North	8	Summit, can you commit that Summit will not use eminent
9	Dakota. How many of these 18 locations are in Burleigh	9	domain or condemnation proceedings against landowners
10	County?	10	who will not provide an easement to Summit pipeline in
11	A. I don't remember off the top of my head,	11	North Dakota?
12	Mr. Bakke.	12	A. I cannot. I cannot.
13	Q. Okay. Well, 11 before out of the 14 were	13	Q. Okay. And, in fact, if these 42 percent of
14	were 14. Are any of the new four geologic risks that	14	Burleigh County landowners will not agree to provide
15	were identified by Summit in Burleigh County, and if so,	15	Summit with a voluntary easement, Summit's plan, in
16	why were they missed previously?	16	fact, is to pursue eminent domain or condemnation
17	A. Well, the the number missed so the the	17	against those landowners; correct?
18	change was associated with the change in route. And the	18	A. Well, I can tell you that we spent more than two
19	North Dakota Geological Survey has reviewed our	19	years negotiating with landowners and we plan to
20	geotechnical analysis and concurred that we've	20	continue doing that.
21	satisfactorily addressed these risks.	21	Q. That's not my question.
22	Q. So you don't know if any of those are in	22	A. And condemnation condemnation is the last
23	Burleigh County?	23	option. So we're going to try to negotiate with
24	A. I don't I don't know which ones were in	24	landowners and reach a voluntary agreement.
25	Burleigh County off the top of my head. They're	25	Q. And that wasn't my question. My question wasn't
	PAGE 250		PAGE 252

objection. are you going to wear them down. My question is if they 2 keep saying no and say to you "Summit, we will not allow 2 MR. BAKKE: And I'll point out for the record 3 3 they've raised this at the April 22nd hearing and have an easement on our private land," does Summit intend to 4 pursue eminent domain or condemnation proceedings 4 offered specific testimony on it so I'm just following 5 against private landowners in Burleigh County who will 5 6 6 not voluntarily provide an easement to Summit? Q. (BY MR. BAKKE) Let's turn to another topic now 7 A. And I'll restate what I said, Mr. Bakke. That 7 and I'd ask you to turn to Burleigh County Exhibit 112. 8 is the very last option. 8 Do you have that available to you, Mr. Powell? 9 9 Q. But it's an option Summit intends to pursue if A. (Indiscernible). 10 necessary? 10 Q. Okay. And that's a memorandum of easement. 11 A. Again, that is the very last option. 11 It's dated February 6, 2024. It's on file in Burleigh Q. Right. But I'd like an answer to my question. County. It identifies the landowners involved as the 12 12 13 Does Summit intend to pursue that option if the 13 Hansens and Kathleen Mills. And it's what's called a 14 landowners will not voluntarily provide an easement for 14 "Memorandum of Easement"; correct? 15 the Summit pipeline? 15 A. That is correct. 16 A. I think I've answered it twice, Mr. Bakke, but 16 Q. Okay. And that does not -- unlike before the 17 I'll tell you it's premature. We have a long runway to 17 prior application before the August 4, 2023, order, what 18 continue to negotiate and if -- that would be a last 18 Summit would do when they obtained an easement is they 19 19 option. would actually file that easement at the Burleigh County 20 20 Q. Okay. So that's all you're going to tell me, courthouse and they would have a map attached which 21 21 it's a last option, you won't -- you won't concede that would identify the specific location on the property 22 Summit will pursue eminent domain or condemnation 22 where the Summit pipeline easement was; correct? 23 23 A. That's correct, to my understanding. proceedings against private landowners if they don't get 24 the easement at the end of the process, you won't make 24 Q. Yeah. And Summit no longer does that, because 25 that --25 we look at the attachment to this memorandum of **PAGE 253 PAGE 255** 1 A. I said yes. I said yes, that's an option. 1 easement, the only thing it identifies is Exhibit A, 2 Q. Are you aware of any situation ever in North 2 which is a description there, township 141 north, range 3 Dakota's history where a private company has pursued 3 80 west, fifth prime meridian, section 27, the northeast 4 eminent domain or had the ability to pursue eminent (sic) half of the northeast quarter; correct? 5 domain against private landowners in North Dakota? 5 A. Yes. And this says it's an amendment so I'm not 6 A. I'm not familiar with the history of North 6 sure if this is an amendment to an existing easement. I 7 Dakota, private versus public, but condemnation is 7 don't know what the context is here. 8 condemnation. So whether it's a public company or a 8 Q. Well, but if someone reads this easement, what 9 private company, it's still condemnation. 9 it's telling them is somewhere on those 80 acres 10 **Q.** Except for you've conceded Summit is a private 10 described on Exhibit A the Summit pipeline is proposed 11 company. So my question to you is can you name any 11 to be installed and is going to go somewhere on those 12 12 situation before in North Dakota's history where a 80 acres; correct? 13 strictly private company has been permitted and has 13 A. I'm -- I'm trying to scroll down to see what 14 exercised eminent domain or condemnation proceedings to 14 Exhibit A says. Here it is. I see a legal description 15 take an easement or a property from a private landowner? 15 on Exhibit A. 16 MR. DUBLINSKE: Objection, Your Honor. Not 16 Q. Right. And the area it describes consists of 17 relevant to any issue in front of the Commission. 17 80 acres; correct? Because it says the north half of 18 Eminent domain is a separate matter outside the the northeast quarter. So a quarter is 160 acres. If 19 Commission's jurisdiction. And in any event, this 19 you take half of that, that's 80 acres, isn't it? 20 distinction between public and private is not one that 20 A. I believe that's correct. 21 21 matters under the law. Q. Okay. And so if you're an adjacent landowner 22 22 that has a residence or some structures that are located ALJ HOGAN: I agree. The Commission 23 23 specifically said in its August 4th, 2023, order that it close to the section line that adjourns that -- that 24 24 did not have any jurisdiction over eminent domain quarter, you don't know whether that easement is for 25 associated with this project. So I will sustain that right next to the section line, right next to your home,

PAGE 256

4	and be 50 feet away and be a kind of 5 of any and	4	O (DVMD DAV//E) Me Dav/
1	could be 50 feet away, could be a hundred feet away, you	1	Q. (BY MR. BAKKE) Mr. Powell, let me ask you
2	just don't know where the easement is for based on the	2	this. Mr. Boeshans testified earlier today that the
3	public filing by Summit; correct?	3	route map that was provided has changed in some
4	A. Well, again, I don't understand the context of	4	locations. Is that accurate?
5	this document. Mr. Rorie signed it. But I do know that	5	A. Not to my knowledge. So the route maps as as
6	typically there's always an agreement on where the	6	issued as part of this petition for reconsideration has
7	corridor of a pipeline would be across a particular	7	not changed. As we survey, there may be some and as
8	tract. And then if we think that that would encroach	8	we talk to landowners about potentially signing an
9	within 500 feet of a residence or business, then we	9	easement, there may be some micro changes, but they will
10	would also seek a waiver. And since, to my knowledge,	10	all be made within the laws or the guidance of the PSC
11	we haven't sought one in this instance again, I'm not	11	on on what the limitations are. And if notification
12	sure what the context of this is.	12	has to be made to the PSC, it will be done.
13	Q. And I don't think anybody in the public or an	13	Q. In relation to this memorandum of easement that
14	adjacent landowner does either because Summit has now	14	is filed, there would be no ability from an adjacent
15	switched how it records these easements so it's not	15	landowner to determine whether the location described on
16	transparent with the public or adjacent landowners where	16	Exhibit A is the same location shown on the maps the
17	the easement is that Summit has secured from an adjacent	17	map log submitted to the PSC. Is that correct?
18	landowner; correct?	18	A. If this is an amendment to an easement, yes, the
19	MR. DUBLINSKE: Your Honor, I'm going to object.	19	the route on the property or properties is is
20	First of all, Mr. Bakke is clearly testifying here as	20	specific.
21	opposed to asking the witness a question. Secondly, how	21	Q. Well, but there's no way for the public or an
22	a private agreement between a private entity and a	22	adjacent landowner to determine whether it's the same
23	private citizen is structured and Mr. Bakke certainly	23	one because Exhibit A only describes 80 acres. They
24	isn't suggesting that there's anything legally wrong	24	don't know whether, subsequent to that map log being
25	about filing the memorandum of easement is of dubious	25	prepared by Summit, there was some change due to
	PAGE 257		PAGE 259
1	relevance to this proceeding. This is just a completely	1	negotiations with the landowner involved; correct?
2	inappropriate line of questioning and Mr. Bakke is just	2	A. Well, the change would be would be and
3	testifying.	3	ultimately in the easement the change would be reflected
4	ALJ HOGAN: Can you address relevance?	4	and recorded.
5	MR. BAKKE: Sure. The relevance is, as an	5	Q. But that hasn't happened because the nobody
6	example, an adjacent landowner cannot determine, based	6	can see the easement. All you file now is a memorandum
7	on going to the courthouse or otherwise, where a Summit	7	of easement; correct?
8	easement is on an adjacent landowner, which could be	8	A. The only change in strategy is because of the
9	very close to their home. The only word we have that	9	change in schedule we are now negotiating options with
10	it's 500 feet away is Mr. Dublinske saying that and	10	landowners versus executing the easement and paying
11	Mr. Powell saying that. But this doesn't do that.	11	upfront.
12	And it's also relevant that Summit is not being	12	Mr. Rorie will have Mr. Rorie would have to
13	transparent with the public as to where this pipeline	13	add further clarification around this specific document.
14	may be installed and there could have been a whole lot	14	He signed it.
15	of other interested parties who either may have	15	Q. Well, I'm sure he would, but he isn't here
16	intervened in this matter or may have appeared before	16	today.
17	this Commission and offered testimony that that pipeline	17	And in terms of the public's ability to respond
18	is simply too close to their property but they don't	18	to the reroute, this is their opportunity, not some
19	have any ability to do that because Summit now hides	19	later date when there's a more detailed easement filed
20	that information.	20	with the Burleigh County courthouse. You understand
21	MR. DUBLINSKE: Your Honor, we filed very	21	that, don't you?
22	detailed route maps. And this whole issue about	22	A. Well, I can tell you that the landowner that
23	transparency is just Mr. Bakke's opinion that he	23	signs any landowner that signs, whether it's an
24	continues to testify about as if he were a witness.	24	option or an easement, knows where the pipeline is
25	MR. BAKKE: Well, Mr. Powell I can move on.	25	intended to traverse their property or properties. And
	PAGE 258	L	PAGE 260

	TAD I ODLIG OLIV	ICE COMMINISSION			
1	if that encroached on another business or residence off	1	there were homes nearby?		
2	of that property and it fell within 500 feet, we would	2	A. I am aware that a shelter-in-place order was		
3	notify that landowner and secure a waiver and notify the	3	issued.		
4	PSC.	4	Q. And were you aware it was approximately two and		
5	Q. Switching topics, is Summit aware of the latest	5	a half hours after the leak occurred before the leak was		
6	CO2 pipeline leak that occurred in Sulphur, Louisiana,	6	stopped?		
7	on April 3, 2024?	7	A. I I do not believe that's correct.		
8	A. Yes. And actually, in the most recent emergency	8	Q. Who did you speak to from the local community or		
9	management meetings, that PowerPoint has been updated to	9	from ExxonMobil about how long it was after the leak		
10	include that release.	10	occurred before it was stopped?		
11	Q. And has Summit contacted Denbury or the	11	A. Again, it wasn't me that spoke to anyone from		
12	government officials or others about this leak in	12	ExxonMobil, but I believe that some a Summit		
13	Sulphur, Louisiana?	13	representative spoke to someone that's in their		
14	A. Well, Denbury has now been acquired by	14	emergency organization.		
15	ExxonMobil and so there have been general conversations	15	Q. Let's assume hypothetically, Mr. Powell, you		
16	with ExxonMobil about that leak. But we do we do	16	didn't live in Houston, Texas, that you lived here, and		
17	have a good understanding of what happened.	17	that someone wanted to build a CO2 pipeline, 24-inch		
18	Q. Okay. And who spoke to ExxonMobil?	18	pipeline, 500 feet away from your residence or even a		
19	A. Either Mr. Daum or Mr. Dillon. I can't remember	19	bit further. Would you want to be fully informed and		
20	specifically who he spoke with.	20	aware of the risk to you and your family posed by that		
21	Q. Okay. How many barrels of CO2 leaked in	21	CO2 pipeline in the event there was a leak?		
22	Sulphur, Louisiana?	22	A. Well, there's there are actually requirements		
23		23	• •		
24	A. Well, it was an atmospheric release. The	24	that you have to inform folks. And part of that is		
25	quantity or the volume, I don't remember. I do I do	25	through the conversations we're having with emergency		
25	know that, according to the reports, that the PAGE 261	25	management, first responders, but there's a public PAGE 263

		COMMISSION		
1	by a leak in the Summit pipeline to want to be fully	1	Q. Well, it may not be applicable to North Dakota	
2	informed in advance of the dangers posed should the	2	law, but doesn't once they sign the waiver, can't	
3	pipeline leak, including viewing a dispersion model?	3	Summit argue it would apply to a second pipeline	
4	A. What I am saying is that there are subject	4	installed in the same easement location?	
5	matter experts and stakeholders in these communities	5	A. No. Because the easement is very specific. It	
6	that will have access to information that can share	6	will stipulate a single pipeline of either 24-inch	
7	information to the extent they think it's necessary with	7	or 12-inch or 8-inch or 4-inch in diameter, depending on	
8	with landowners or potentially impacted parties.	8	what segment of pipeline it is in North Dakota.	
9	Q. Okay. So you think that's unreasonable for	9	Q. Okay. Will the Summit CO2 pipeline and the CO2	
10	nearby homeowners to want to view and understand the	10	have any impurities in it, and if so, what will those	
11	dispersion model information. That's your testimony?	11	impurities be?	
12	MR. DUBLINSKE: Your Honor, asked and answered.	12	A. It will in	
13	I would also ask, are we intending to reserve	13	MR. DUBLINSKE: Objection.	
14	any time yet today for Commission and for redirect?	14	Hang on, Jimmy. Hang on, Jimmy.	
15	ALJ HOGAN: I was not intending so there	15	That I'm going to object on scope. That	
16	hasn't been redirect on the other Summit witnesses so I	16	question is clearly one that could have been discussed	
17	presumed, maybe incorrectly, that there would not be for	17	and, frankly, surely was discussed in the original	
18	this one as well.	18	proceeding. That has nothing to do with anything	
19	Yeah, I think he did answer the question.	19	specific to the reconsideration.	
20	MR. BAKKE: Okay.	20	MR. BAKKE: It has to do with the safety of the	
21	Q. (BY MR. BAKKE) So what you're saying, just so	21	CO2 and the health effects. The impurities will, in	
22	I understand your answer, Mr. Powell, is people in the	22	fact, have an effect on health considerations as with	
23	public should just rely on the so-called expert to tell	23	any other gaseous liquid on their on their health.	
24	them whether or not there is a danger or a risk to their	24	So it's it's relevant to the issue being addressed by	
25	health, life, or safety, including their family members?	25	the PSC at this hearing.

There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside	
2 3 4 5 6 7 8	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about	2 3 4 5 6 7 8	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will	
2 3 4 5 6 7 8 9	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver	2 3 4 5 6 7 8 9	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection.	
2 3 4 5 6 7 8 9	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that	2 3 4 5 6 7 8 9	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51,	
2 3 4 5 6 7 8 9 10	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited	2 3 4 5 6 7 8 9 10	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly.	
2 3 4 5 6 7 8 9 10 11	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or	2 3 4 5 6 7 8 9 10 11	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes.	
2 3 4 5 6 7 8 9 10 11 12	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC	2 3 4 5 6 7 8 9 10 11 12 13	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue	
2 3 4 5 6 7 8 9 10 11 12 13	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet.	2 3 4 5 6 7 8 9 10 11 12 13	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there	2 3 4 5 6 7 8 9 10 11 12 13 14 15	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota,	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so.	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other states. But individual easements and the waivers that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so. Q. (BY MR. BAKKE) Is there any certification	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other states. But individual easements and the waivers that have been signed are, to my knowledge, landowners that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so. Q. (BY MR. BAKKE) Is there any certification process, Mr. Powell, for the CO2 in the Summit pipeline?	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other states. But individual easements and the waivers that have been signed are, to my knowledge, landowners that we have executed easements with, they are aware that in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so. Q. (BY MR. BAKKE) Is there any certification process, Mr. Powell, for the CO2 in the Summit pipeline? A. There there is a quality specification.	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other states. But individual easements and the waivers that have been signed are, to my knowledge, landowners that we have executed easement it is very specific to a single	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so. Q. (BY MR. BAKKE) Is there any certification process, Mr. Powell, for the CO2 in the Summit pipeline? A. There there is a quality specification. Q. Okay. Let's turn to the topic of electricity.	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. DUBLINSKE: Your Honor, that's just a restatement of the question that you just sustained an objection on. ALJ HOGAN: Correct. He already answered that. MR. BAKKE: I think that's the first time I asked it, but anyway. Q. (BY MR. BAKKE) There's been testimony about the waiver agreement, Exhibit A. And the waiver agreement indicates that parties who are signing that waiver or agreement in relation to an inhabited residence acknowledge and do not object to the pipe or the placement of one or both Summit Carbon Solutions LLC pipelines within 500 feet. And this came up at the last hearing and there was no answer provided. What are one or both of the Summit pipelines that these people are providing a waiver for? A. Well, that's the word "both" is not applicable in North Dakota. It is applicable in other states. But individual easements and the waivers that have been signed are, to my knowledge, landowners that we have executed easements with, they are aware that in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	mean, that was the first hearing, right. There's nothing that's changed about the composition or the impact of impurities because of the reconsideration issues. ALJ HOGAN: I agree it was discussed in the first round of hearings and I also believe it is outside the scope of what the rehearing was issued for so I will sustain the objection. And I'll just also note that it's 4:51, Mr. Bakke, so you can plan accordingly. MR. BAKKE: Yes. And my understanding, Your Honor, is the issue to be addressed one of the issues is the requirement that the Summit pipeline produce minimal adverse effects on the welfare of the citizens of North Dakota, irrespective of whether that was a topic covered by Summit in their questioning, it is something we're entitled to ask about, but I understand you're not going to permit me to do so. Q. (BY MR. BAKKE) Is there any certification process, Mr. Powell, for the CO2 in the Summit pipeline? A. There there is a quality specification.	

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

1 power? A. I wouldn't have that information, Mr. Bakke. 2 A. Depending on where it loses power, it -- it Q. Does Summit have any backup generators that will 3 could be up to and including shutting-in the pipeline 3 be available at the site of the valves or other 4 4 locations along the Summit pipeline route that will be 5 Q. Okay. If it loses electrical power, can there stationed there permanently? 6 6 be a catastrophic failure? A. We do have solar backup, the main line valves. 7 A. No. 7 So in the case there's a loss of power -- and these 8 8 valves are fail close. But in case of a loss of power, Q. And why do you say no? What would prevent a 9 catastrophic failure? 9 then there will be -- in case of lost power from the 10 A. Because there's very clear -- we have very clear 10 grid or from the electrical provider, we will still have 11 11 shut-down procedures in an emergency or in normal power to the valves and the actuators. 12 operation and those include loss of power. And so those 12 Q. And do you know whether or not there are any 13 will be followed and the pipeline will be shut down 13 reliability issues with those solar backup valves at --14 safely. 14 valves in relation to extreme weather conditions such as 15 Q. Well, how long does it take to shut down the 15 extreme cold or ice or other weather events? 16 16 A. We've installed the same type of infrastructure 17 17 A. Again, it depends on the situation, but we can in North Dakota on the western side in Montana and 18 shut these valves -- all main line valves in a matter of 18 Wyoming so my assumption is there will be no issue. 19 seconds, but in our surge analysis we have assumed that 19 Q. Where in Montana? 20 20 it would take a few minutes to shut just to make sure A. We built a pipeline from Medora, North Dakota, 21 that it's a -- it's a safe shutdown. 21 down to southeastern Wyoming. And I used to work for 22 Q. Okay. And ExxonMobil had a similar redundancy 22 Hiland Partners and we had a lot of pipeline and 23 23 or shutdown backup system in Louisiana and that system facilities in and around the Williston Basin so there 24 failed; correct? 24 were quite a few of those installations. And to my 25 25 A. Not -- again, I'm not familiar with the very knowledge, we never had an issue. **PAGE 271** 1 1 specifics of what they -- how they shut in their system. Q. Do you know what water hammer is? 2 Q. What has Summit done to ensure, if anything, 2 A. I do know what water hammer is. 3 that they'll have an adequate electrical supply to 3 Q. And do you know whether that can occur if 4 operate the Summit pipeline in North Dakota? there's a power outage? 5 A. Well, specific to Burleigh County, I know that 5 A. Again, that's why we have battery backup on 6 these valves, so that we can control the valves if our power and control team, our electrical team, has 6 7 spoke with each of the utilities. In the case of 7 there's a power outage. 8 Burleigh, I believe it's Capital Electric. And I 8 Q. Is water hammer a catastrophic failure 9 believe they spoke with the manager of engineering 9 condition? 10 services. And as we've -- as we stated in our submittal 10 A. It could be. Your surge -- your surge analysis 11 to the Public Service Commission, you know, they have 11 will indicate where those risk may occur. 12 12 internally decided that they can handle the load or the Q. Okay. Let's turn quickly to the Welspun Tubular 13 demand. They do need to make some infrastructure 13 lawsuit for \$15 million in federal court. Is it correct 14 modifications that Summit will -- will provide the 14 in the Welspun legal pleadings, that they will not be 15 capital for. 15 the carbon steel pipeline provider for the Summit 16 Q. So has Capital Electric or any other power 16 17 supplier indicated that they can provide continuous 17 A. That is not correct. And they were -- they were 18 electrical power for the Summit pipeline in North never the sole provider of carbon steel line pipe. But 19 Dakota? 19 that is not correct. 20 A. Again, our team has been working with these 20 Q. Okay. So the lawsuit's been resolved and 21 power providers for at least two years and I'm not aware 21 Welspun is now going to provide the carbon steel 22 22 of any concern about intermittent failure or shutdown. pipeline? Is that your testimony? Q. Have there been any -- is there -- has there 23 23 A. Well, that's -- it's really up to Summit because 24 24 been any history of power outages in Burleigh County, the lawsuit -- Welspun ordered (indiscernible) coil 25 say, in the last 5, 10 years of the electrical system? outside of the production window, which meant it was

Frankly, I don't think he should be expected to be inconvenienced given how the afternoon's time was spent, but if it's important to the Commission, we will make him available. ALJ HOGAN: I don't think I think the purpose of the cross-examination of these witnesses were for the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	those four. The other three could could actually produce all of the line pipe that's needed. So Welspun if we can resolve this issue, then Welspun will remain part of the mix. If we can't, then we'll utilize the other three mills to supply the line pipe. Q. When the Summit pipeline is being constructed, who will be inspecting the pipeline? A. We'll have third-party inspection companies that actually provide the the craft inspection. And then we will have our in-house construction managers and project engineers and third-party subject matter metallurgists that will also inspect the quality of the work. Q. Are these third-party inspectors paid by Summit? A. They are. Q. Okay. Will there be any governmental agencies that will be inspecting the construction of the Summit pipeline?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the number of witnesses that were actually going to be called during the hearing. MR. JORDE: I can tighten that up. I just can't tell you a specific order at this time. ALJ HOGAN: Okay. Well, as much as you can give us would be helpful. MR. DUBLINSKE: And just to be clear, today had been set. Is Mr. Powell no longer on the stand when we start tomorrow morning? And is Mr. Schmidt and Mr. Schmidt is going to have to change some plans. Frankly, I don't think he should be expected to be inconvenienced given how the afternoon's time was spent, but if it's important to the Commission, we will make him available. ALJ HOGAN: I don't think I think the purpose of the cross-examination of these witnesses were for the benefit of the intervenors and not for the Commission
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	those four. The other three could could actually produce all of the line pipe that's needed. So Welspun if we can resolve this issue, then Welspun will remain part of the mix. If we can't, then we'll utilize the other three mills to supply the line pipe. Q. When the Summit pipeline is being constructed, who will be inspecting the pipeline? A. We'll have third-party inspection companies that actually provide the the craft inspection. And then we will have our in-house construction managers and project engineers and third-party subject matter metallurgists that will also inspect the quality of the work. Q. Are these third-party inspectors paid by Summit? A. They are. Q. Okay. Will there be any governmental agencies that will be inspecting the construction of the Summit pipeline? A. Well, it's my experience, especially a project	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the number of witnesses that were actually going to be called during the hearing. MR. JORDE: I can tighten that up. I just can't tell you a specific order at this time. ALJ HOGAN: Okay. Well, as much as you can give us would be helpful. MR. DUBLINSKE: And just to be clear, today had been set. Is Mr. Powell no longer on the stand when we start tomorrow morning? And is Mr. Schmidt and Mr. Schmidt is going to have to change some plans. Frankly, I don't think he should be expected to be inconvenienced given how the afternoon's time was spent, but if it's important to the Commission, we will make him available. ALJ HOGAN: I don't think I think the purpose of the cross-examination of these witnesses were for the benefit of the intervenors and not for the Commission itself. So if intervenors want to call Mr. Schmidt
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	those four. The other three could could actually produce all of the line pipe that's needed. So Welspun if we can resolve this issue, then Welspun will remain part of the mix. If we can't, then we'll utilize the other three mills to supply the line pipe. Q. When the Summit pipeline is being constructed, who will be inspecting the pipeline? A. We'll have third-party inspection companies that actually provide the the craft inspection. And then we will have our in-house construction managers and project engineers and third-party subject matter metallurgists that will also inspect the quality of the work. Q. Are these third-party inspectors paid by Summit? A. They are. Q. Okay. Will there be any governmental agencies that will be inspecting the construction of the Summit pipeline? A. Well, it's my experience, especially a project of this size, PHMSA will have third-party subject matter	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the number of witnesses that were actually going to be called during the hearing. MR. JORDE: I can tighten that up. I just can't tell you a specific order at this time. ALJ HOGAN: Okay. Well, as much as you can give us would be helpful. MR. DUBLINSKE: And just to be clear, today had been set. Is Mr. Powell no longer on the stand when we start tomorrow morning? And is Mr. Schmidt and Mr. Schmidt is going to have to change some plans. Frankly, I don't think he should be expected to be inconvenienced given how the afternoon's time was spent, but if it's important to the Commission, we will make him available. ALJ HOGAN: I don't think I think the purpose of the cross-examination of these witnesses were for the benefit of the intervenors and not for the Commission itself. So if intervenors want to call Mr. Schmidt during the two and a half days they've been allowed or
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	those four. The other three could could actually produce all of the line pipe that's needed. So Welspun if we can resolve this issue, then Welspun will remain part of the mix. If we can't, then we'll utilize the other three mills to supply the line pipe. Q. When the Summit pipeline is being constructed, who will be inspecting the pipeline? A. We'll have third-party inspection companies that actually provide the the craft inspection. And then we will have our in-house construction managers and project engineers and third-party subject matter metallurgists that will also inspect the quality of the work. Q. Are these third-party inspectors paid by Summit? A. They are. Q. Okay. Will there be any governmental agencies that will be inspecting the construction of the Summit pipeline? A. Well, it's my experience, especially a project of this size, PHMSA will have third-party subject matter experts that are inspecting the welding procedures.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the number of witnesses that were actually going to be called during the hearing. MR. JORDE: I can tighten that up. I just can't tell you a specific order at this time. ALJ HOGAN: Okay. Well, as much as you can give us would be helpful. MR. DUBLINSKE: And just to be clear, today had been set. Is Mr. Powell no longer on the stand when we start tomorrow morning? And is Mr. Schmidt and Mr. Schmidt is going to have to change some plans. Frankly, I don't think he should be expected to be inconvenienced given how the afternoon's time was spent, but if it's important to the Commission, we will make him available. ALJ HOGAN: I don't think I think the purpose of the cross-examination of these witnesses were for the benefit of the intervenors and not for the Commission itself. So if intervenors want to call Mr. Schmidt during the two and a half days they've been allowed or allotted time and Summit's willing to accommodate, I'll
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	those four. The other three could could actually produce all of the line pipe that's needed. So Welspun if we can resolve this issue, then Welspun will remain part of the mix. If we can't, then we'll utilize the other three mills to supply the line pipe. Q. When the Summit pipeline is being constructed, who will be inspecting the pipeline? A. We'll have third-party inspection companies that actually provide the the craft inspection. And then we will have our in-house construction managers and project engineers and third-party subject matter metallurgists that will also inspect the quality of the work. Q. Are these third-party inspectors paid by Summit? A. They are. Q. Okay. Will there be any governmental agencies that will be inspecting the construction of the Summit pipeline? A. Well, it's my experience, especially a project of this size, PHMSA will have third-party subject matter experts that are inspecting the welding procedures. They'll be on-site in the field during construction.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the number of witnesses that were actually going to be called during the hearing. MR. JORDE: I can tighten that up. I just can't tell you a specific order at this time. ALJ HOGAN: Okay. Well, as much as you can give us would be helpful. MR. So if intervenors want to call Mr. Schmidt during the two and a half days they've been allowed or allotted time and Summit's willing to accommodate, I'll allow it. But I think that's up to the parties to work out. And same with further testimony from Mr. Powell.

PAGE 276

1	the record, you know, originally my understanding was	1	ALJ HOGAN: That's correct, Mr. Bakke. And I
2	this day was set aside for the intervenors to conduct	2	appreciate that. And you gave me time estimates. So I
3	cross-examination of Summit's witnesses. They added a	3	do appreciate that.
4	witness, Mr. Olson, this morning in their case. So they	4	
5	ate up part of our time with Mr. Olson, which included	5	
6	cross-examination, but they threw in a new witness. So	6	
7	to suggest we weren't efficient with our time I don't	7	
8	think is is accurate. But at any rate, we didn't get	8	
9	a full day and I'll just note our objection to that.	9	
10	And in relation to tomorrow, the witnesses that	10	
11	Mr. Jorde described that we'll be calling is accurate.	11	
12	I can't state that we'll get them in in the morning,	12	
13	because there is one witness of theirs that I understand	13	
14	they want to go on first, Mr. Malloy, which is fine, but	14	
15	I'm just saying those other witnesses could be	15	
16	throughout the day tomorrow.	16	
17	ALJ HOGAN: Well, and I'll just note that the	17	
18	time allocations because I was told by the	18	
19	intervenors at the prehearing conference that no	19	
20	schedule was necessary and that the intervenors were	20	
21	working together to develop a schedule. And I'm not	21	
22	saying that didn't happen, but I sent an email last week	22	
23	asking for that schedule because it was my understanding	23	
24	the two parties were working together to schedule	24	
25	witnesses. That's not what I received.	25

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

significantly [3] -49:8, 58:23, 243:17 signing [4] - 137:14, 138:14. 259:8. 266:10 signs [4] - 46:14, 178:7, 260:23 silence [1] - 66:17 silenced [1] - 3:25 silent [1] - 66:20 Silver [2] - 146:2, 147.18 similar [12] - 12:11, 12:18, 14:23, 17:20, 17:25, 18:5, 18:14, 24:8, 43:8, 44:24, 76:5, 269:22 similarly [1] - 238:20 simple [2] - 197:13, 216:11 simply [9] - 64:1, 84:13, 172:8, 175:8, 183:19, 211:9, 214:2, 246:17, 258:18 simulated [1] - 167:14 simulating [1] - 169:5 simulation [4] -132:14, 132:25, 163:21 simulations [1] -132:19 single [7] - 37:1, 43:5, 61:6, 75:1, 168:24, 266:24, 267:6 Sioux [6] - 239:22, 240:11. 241:2. 246:4, 246:8, 249:7 sit [3] - 10:8, 186:21, 201:10 site [4] - 178:23, 193:24, 271:3, 274:22 siting [1] - 175:12 situation [9] - 57:5, 67:6, 100:16, 138:4, 245:15, 254:2, 254:12, 269:17, 273:19 situations [6] - 24:7, 24:8, 32:14, 39:9, 41:11, 57:13 six [11] - 33:4, 33:13, 49:10, 71:19, 88:12, 96:16, 99:7, 99:25, 100:21, 153:13, 153:14 size [6] - 12:19, 48:17, 54:18, 106:12, 274.20 sizings [1] - 191:16 Skaare [4] - 28:11, 28:14, 28:19, 29:1

slide [14] - 133:11, 199:8, 199:16, 225:19, 226:2, 226:19, 226:22, 227:1, 227:4, 227:8, 227:10, 227:13, 227:20, 234:1 slides [8] - 131:14, 131:25, 132:2, 132:16, 165:14, 180:22, 181:11, slideshow [2] -181:16, 181:18 slightly [2] - 14:24, 15:2 **small** [5] - 15:1, 54:3, 76:7, 76:8, 76:10 smaller [1] - 216:9 smoothly [1] - 275:8 so-called [1] - 265:23 so.. [2] - 176:4, 218:6 social [1] - 87:20 soil [3] - 14:18, 14:21, 251:16 solar [5] - 55:24, 117:9, 117:19, 271:6. 271:13 sold [11] - 12:14, 12:20, 24:2, 34:13, 35:8, 35:9, 36:17, 38:24, 40:7, 40:10 sole [1] - 272:18 solely [1] - 273:8 **Solutions** [5] - 174:19, 191:20, 197:17, 207:1, 266:13 someone [23] - 40:6, 40:7, 40:8, 41:8, 44:10, 55:20, 70:7, 70:10, 78:4, 86:23, 148:17, 152:6, 156:17, 187:7, 208:10, 208:12, 227:24, 242:23, 256:8, 263:13, 263:17, 264:7 someplace [1] -156:19 sometime [1] - 144:23 sometimes [10] - 47:2, 47:3, 48:7, 58:23, 58:24, 87:1, 98:8, 141:12, 141:14 somewhat [1] -103:17 somewhere [4] - 49:1, 157:1, 256:9, 256:11 soon [2] - 137:23, 275:13 sorry [18] - 3:2, 19:12,

66:21, 68:22, 84:1,

98:22, 112:18,

178:15, 193:4, 200:16. 209:24. 220:5, 224:25, 227:11, 230:17, 231:20, 233:20, 247:3 sort [3] - 78:14, 132:1, 249:19 sorts [1] - 51:24 sought [1] - 257:11 sounded [1] - 234:2 sounds [1] - 114:13 source [5] - 27:20, 117:7, 117:8, 221:17, 221:20 sources [7] - 15:6, 111:6, 117:13, 117:18, 117:21, 118:2, 118:15 South [6] - 44:12. 212:23, 212:25, 214:7, 217:14 south [14] - 167:8, 188:24, 238:17, 238:22, 239:9, 240:5, 241:24, 246:25, 247:6, 247:8, 247:12, 247:20, 248:4, 250:1 southeast [1] - 74:12 southeastern [1] -271:21 southern [50] -149:10, 149:13, 149:16, 149:19, 149:21, 150:4, 150:7, 150:9, 150:13, 150:18, 236:2. 236:8. 236:12, 237:9, 237:13, 237:15, 237:16, 237:19, 237:22, 237:23, 238:12, 238:17, 238:22, 239:1, 239:2, 239:5, 240:1, 240:10, 241:4, 241:7, 241:20, 242:2, 242:11, 243:4, 243:12, 243:13, 243:20, 243:25, 244:3, 244:10, 246:19, 247:2, 247:4, 247:15, 247:25, 248:9, 248:16, 248:19, 248:24, 249:12 space [8] - 47:10, 47:19, 48:7, 178:8, 178:10, 178:17,

speaking [6] - 10:17, 42:11, 194:1, 234:16, 237:12, 237:13 speaks [2] - 37:25, special [2] - 6:1, 28:25 specific [63] - 22:17, 23:7, 23:14, 23:16, 44:18, 73:23, 74:7, 74:20, 75:11, 75:13, 82:18, 89:24, 89:25, 90:6, 90:20, 91:13, 99:24, 101:21, 104:10, 104:11, 106:5, 130:11, 131:14, 134:13, 138:15, 141:1, 144:8, 144:13, 156:20, 161:4, 162:16, 163:8, 164:9, 164:13, 164:14, 164:15, 164:18, 165:1, 171:20, 173:17, 173:23, 175:4, 175:21, 177:22, 186:6, 188:1, 199:11, 204:4, 207:11, 222:6, 224:13, 240:23, 255:4, 255:21, 259:20, 260:13, 266:24, 267:5, 267:19, 270:5, 276:5 specifically [33] -48:21, 51:9, 73:19, 75:1, 76:13, 82:5, 95:21, 111:8, 111:11, 115:10, 117:12, 127:14, 127:24, 133:21, 134:8, 135:22, 136:1, 144:13, 145:20, 162:3, 164:2, 165:15, 168:11, 168:17, 173:21, 184:25, 190:25, 191:21, 198:7, 200:6, 231:14, 254:23, 261:20 specification [1] -268:23 specifications [1] -13:16 specifics [12] - 42:6, 42:13, 82:22, 93:13, 126:6, 127:13, 137:18, 149:18, 171:25, 174:14, 175:7, 270:1 speculating [1] -

29:12 speculation [6] - 28:5, 53:22, 72:21, 72:23, 74:16, 76:1 speed [12] - 138:2, 164:15, 166:3, 166:6, 166:20, 166:23, 167:2, 167:15, 167:22, 167:24, 168:2, 168:3 spelled [1] - 8:8 spelling [1] - 8:4 spending [1] - 249:21 spent [5] - 104:16, 194:25, 203:25, 252:18, 276:13 Spirit [2] - 88:19, 95:14 spoken [5] - 41:19, 65:1. 114:18. 114:20, 115:7 SPP [2] - 111:13, 111:14 spring [1] - 46:21 stability [1] - 168:8 staff [1] - 264:17 stakeholders [2] -145:18, 265:5 stand [3] - 7:23, 122:9, 276:9 stand-alone [1] standalone [1] - 227:2 standard [2] - 186:15, 211:22 standards [3] - 22:13, 174:22, 175:2 Standing [10] -239:21, 239:24, 240:11, 240:15, 240:18, 241:2, 241:6, 246:8, 247:17, 249:7 Stark [1] - 160:15 **start** [12] - 5:13, 8:3, 25:2, 30:2, 52:6, 136:14, 142:21, 162:22, 195:16, 195:20, 220:9, 276:10 **started** [9] - 3:2, 6:25, 62:5, 72:1, 72:16, 141:25, 142:21, 221:12 starting [5] - 62:7, 63:5, 80:5, 129:2, 172:7 starts [2] - 155:24 state [44] - 8:11, 9:6, 22:10, 32:10, 38:20, 39:7, 40:3, 40:24, 44:20, 49:3, 62:9, 66:7, 84:9, 88:10,

178:20, 178:25

spare [1] - 218:21

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION

90:14, 91:6, 94:11, 96:8, 99:20, 100:4, 103:14, 103:16, 105:9, 105:19, 108:16, 110:7, 110:20, 110:25, 113:5, 123:7, 123:11, 126:23, 156:18, 158:15, 185:22, 188:13, 205:25, 229:23, 229:25, 232:3, 241:11, 264:23, 277.12 State [6] - 3:13, 173:3, 175:11, 188:8, 188:12, 242:14 State's [1] - 106:25 statement [14] - 77:16, 87:14, 87:22, 90:18, 139:2, 176:2, 201:24, 205:13, 205:14, 205:19, 205:21, 214:1, 228:10, 239:10 states [17] - 9:16, 18:6, 22:22, 49:4, 49:6, 49:7, 78:7, 105:10, 105:11, 105:22, 175:1, 212:13, 212:21, 214:23, 215:3, 217:15, 266:21 static [1] - 167:21 stating [3] - 8:3, 126:10, 195:20 station [3] - 204:18, 204:22, 204:24 stationed [1] - 271:5 stations [6] - 193:15, 193:24, 194:13, 204:5, 204:7, 204:23 **statistics** [1] - 78:16 status [2] - 122:19, 215:2 stay [3] - 46:17, 107:17, 195:2 steel [9] - 272:15, 272:18, 272:21, 273:6, 273:10, 273:15, 273:18, 273:21, 273:22 Steinbronn [1] -275:20 step [1] - 137:3 steps [7] - 85:3, 85:4, 104:20, 153:6, 159:8, 189:17, 245:9 Steve [2] - 6:15, 6:16 stewardship [1] -87:18 stick [1] - 50:6 sticker [1] - 213:9

still [17] - 8:5, 54:9, 54:16, 141:19, 183:23, 188:7, 200:7, 200:10, 202:14, 205:5, 219:1, 219:3, 220:20, 244:16, 247:15, 254:9, 271:10 stipulate [1] - 267:6 stock [2] - 15:6, 41:16 stop [5] - 97:9, 142:12, 195:12, 233:5, 233:6 stopped [2] - 263:6, 263:10 storage [34] - 65:13, 85:16, 86:1, 86:3, 86:11. 86:14. 86:16. 86:22, 87:2, 87:13, 87:16, 89:20, 90:2, 94:5, 94:7, 94:21, 104:19, 104:25, 105:4, 105:21, 106:3. 106:8. 106:10, 106:22, 107:5, 107:16, 107:24, 108:18, 108:23, 109:6, 109:14, 109:18, 114:12. 211:7 store [3] - 105:6, 105:8, 251:16 stored [2] - 109:19, 188:17 strategies [1] - 65:7 strategy [3] - 68:3, 82:15. 260:8 street [1] - 33:21 Street [1] - 9:8 stress [1] - 73:24 strictly [2] - 251:18, 254:13 strike [2] - 83:8, 221:1 strikes [4] - 120:1, 120:5, 120:6, 230:25 strong [1] - 78:11 struck [1] - 231:23 **structure** [2] - 206:21, 206:22 structured [1] -257:23 structures [3] - 16:6, 155:1, 256:22 studies [5] - 54:2, 161:9, 173:16, 224:12, 248:3 study [7] - 17:5, 159:19, 159:25, 171:1, 199:16, 216:6, 224:21 sub [1] - 214:14

subdivision [4] - 31:9, 33:3, 33:24, 247:7 subdivisions [13] -25:12, 25:15, 25:16, 28:20, 29:3, 29:4, 29:20, 30:16, 30:19, 31:15, 31:16, 34:12, 47:5 subeconomy [1] -104.11 subindustry [1] -104:14 subject [15] - 24:1, 25:3, 80:10, 83:10, 163:16, 169:23, 181:2, 209:7, 213:22, 214:15, 264:16, 265:4. 274:11, 274:20 submission [1] -236:6 submit [2] - 160:1, 278:20 submittal [1] - 270:10 submitted [14] -114:24, 122:6, 134:10, 173:2, 194:4, 197:9, 197:14, 204:15, 214:18, 226:21, 236:13, 251:2, 251:9, 259:17 subrogation [2] -230:15, 230:21 subsequent [4] -106:15, 172:25, 173:7, 259:24 subsidy [1] - 92:8 substance [2] -172:22, 174:14 substantially [1] -10:10 substations [1] -115:2 substitution [1] - 56:7 sue [1] - 230:8 sued [1] - 206:1 suggest [3] - 72:13, 83:1, 277:7 suggesting [1] -257:24 **suggestion** [1] - 97:8 suggests [1] - 34:17 suing [1] - 229:20 suit [1] - 273:12 suitable [1] - 153:21 suits [2] - 205:22, 245:21 Sulphur [3] - 261:6, 261:13, 261:22 summarize [1] -

17:8, 18:1, 19:2, 29:1, 31:7, 38:22, 38:24, 39:25, 40:11, 40:14, 40:23, 41:17, 42:19, 42:21, 42:24, 44:11, 44:17, 44:22, 45:24, 46:2, 46:4, 52:16, 58:14, 64:1, 64:6, 64:8, 64:11, 65:5, 65:9, 65:23, 66:7, 67:15, 67:21, 68:2, 68:10, 69:22, 70:5, 70:7, 70:19, 70:23, 72:23, 73:13, 73:18, 74:25, 75:5, 75:14, 81:22, 81:25, 82:11, 82:14, 82:22, 82:23, 83:2, 84:17, 85:11, 90:14, 90:25, 91:7, 91:12, 91:22, 92:15, 92:23, 92:25, 93:6, 93:8, 93:15, 93:20, 93:24, 94:2, 95:3, 95:7, 95:18, 96:15, 96:18, 96:21, 97:20, 99:10, 99:14, 99:24, 100:5, 100:23, 101:3, 101:10, 102:9, 102:10, 102:14, 103:14, 103:15, 103:16, 103:19, 106:15, 107:1, 108:17, 109:21, 110:4, 110:5, 110:9, 111:10, 111:16, 111:23, 114:10, 114:18, 114:19, 115:8, 115:23, 116:8, 116:11, 116:15, 116:22, 117:3, 119:25, 120:10, 120:16, 120:19, 120:25, 121:2, 121:11, 121:13, 122:6, 122:18, 123:17, 124:1, 124:13, 124:14, 124:17, 125:2, 125:4, 125:21, 125:22, 125:23, 126:2, 126:13, 126:19, 126:25, 127:3, 127:12, 127:17, 129:10, 130:12, 130:25, 131:16, 133:25, 134:2, 134:7, 135:12, 135:14, 135:25, 137:7, 138:7, 139:9, 140:11, 143:12, 143:22, 145:25,

146:1, 146:14, 147:3, 147:8, 148:18, 149:6, 149:7, 149:22, 150:5, 150:12, 150:16, 150:19, 150:24, 151:6, 152:6, 152:8, 152:12, 152:20, 152:23, 153:18, 155:8, 156:13, 157:25, 158:23, 159:2, 159:4, 159:5, 159:20, 159:24, 160:1, 161:1, 161:2, 161:23, 163:10, 173:2, 173:5, 173:7, 173:12, 174:6, 174:19, 176:7, 177:12, 177:25, 178:10, 179:2, 181:10, 181:15, 184:25, 187:1, 189:5, 190:9, 190:16, 191:20, 192:7, 192:10, 195:1, 197:17, 199:19, 206:1, 207:1, 207:14, 208:3, 210:15, 212:12, 214:17, 215:16, 221:22, 222:15, 223:3, 229:14, 229:23, 232:25, 234:15, 234:24, 235:7, 236:7, 236:8, 237:17, 238:11, 238:15, 238:20, 239:1, 239:2, 239:17, 240:9, 240:11, 241:3, 243:19, 244:2, 248:17, 248:19, 250:7, 250:15, 251:17, 251:22, 252:2, 252:4, 252:8, 252:10, 252:15, 253:2, 253:3, 253:6, 253:9. 253:13. 253:15, 253:22, 254:10, 255:18, 255:22, 255:24, 256:10, 257:3, 257:14, 257:17, 258:7. 258:12. 258:19, 259:25, 261:5, 261:11, 263:12, 264:19, 265:1, 265:16, 266:13, 266:17, 267:3, 267:9, 268:15, 268:18,

Summit [309] - 14:3,

174:20

sub-entity [1] - 214:14

May 28, 2024, Formal hearing ND PUBLIC SERVICE COMMISSION
